

# 2018 STSW Survey

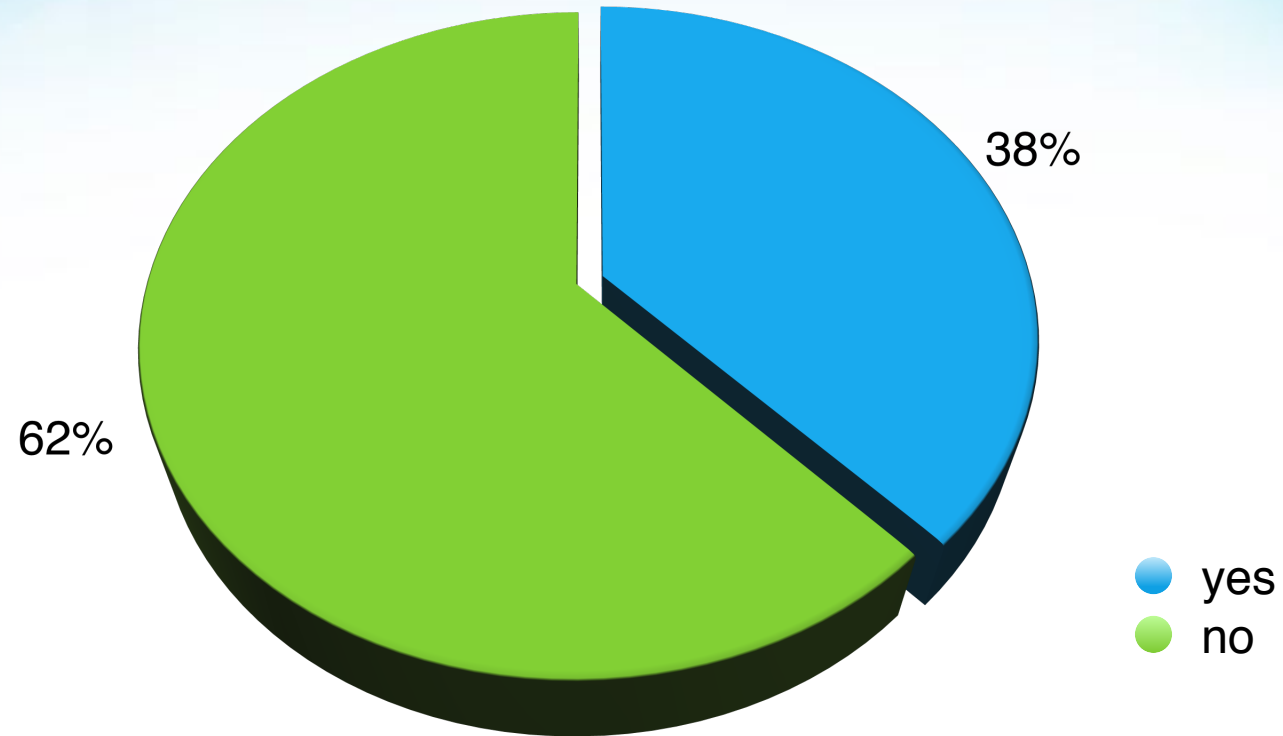

*Survey invitations were sent to 480 STSW members  
and conference registrants.  
175 social workers responded.*

# Years Employed

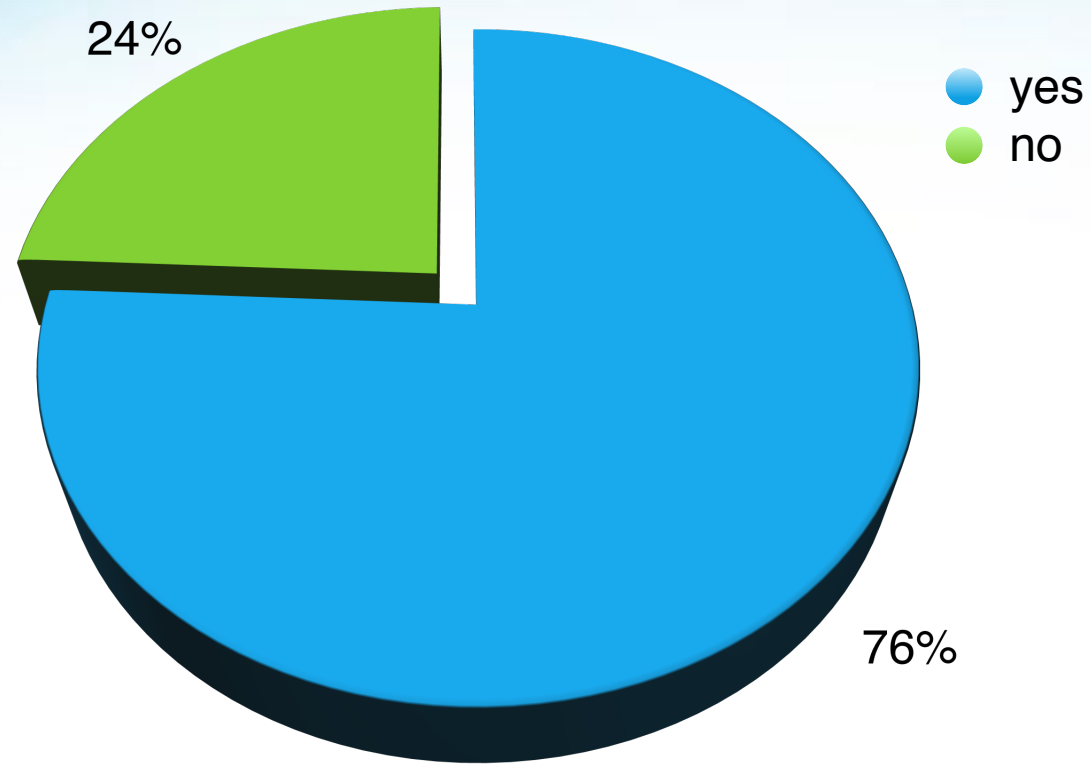

- As a social worker
- As a transplant social worker

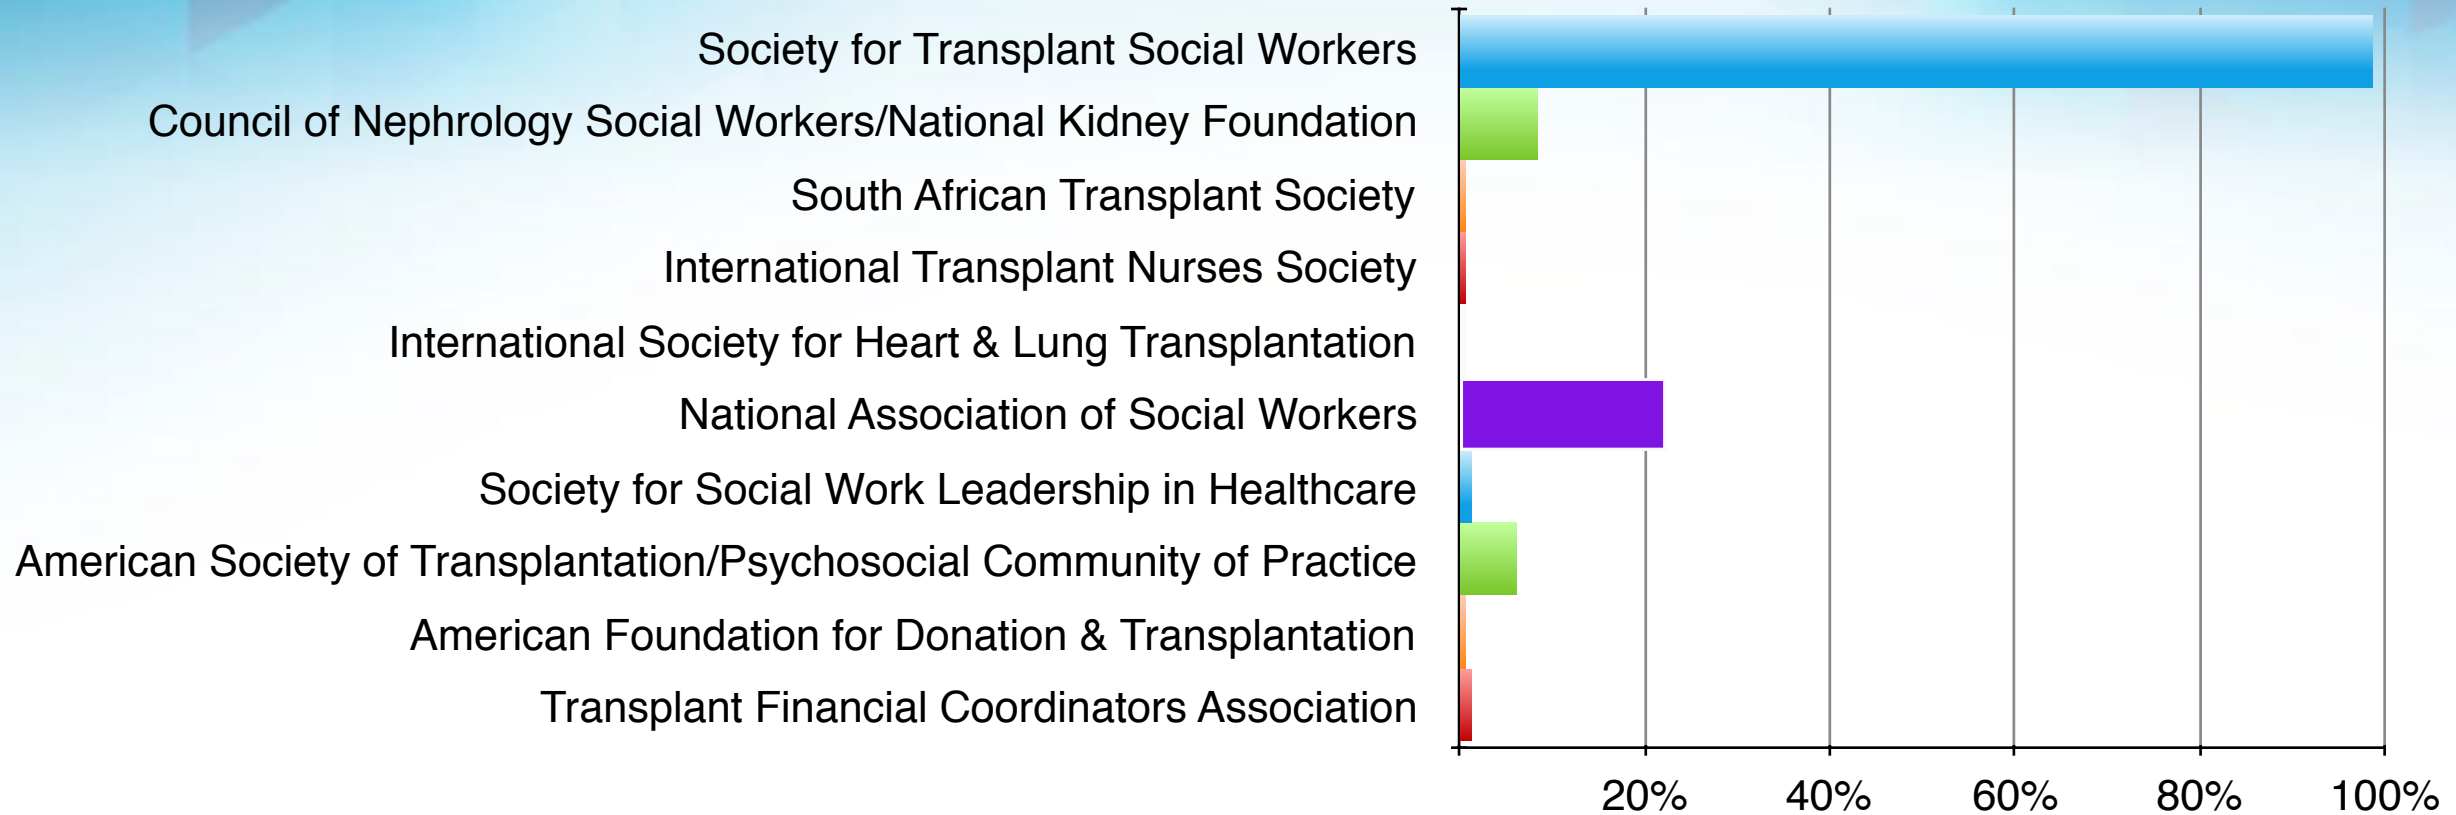

# Earned CCTSW/CCSW-MCS

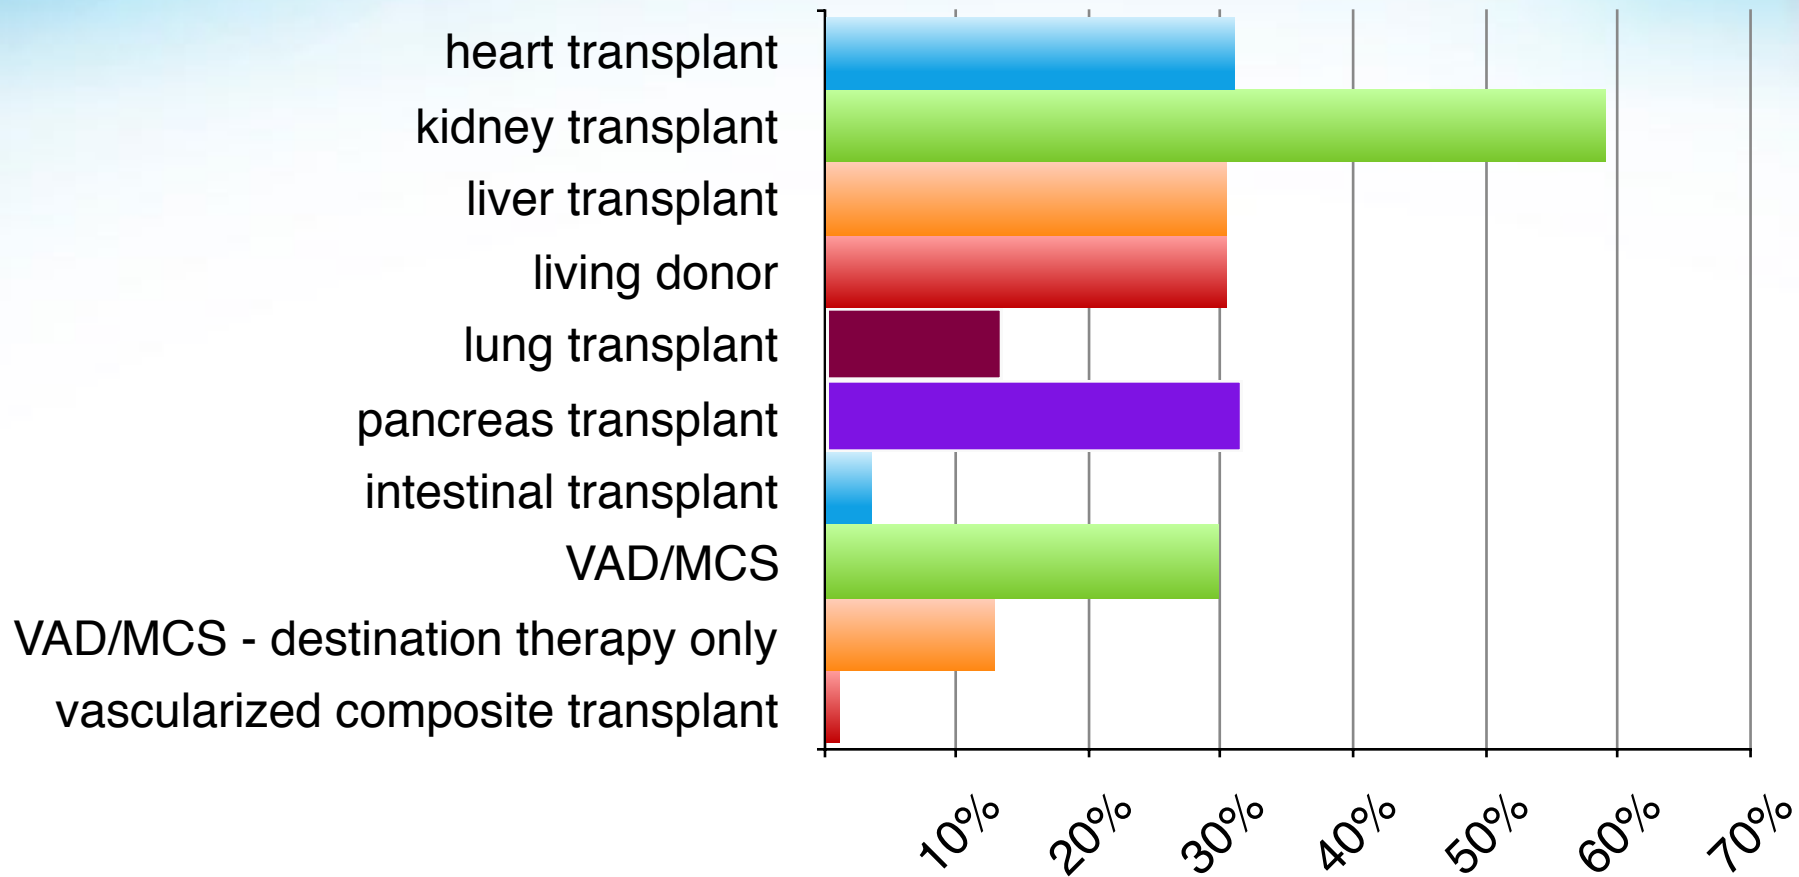

# Licensed at highest level?

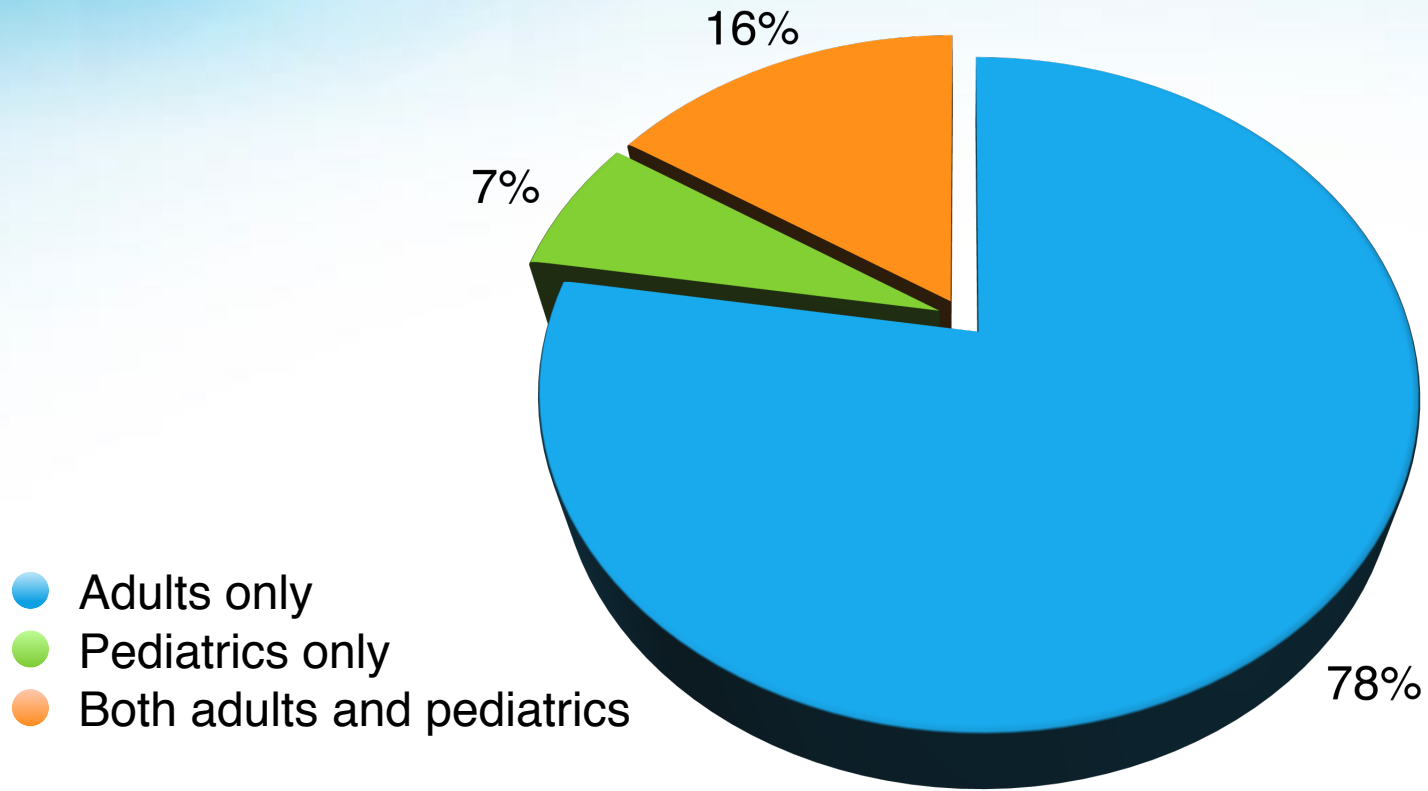

# Memberships held this year

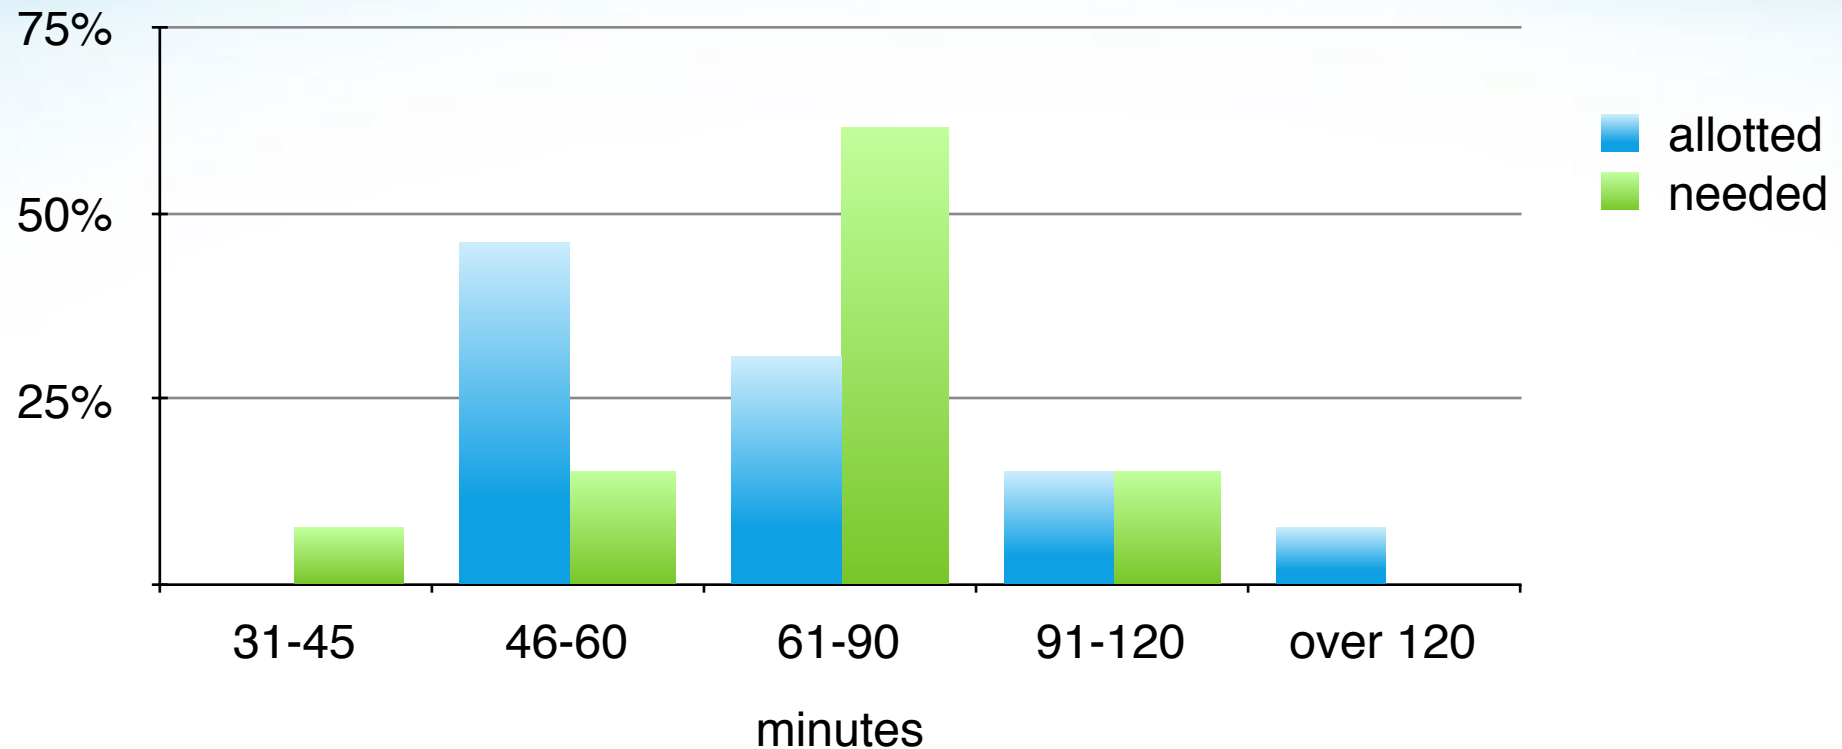

# Populations served

# Population served

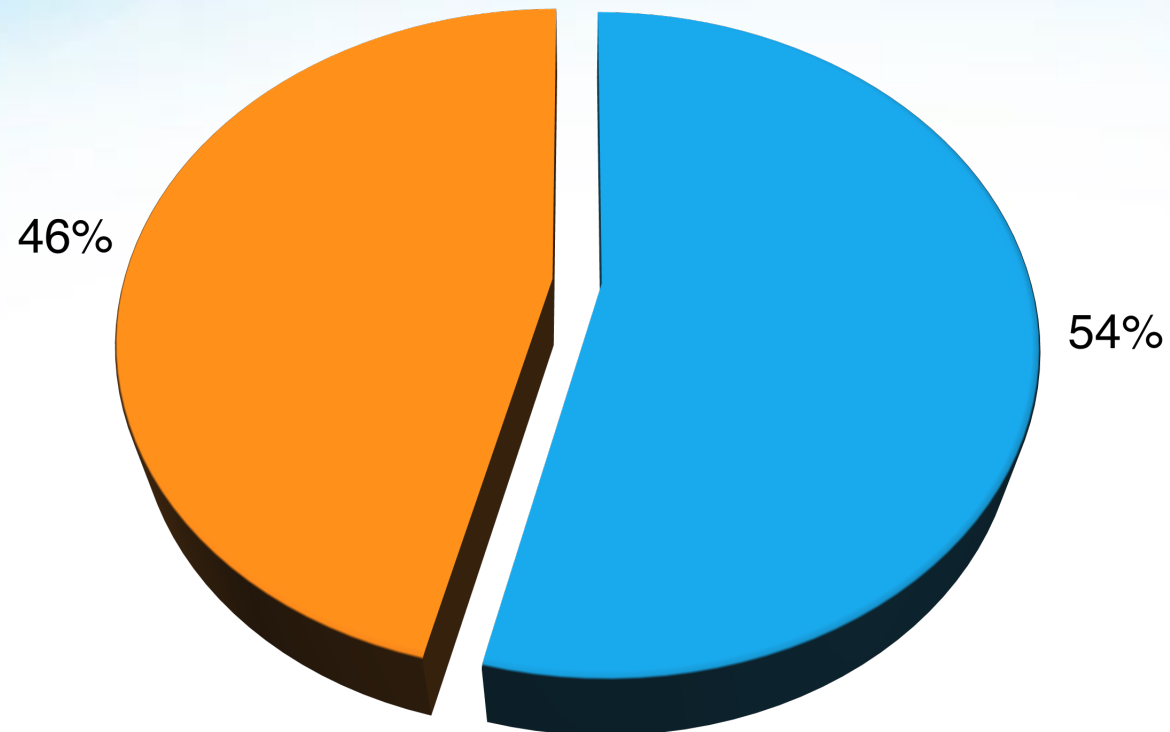

# Time for pediatric psychosocial eval

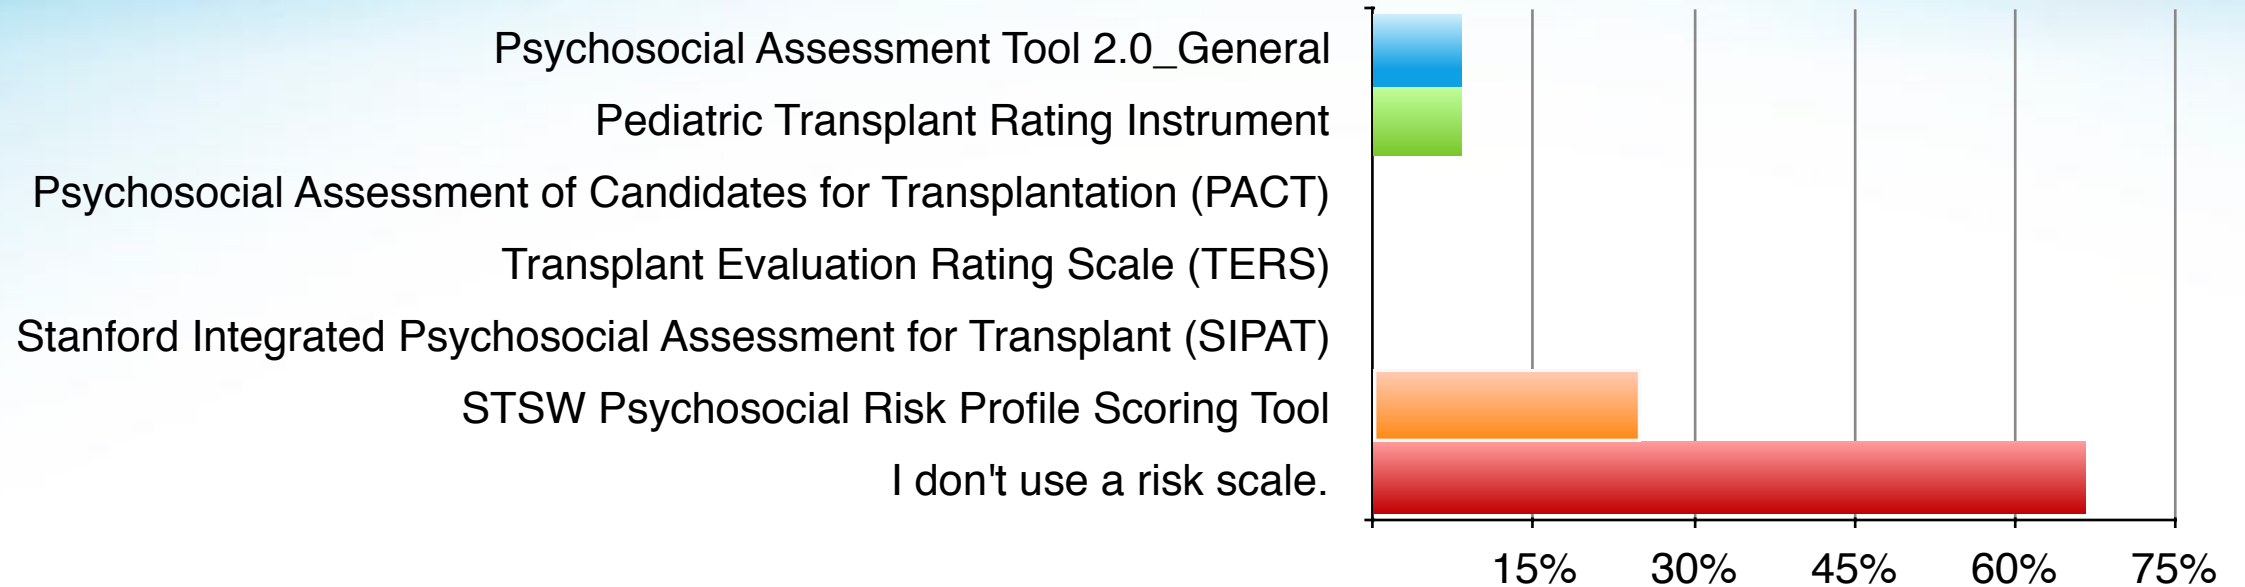

# When pediatric psychosocial eval is done

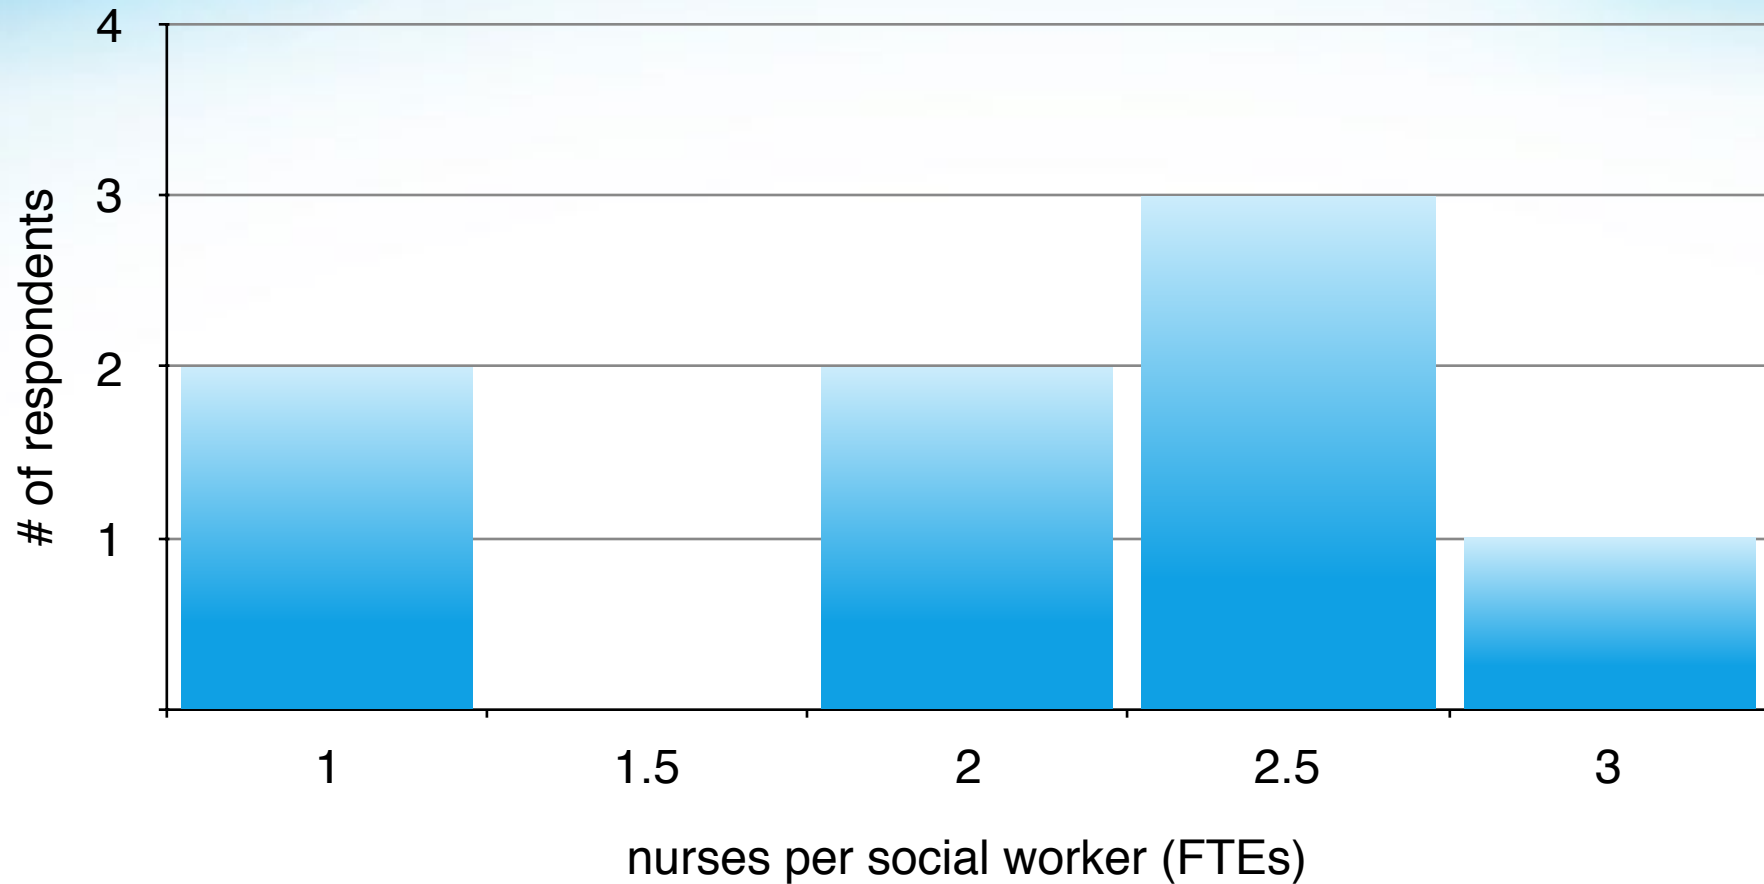

- Toward the beginning, before a medical determination is made.
- Toward the end, after a medical determination is made.
- It varies.

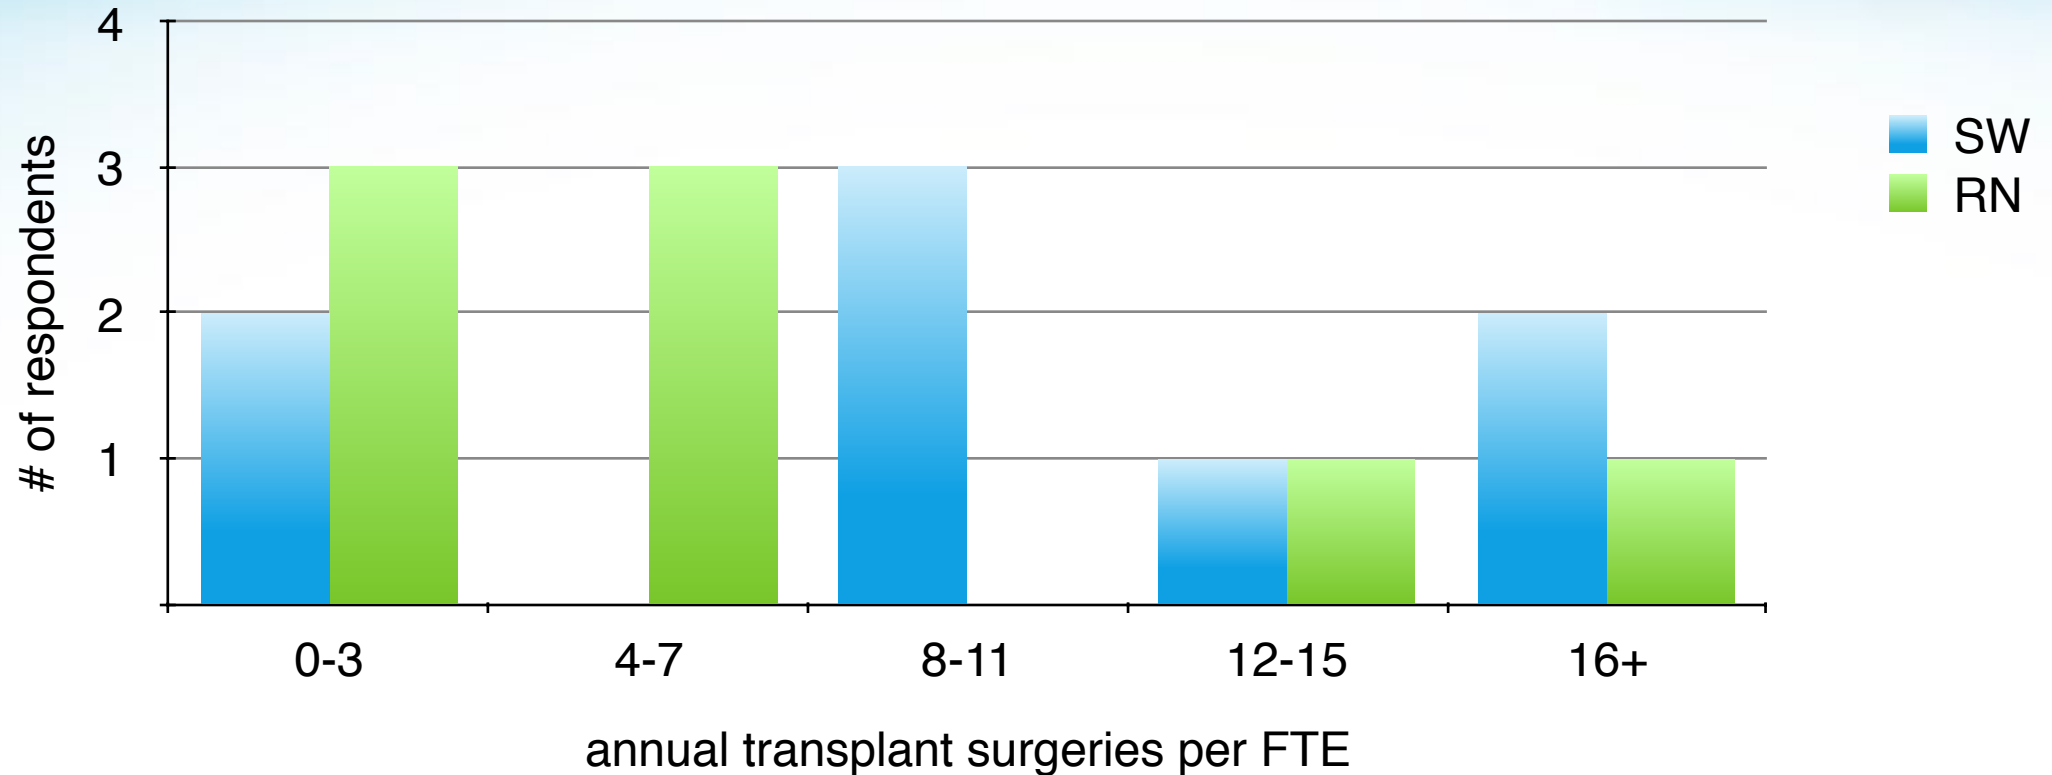

# Risk scales used in pediatric txp

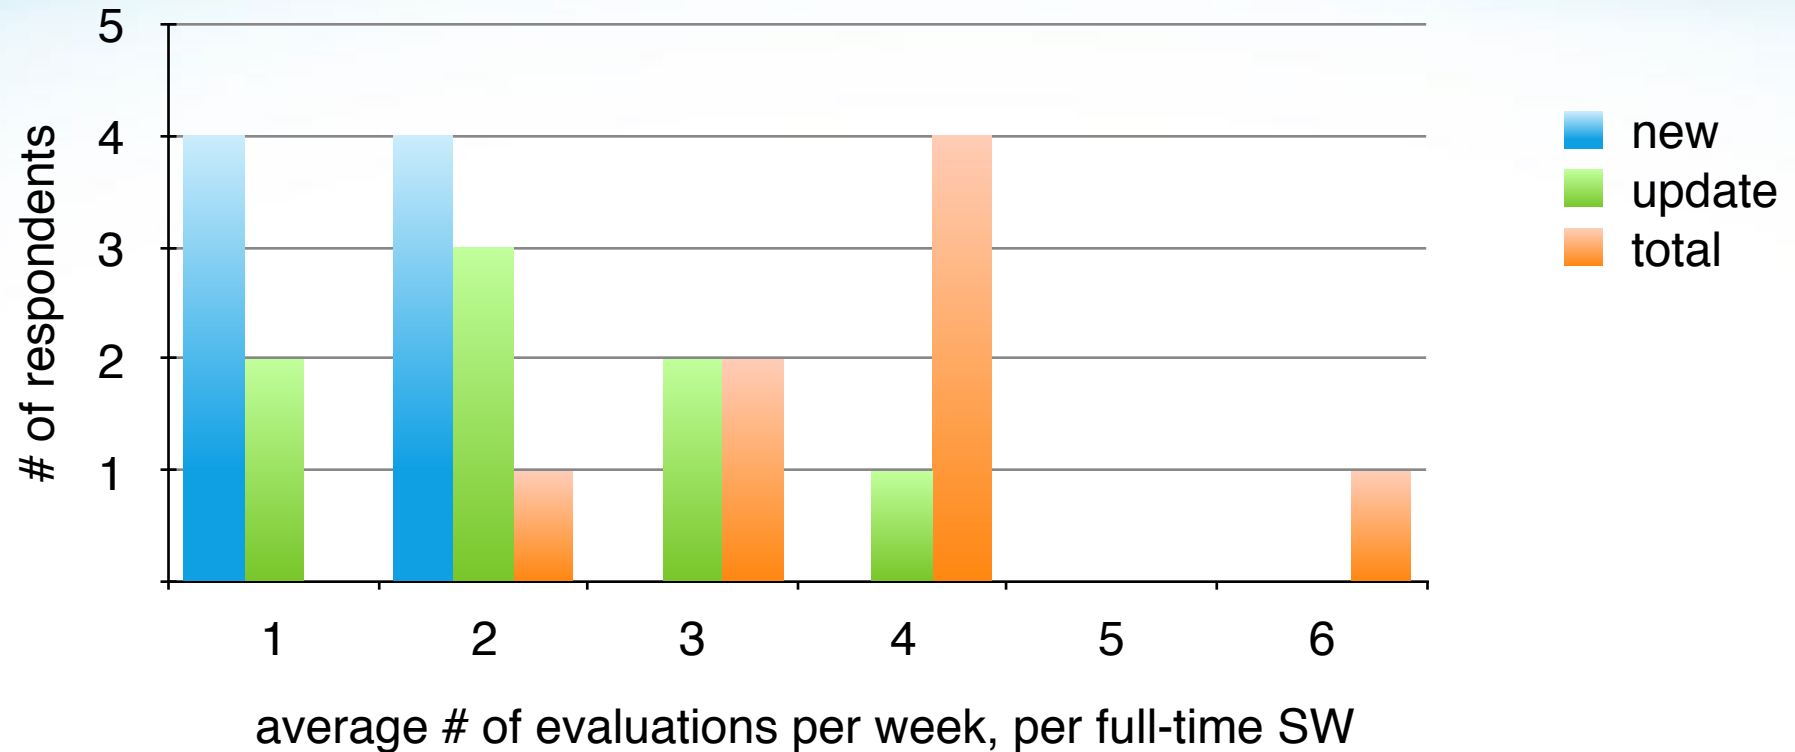

# Pediatric txp staffing, RN:SW

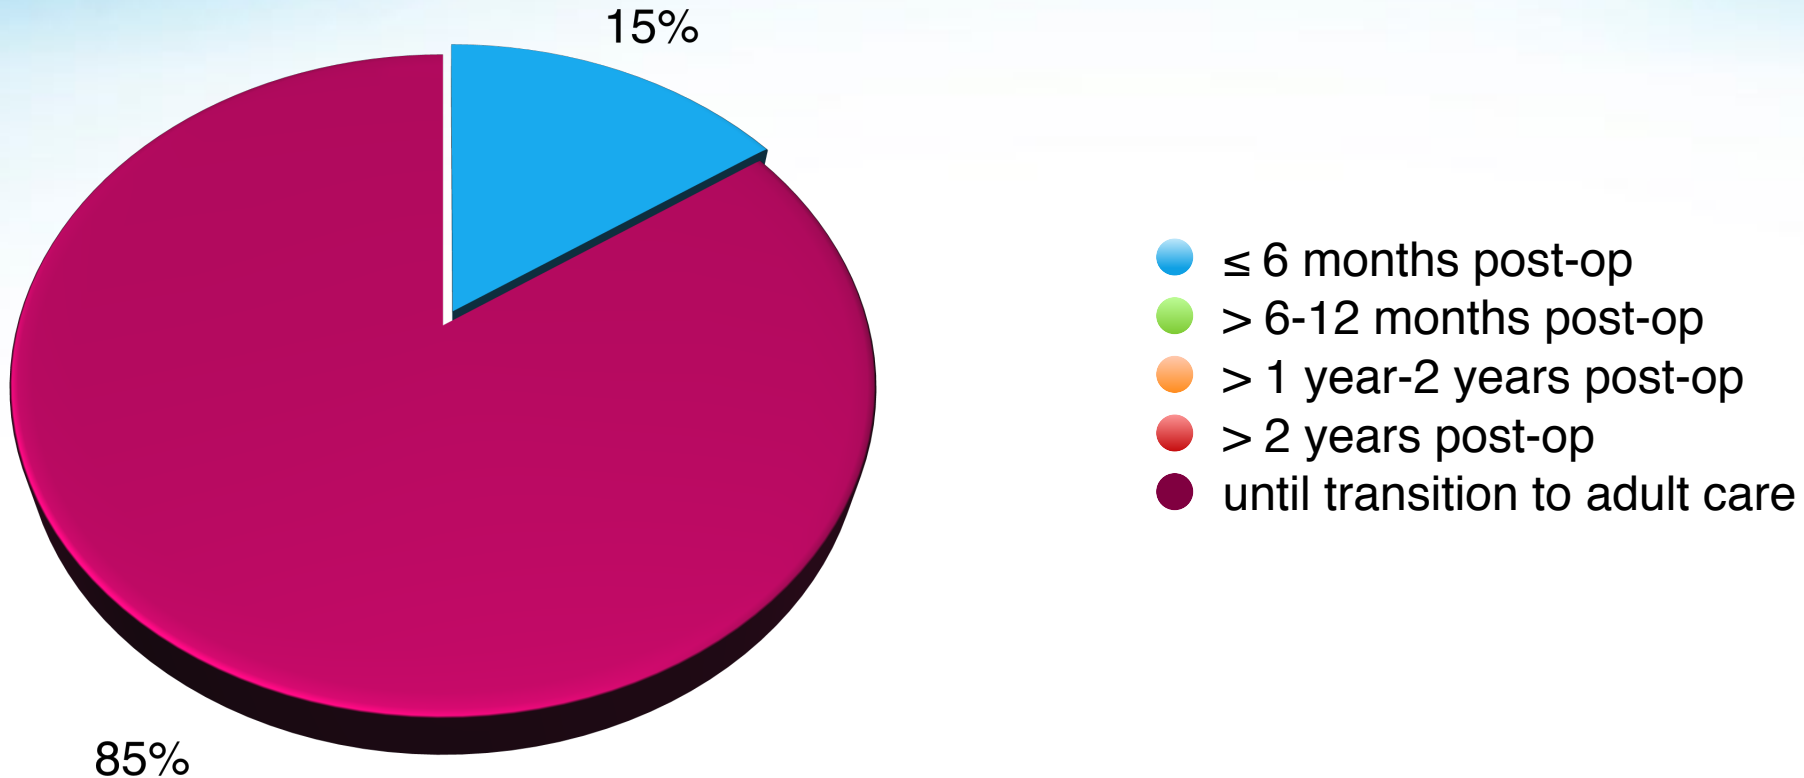

# Pediatric staffing by txp volume

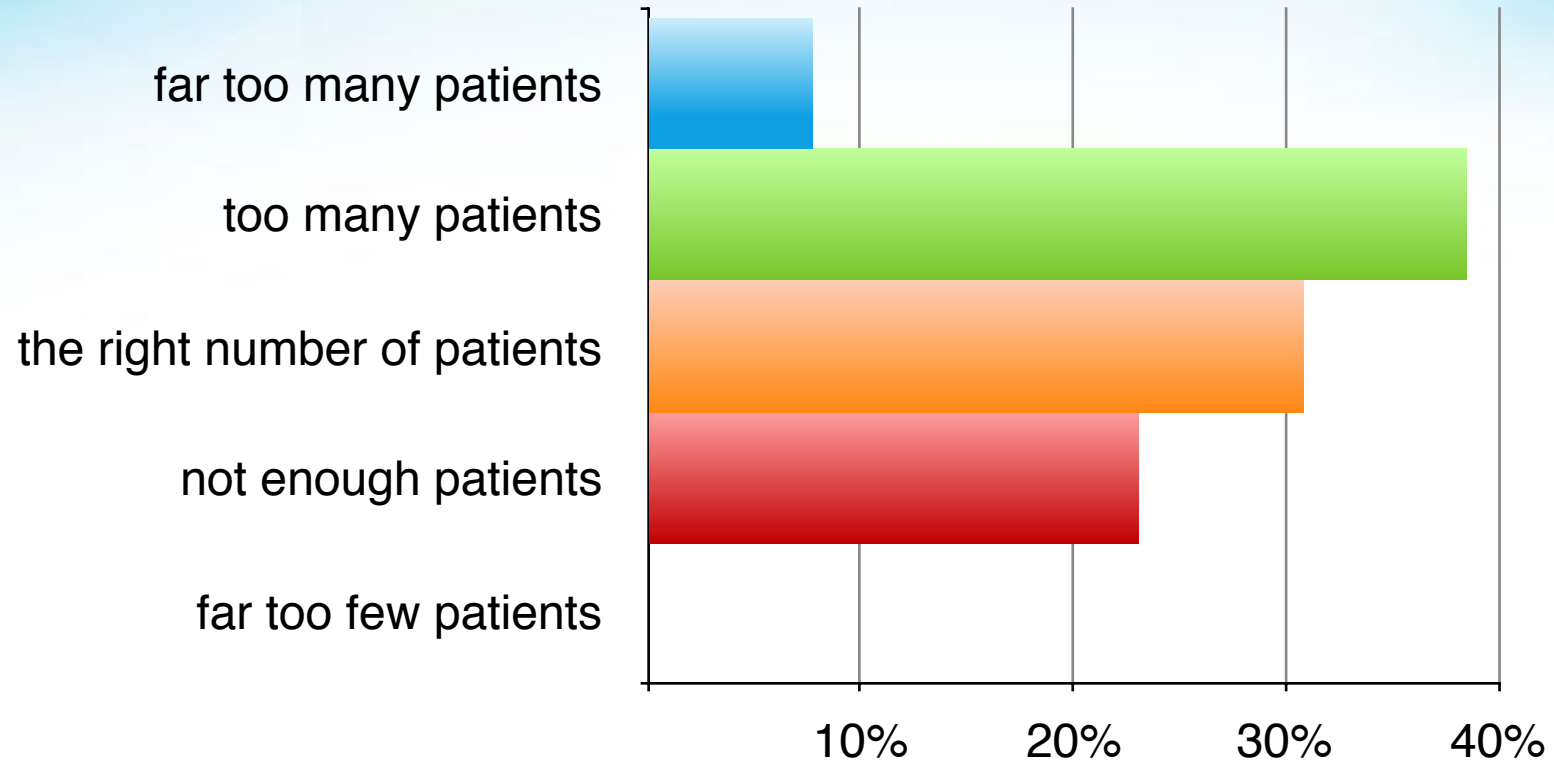

# Pediatric txp evaluations

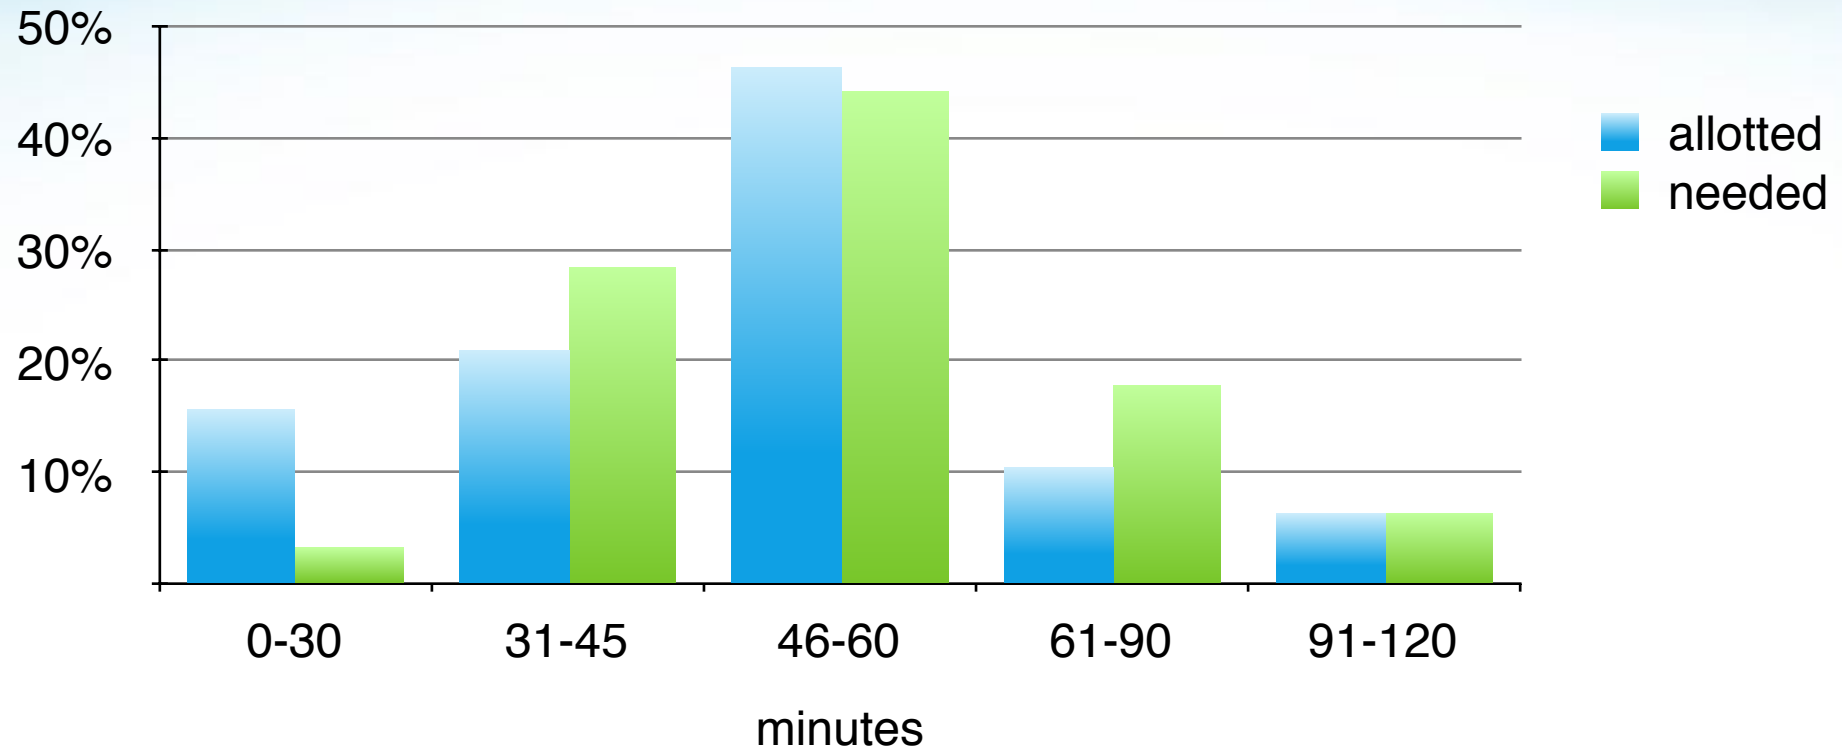

# How long pediatric SW follows patients

# Current pediatric txp caseload

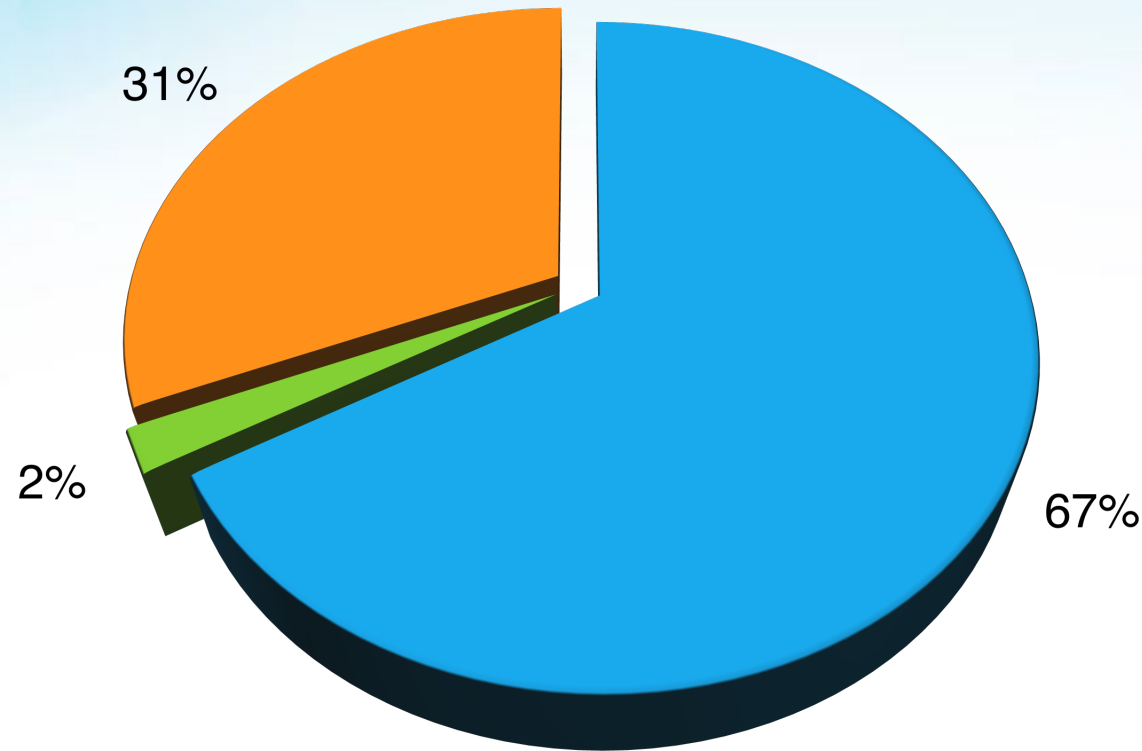

# Time for kidney/panc psychosocial eval

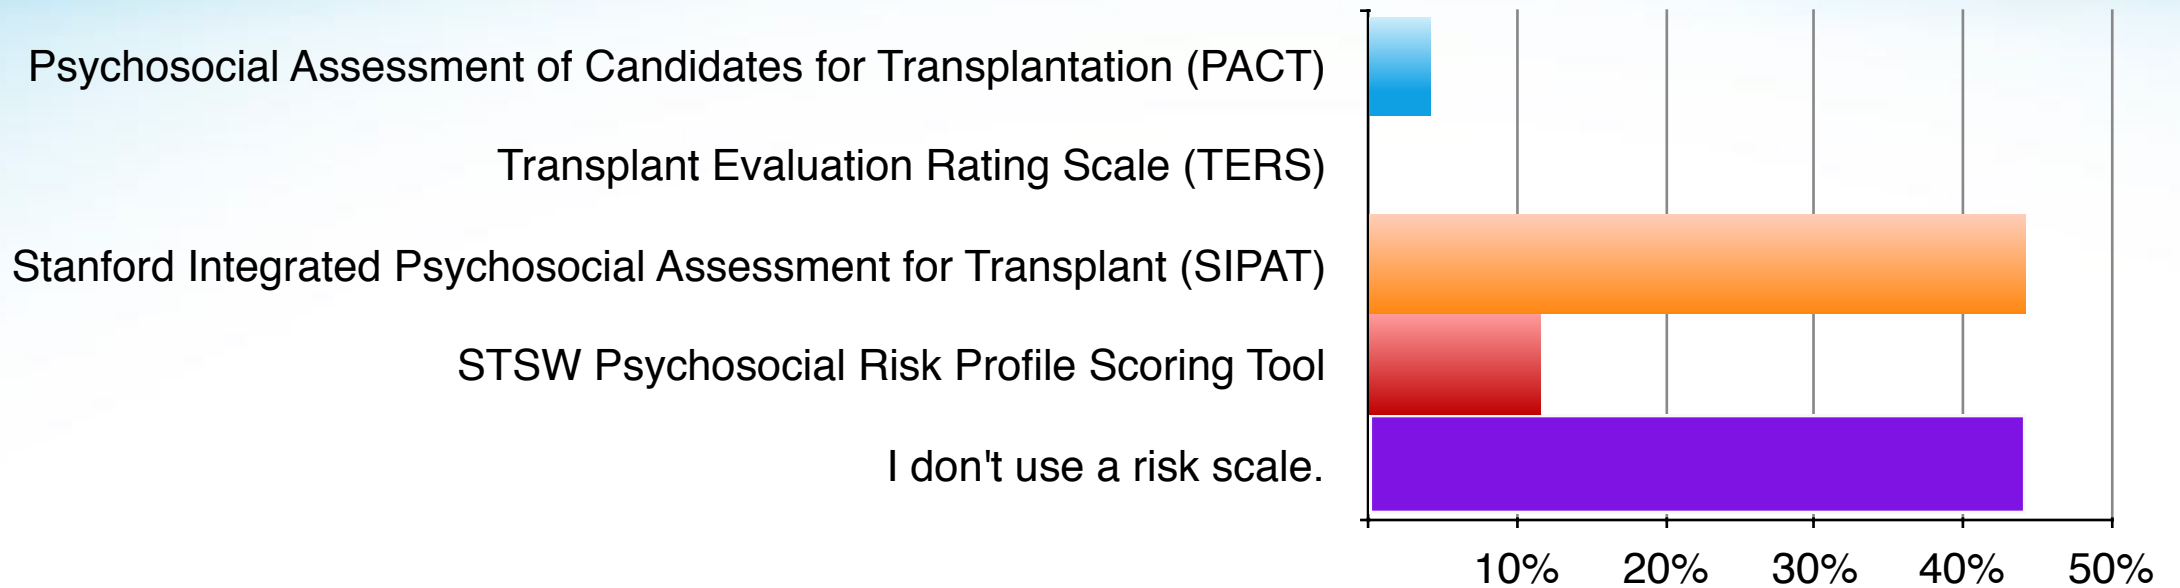

# When kidney/panc psychosocial eval is done

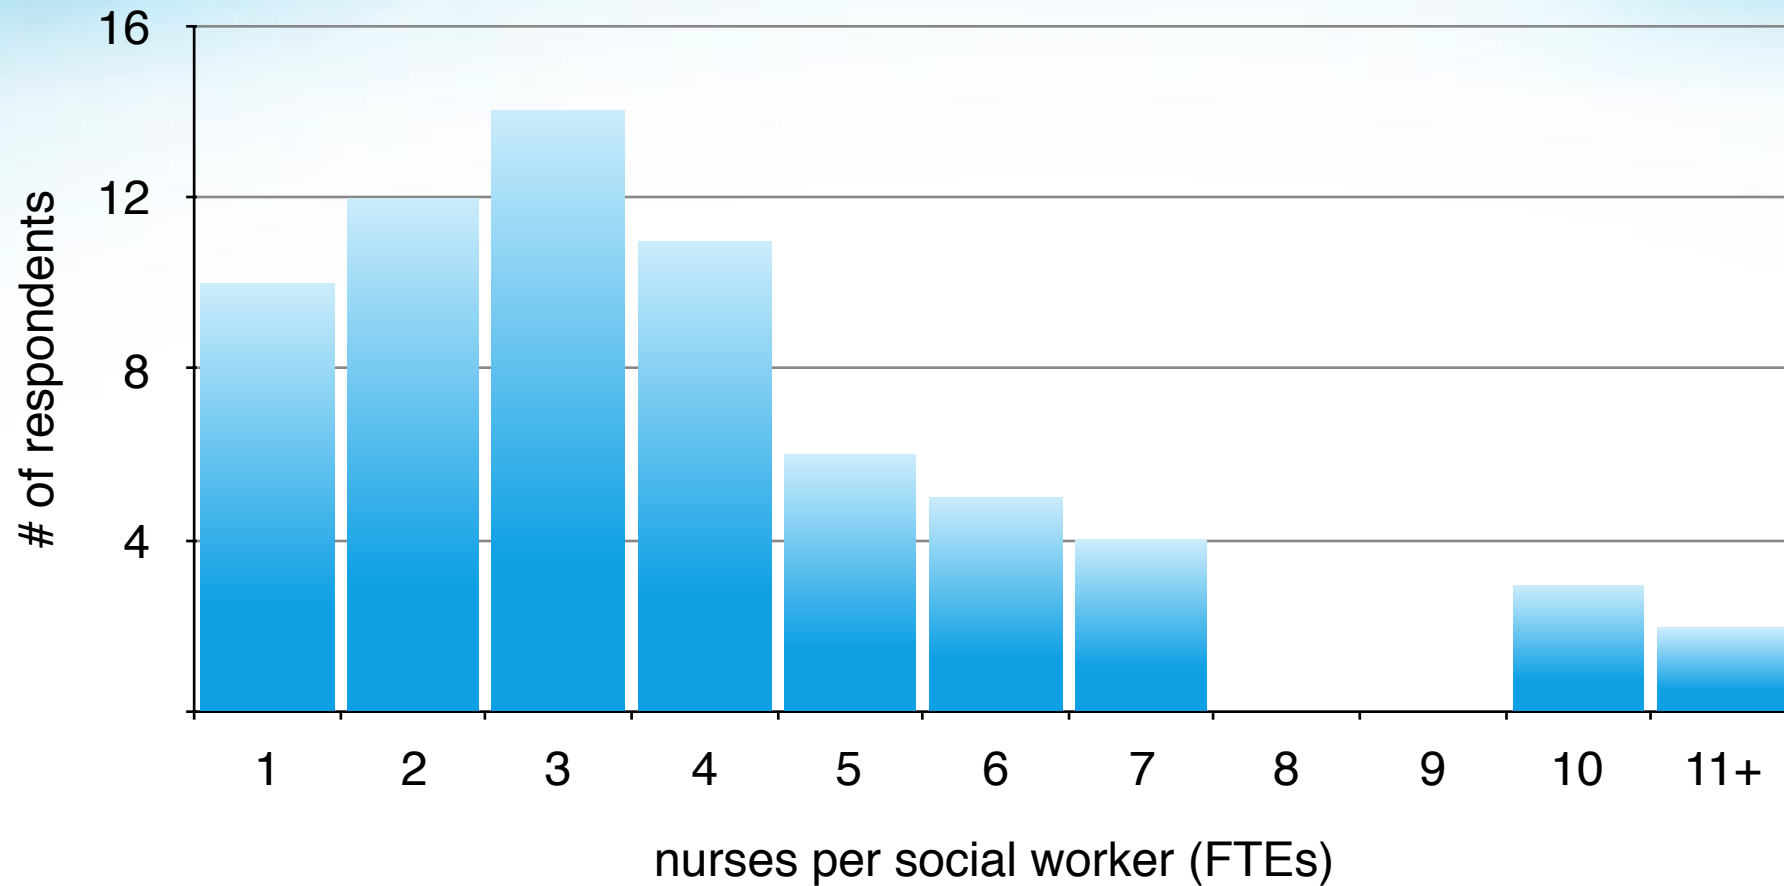

- Toward the beginning, before a medical determination is made.
- Toward the end, after a medical determination is made.
- It varies.

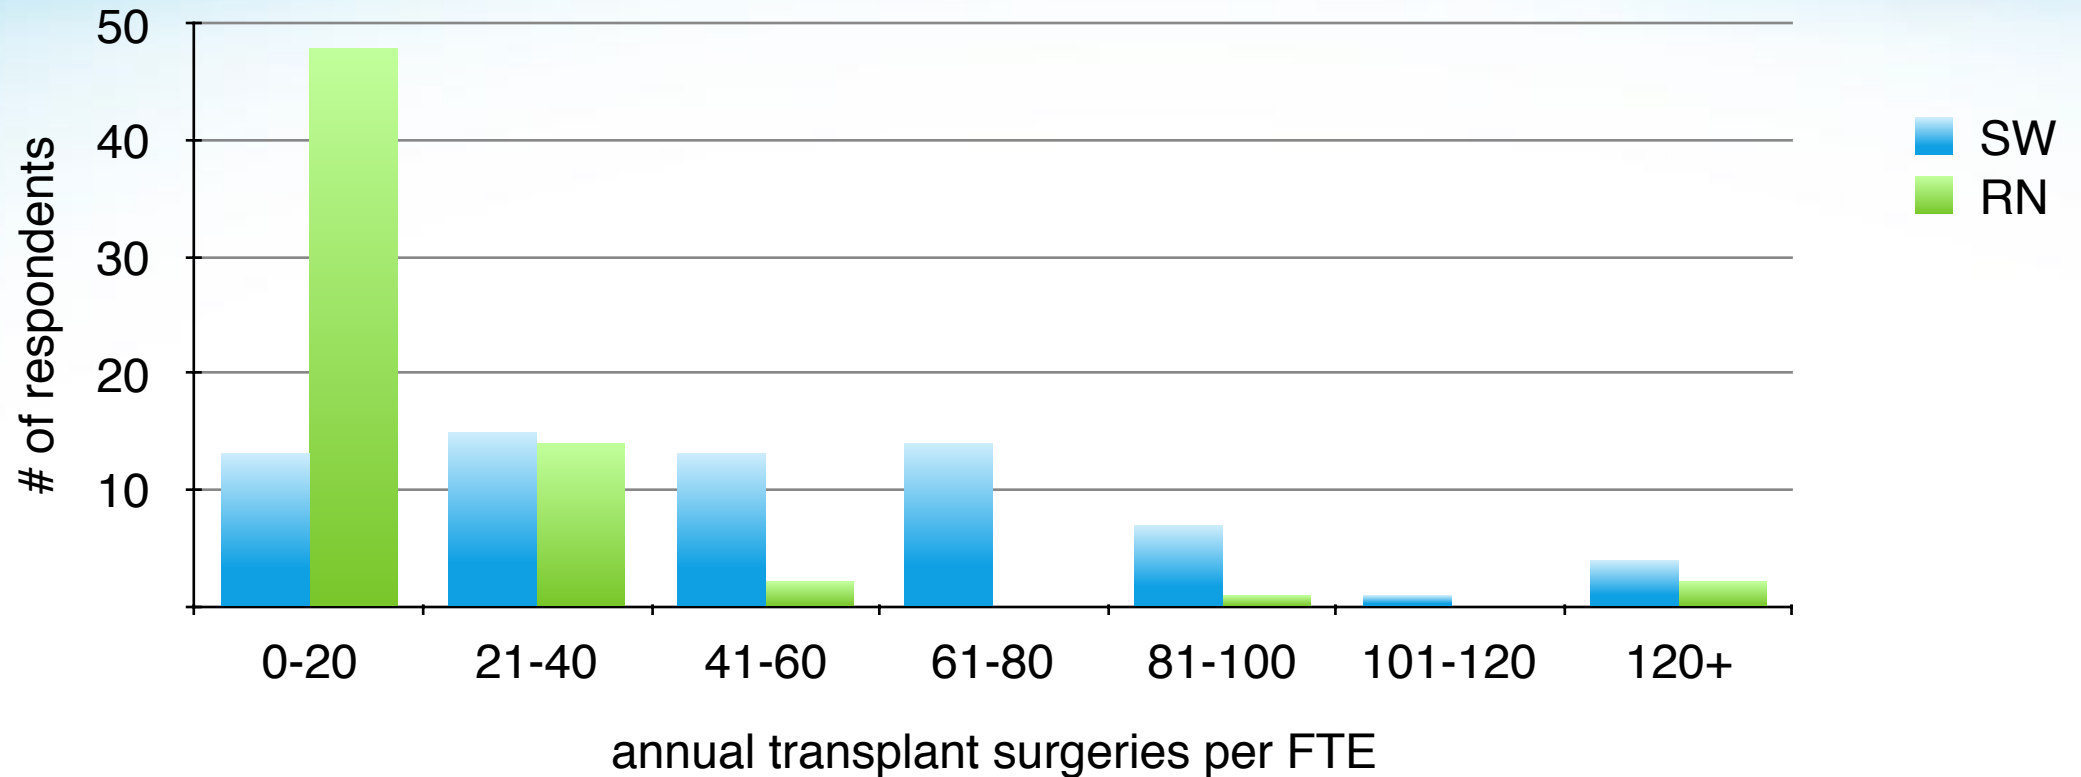

# Risk scales used in kidney/panc txp

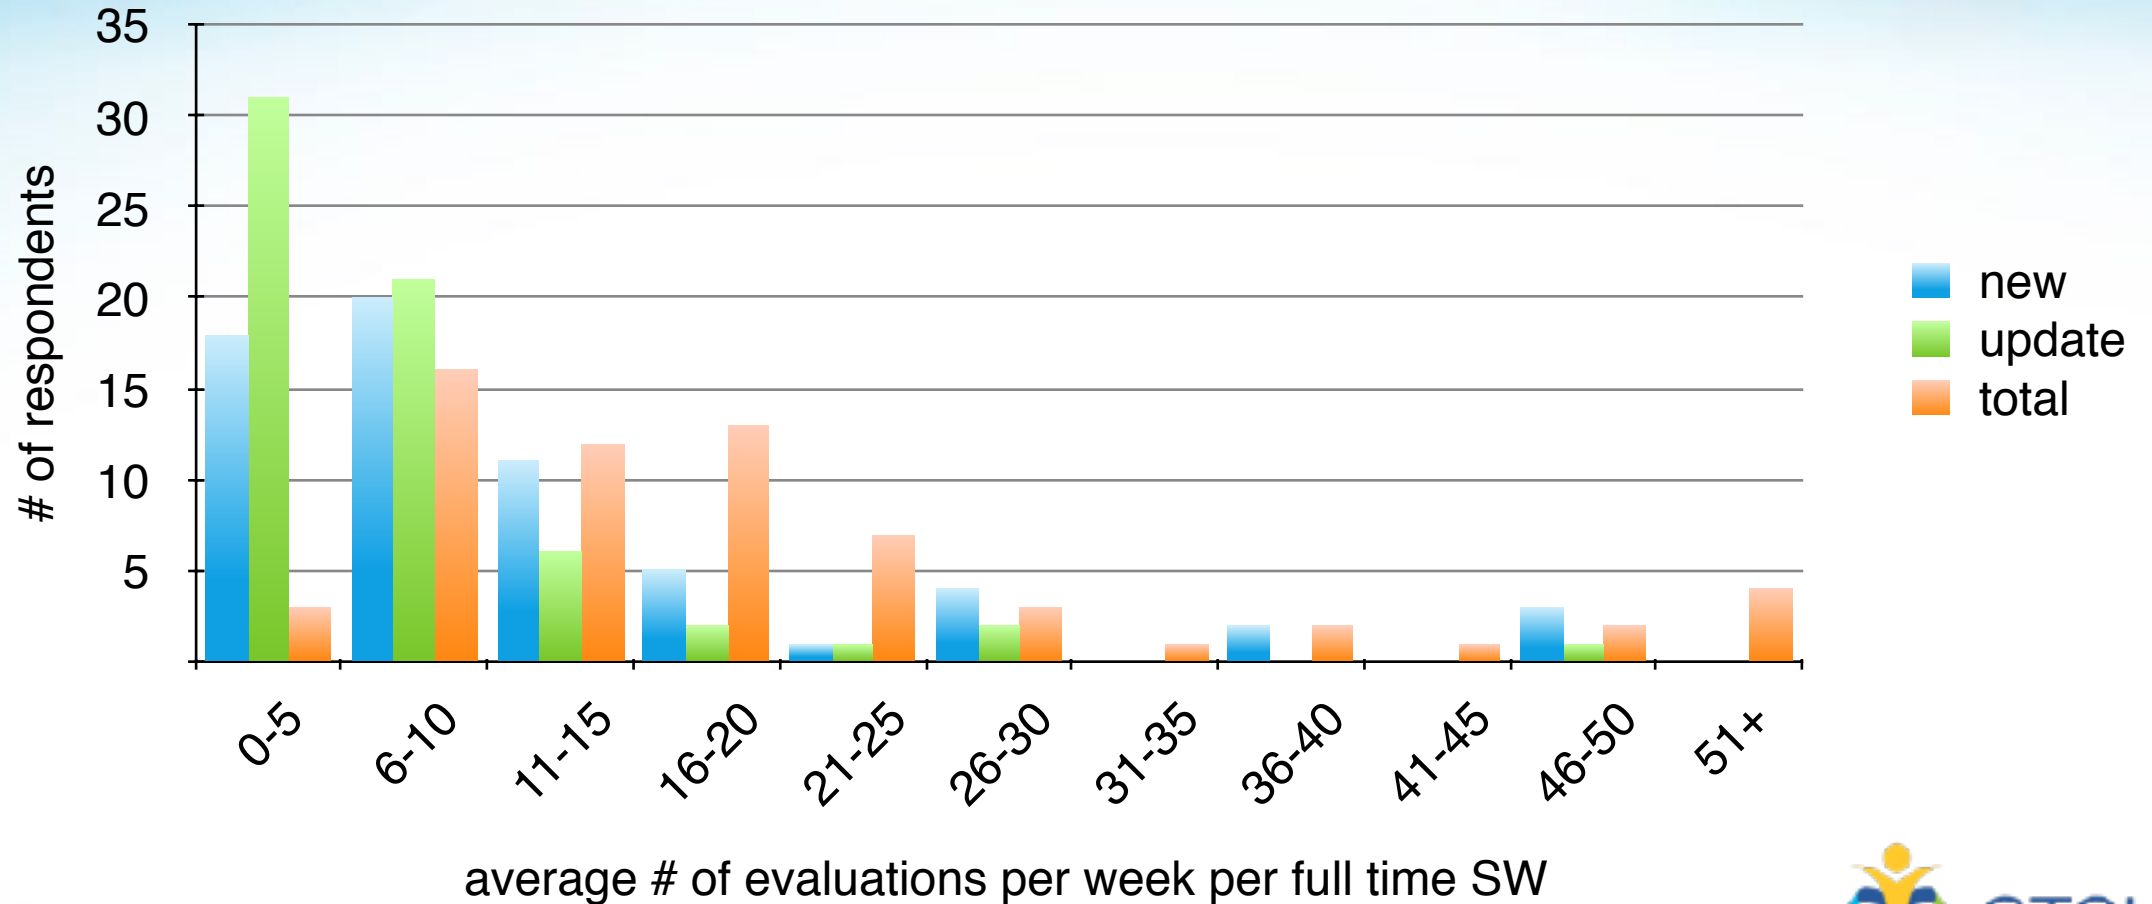

# Kidney/panc txp staffing, RN:SW

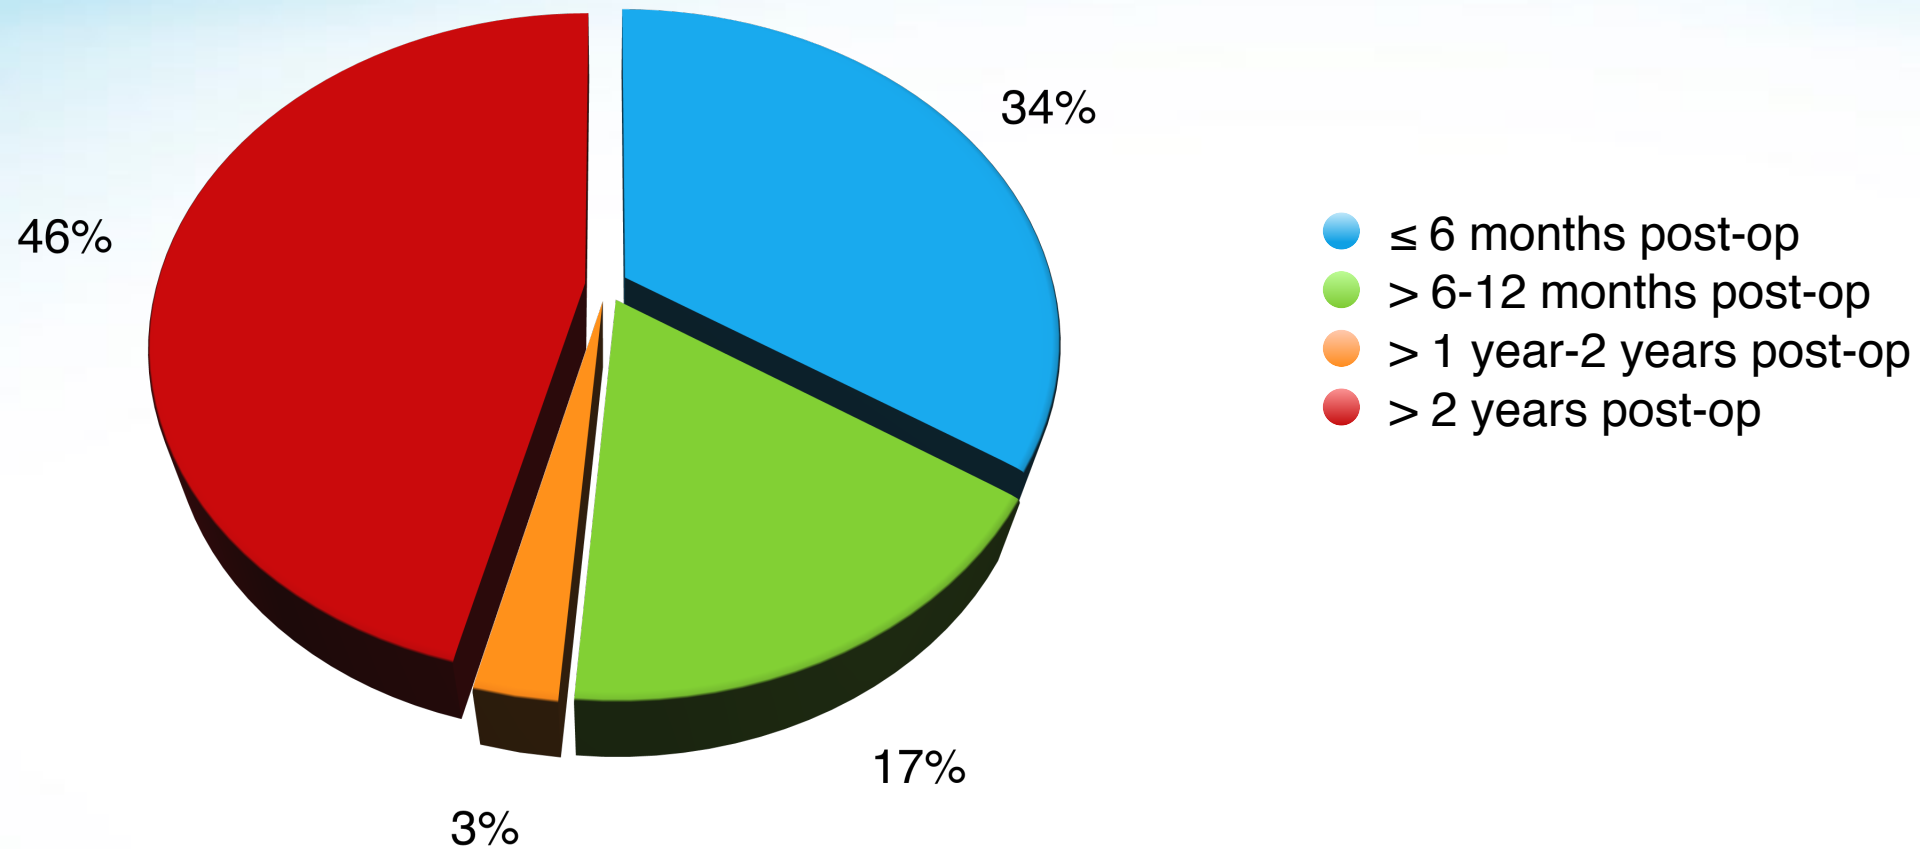

# Kidney/panc staffing by txp volume

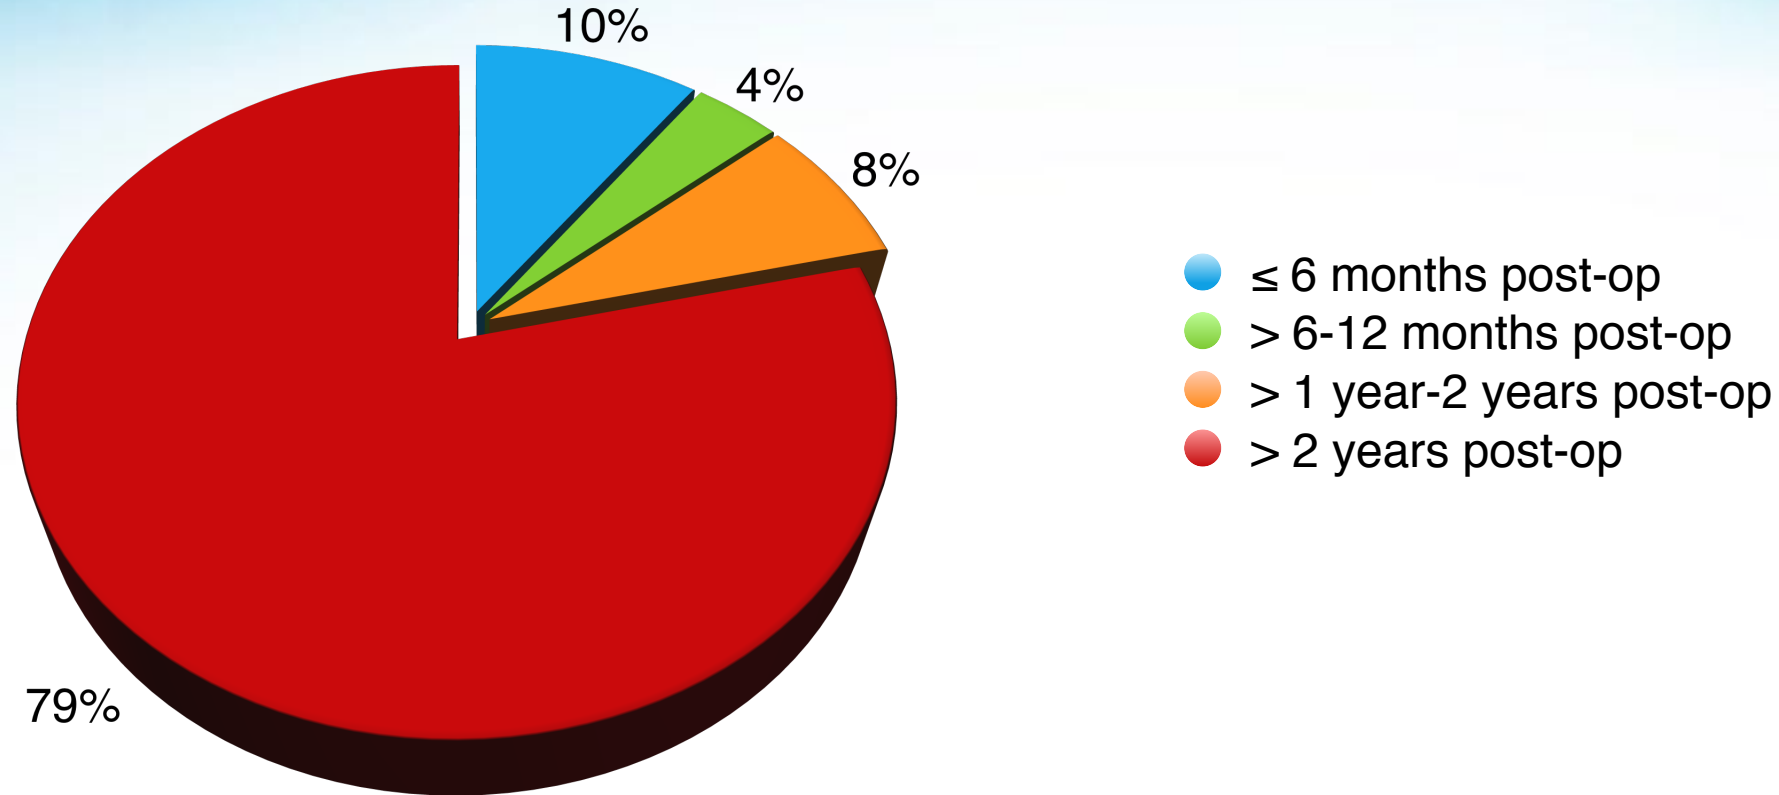

# Kidney/panc txp evaluations per week

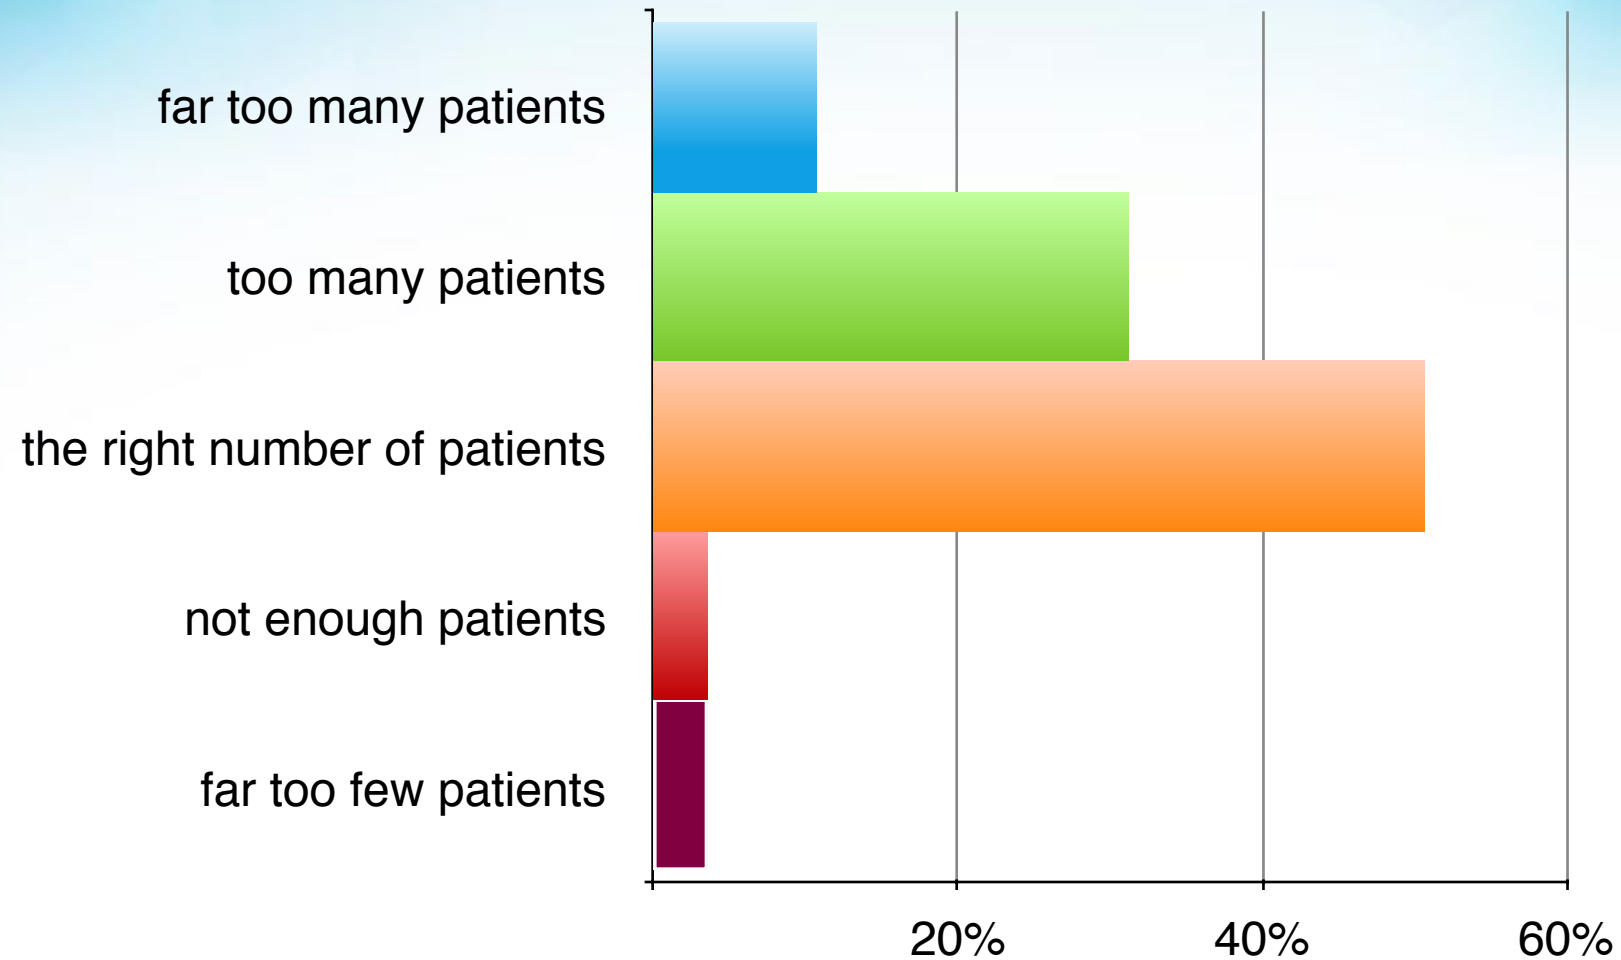

# How long kidney/panc SW follows inpatients

# How long kidney/panc SW follows outpatients

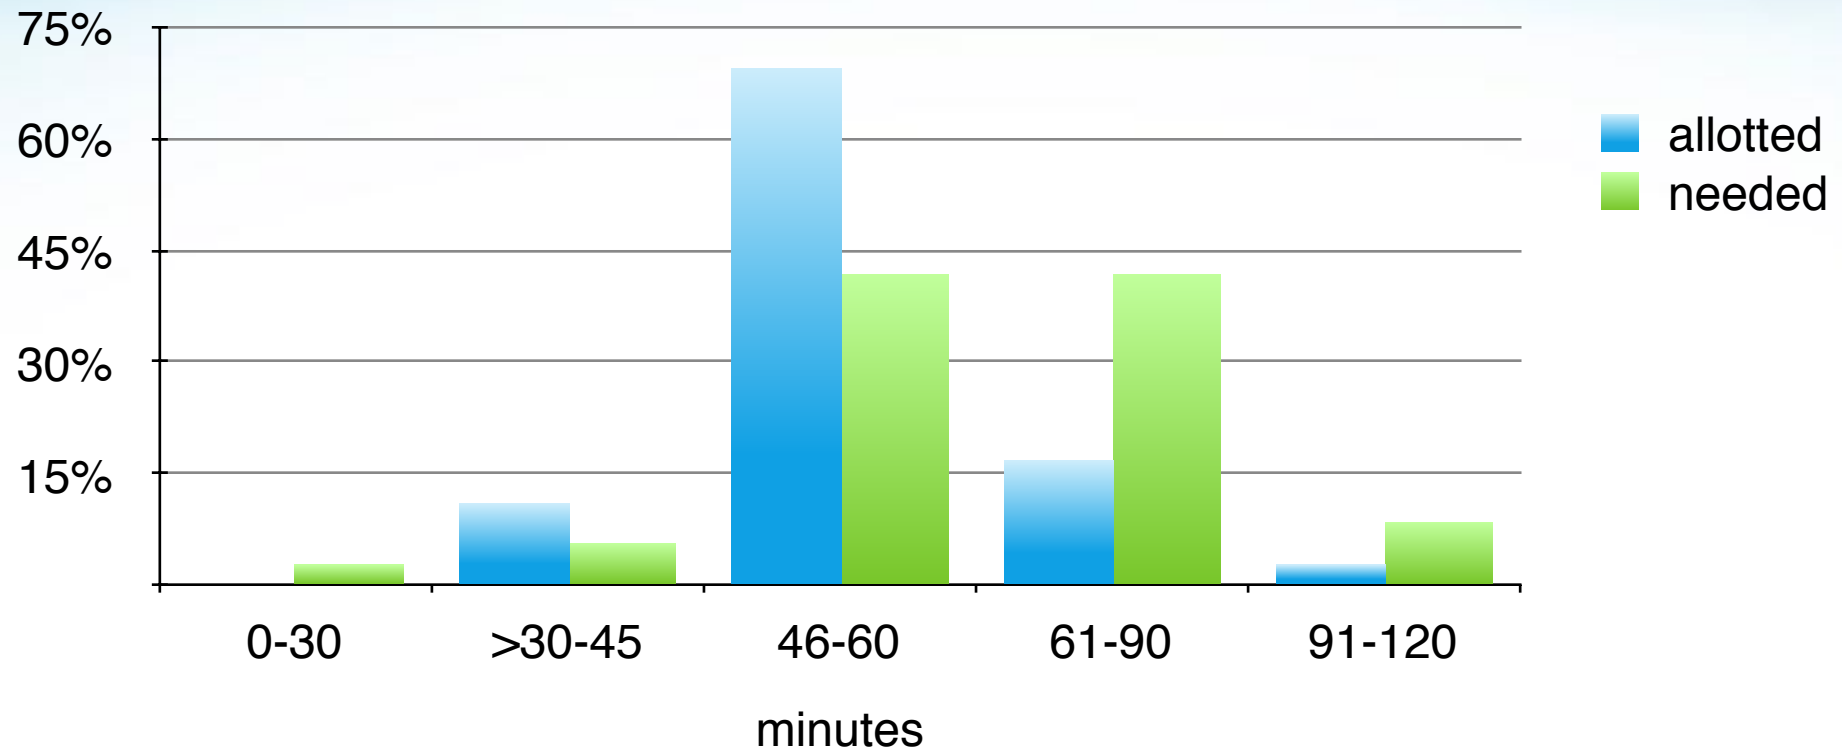

# Current kidney/panc txp caseload

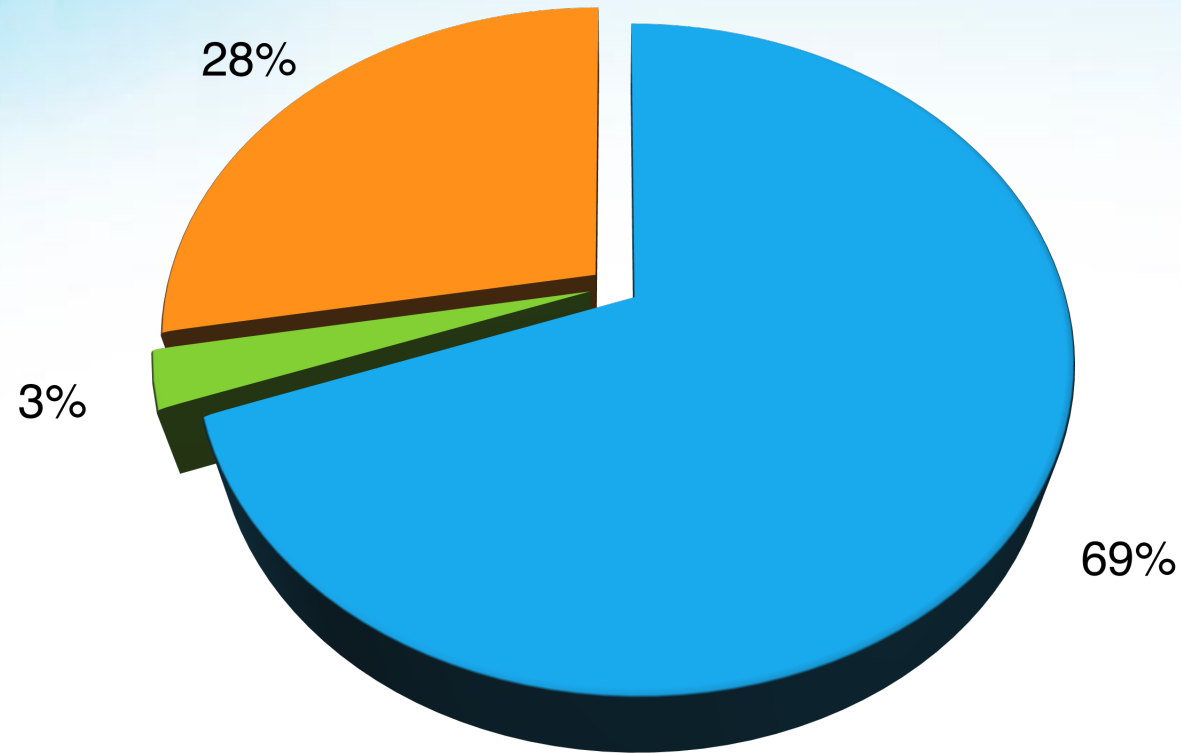

# Time for liver txp psychosocial eval

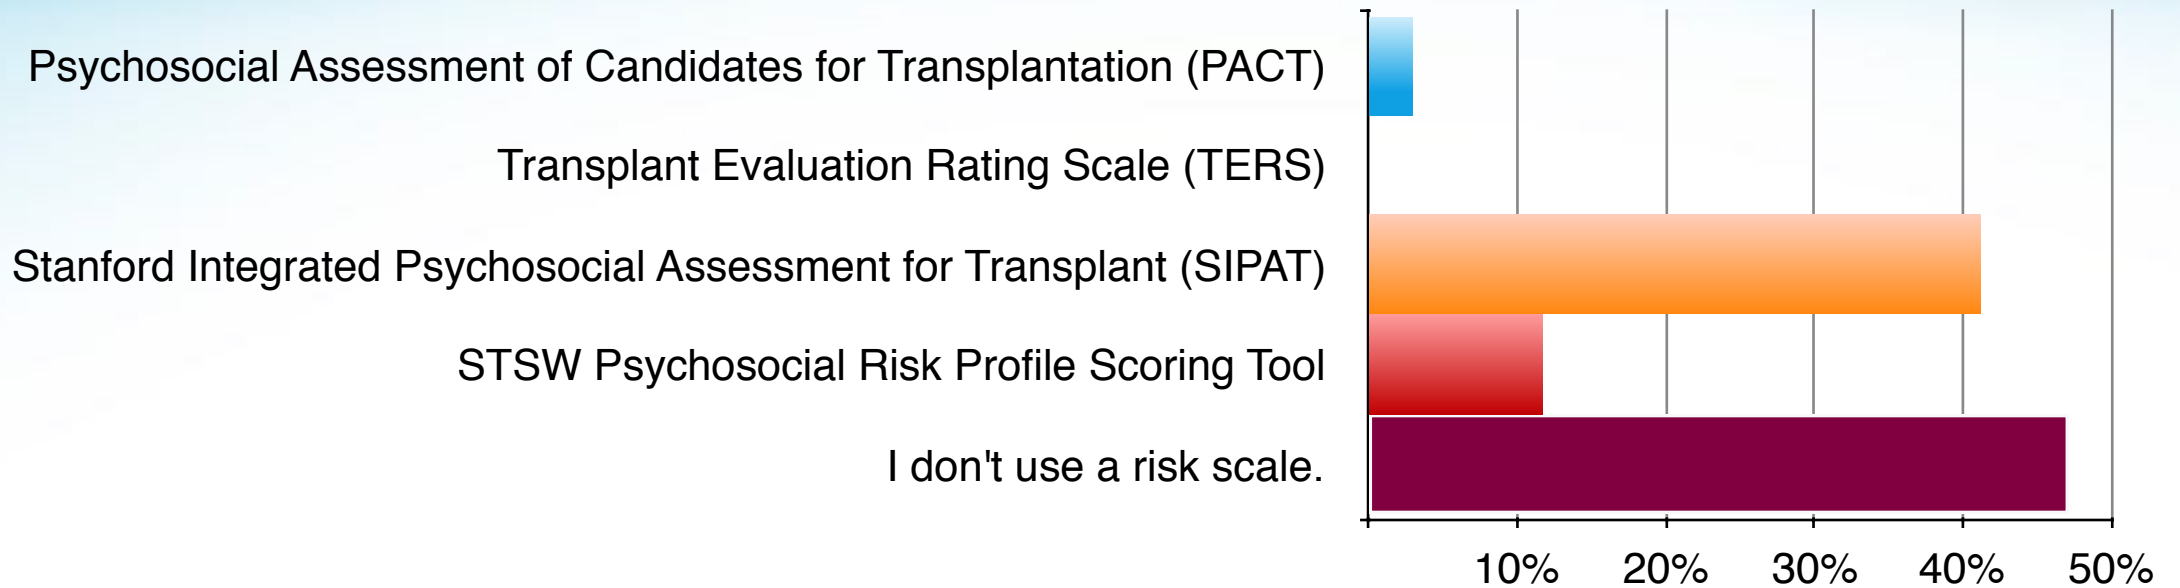

# When liver txp psychosocial eval is done

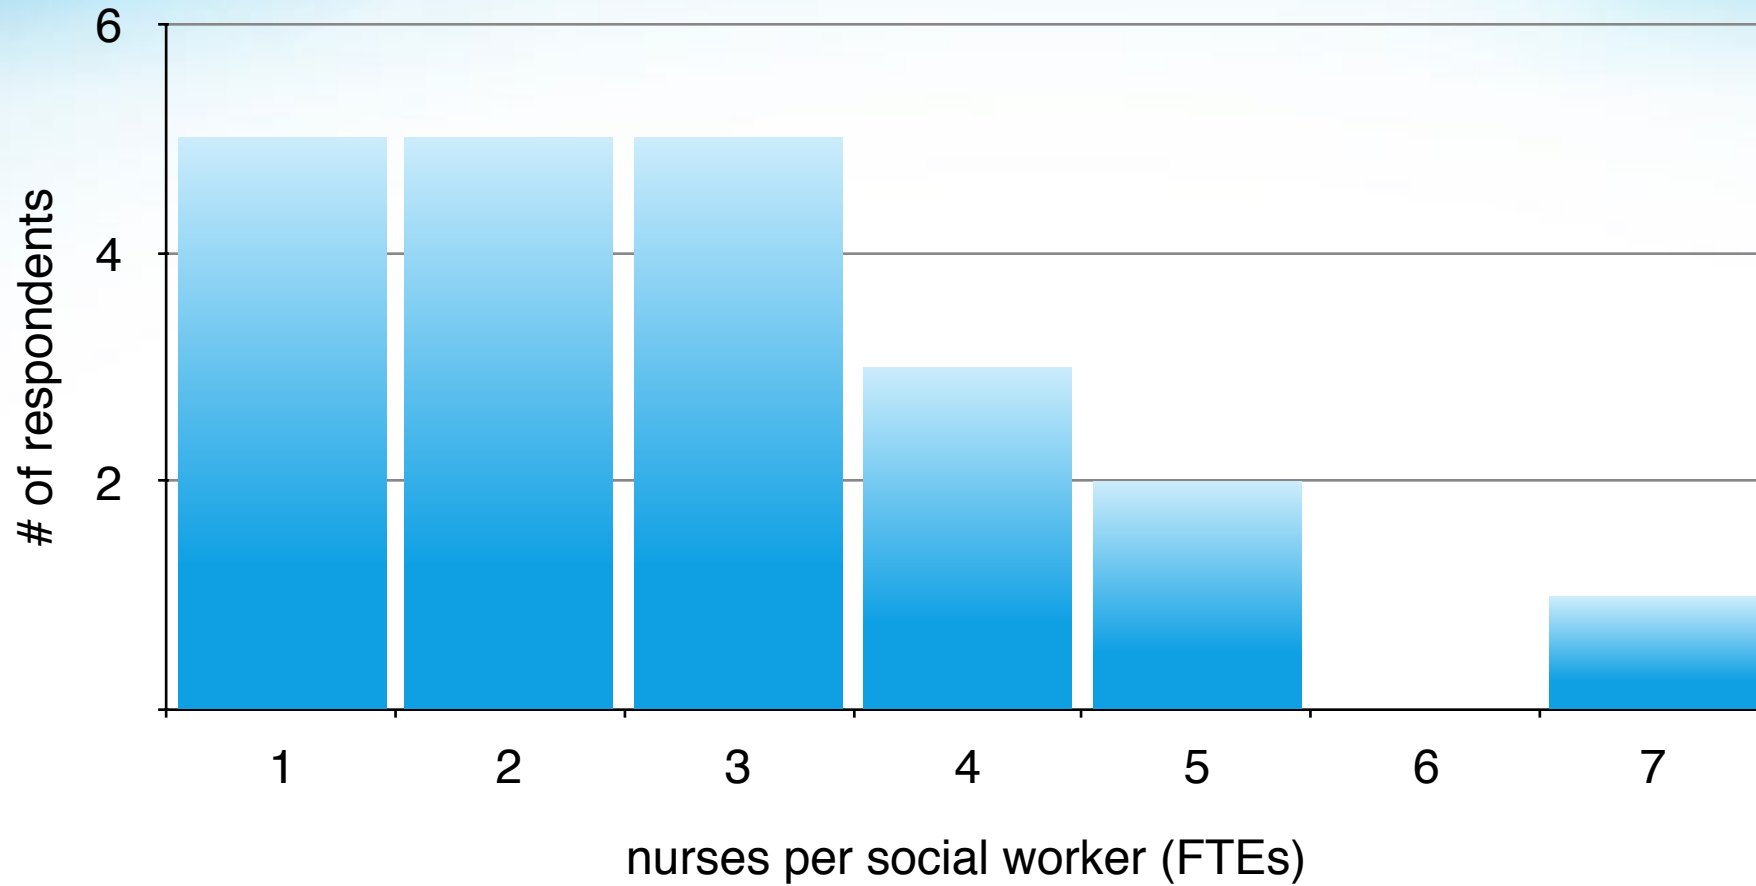

- Toward the beginning, before a medical determination is made.
- Toward the end, after a medical determination is made.
- It varies.

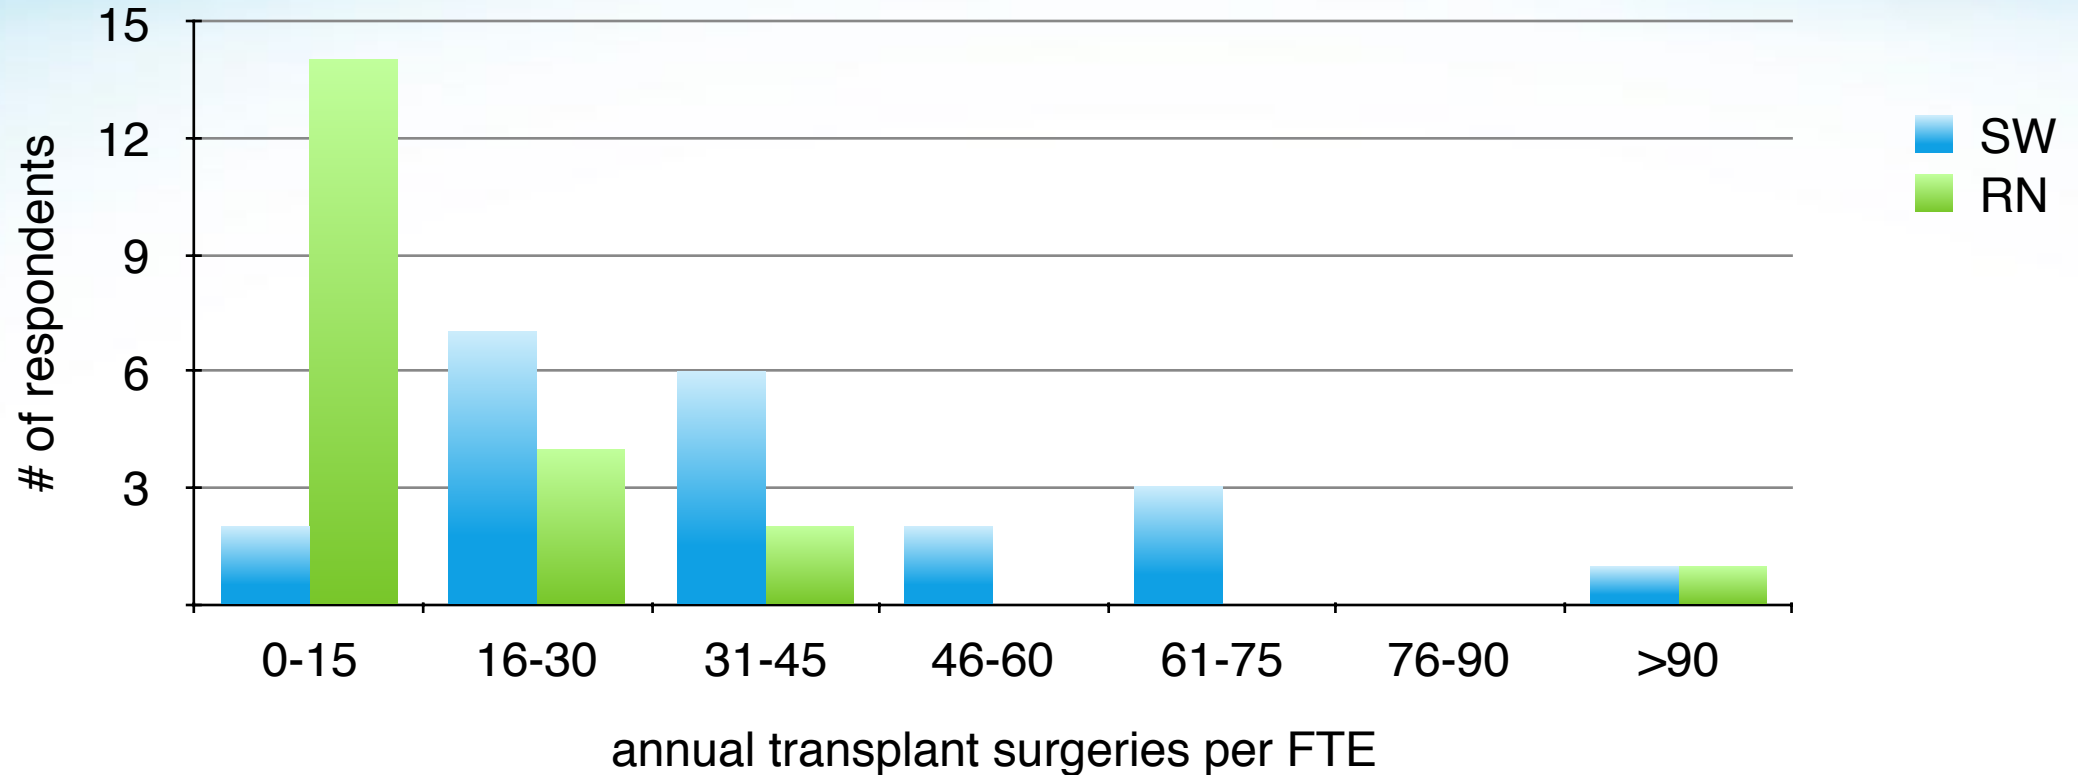

# Risk scales used in liver txp

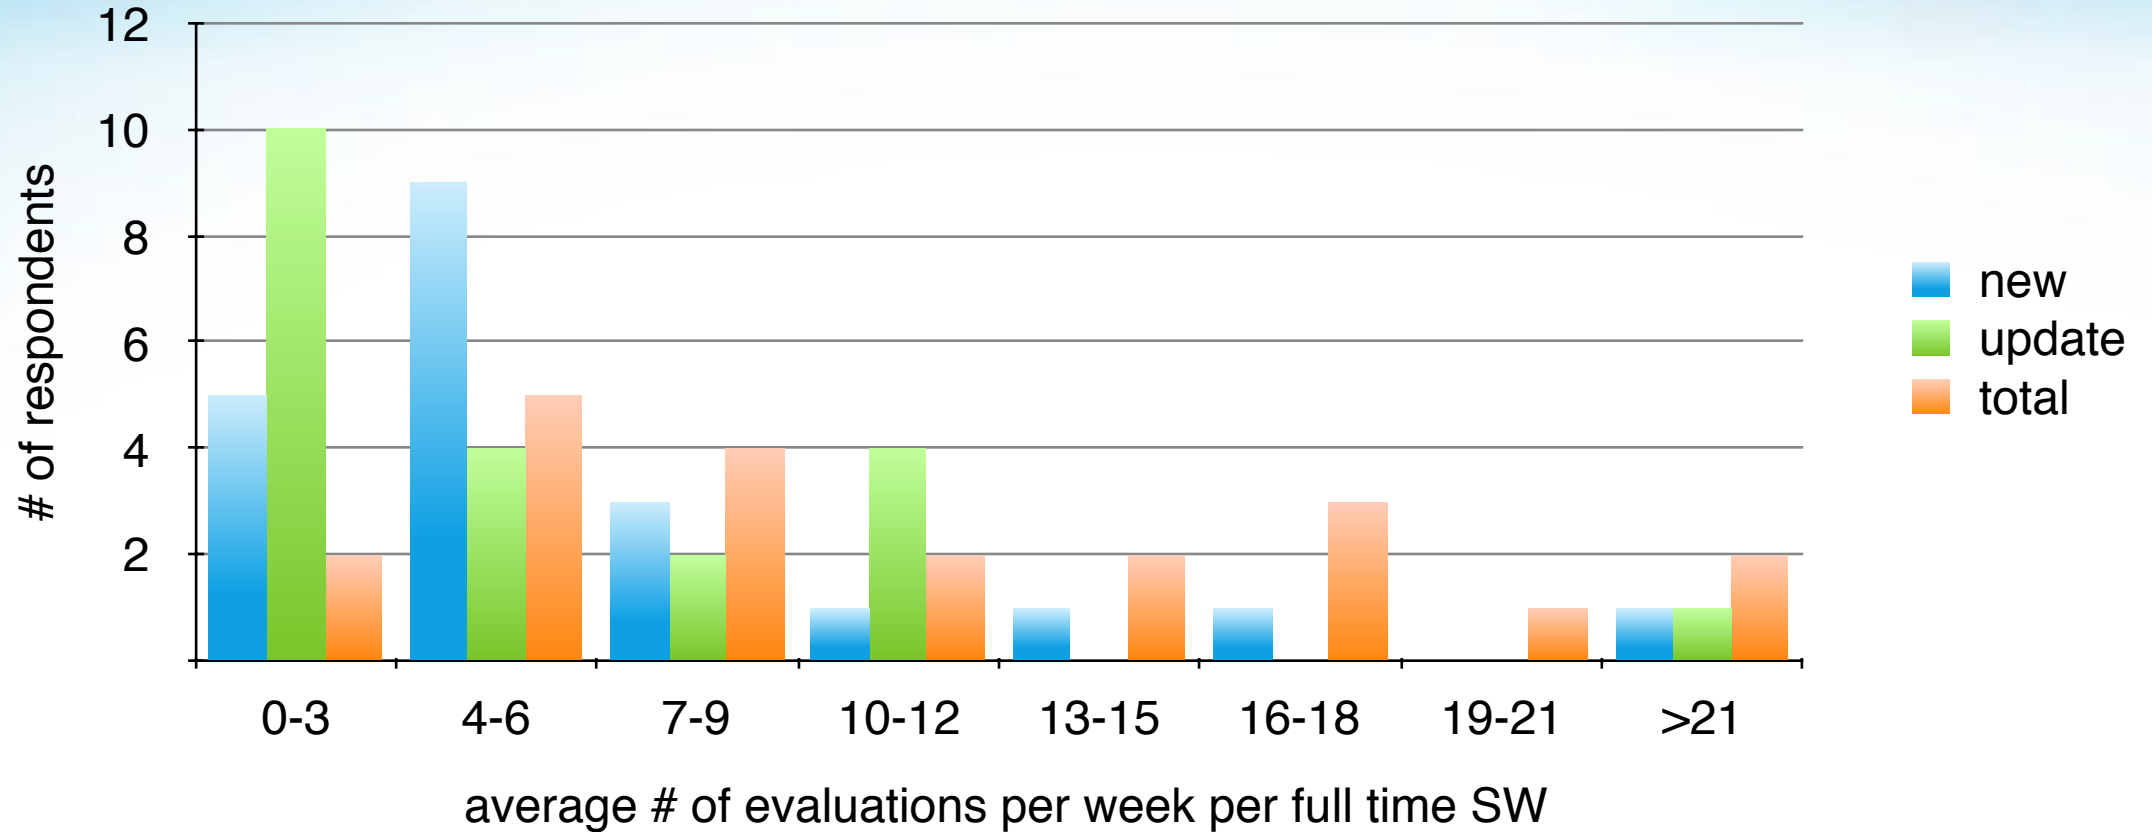

# Liver txp staffing, RN:SW

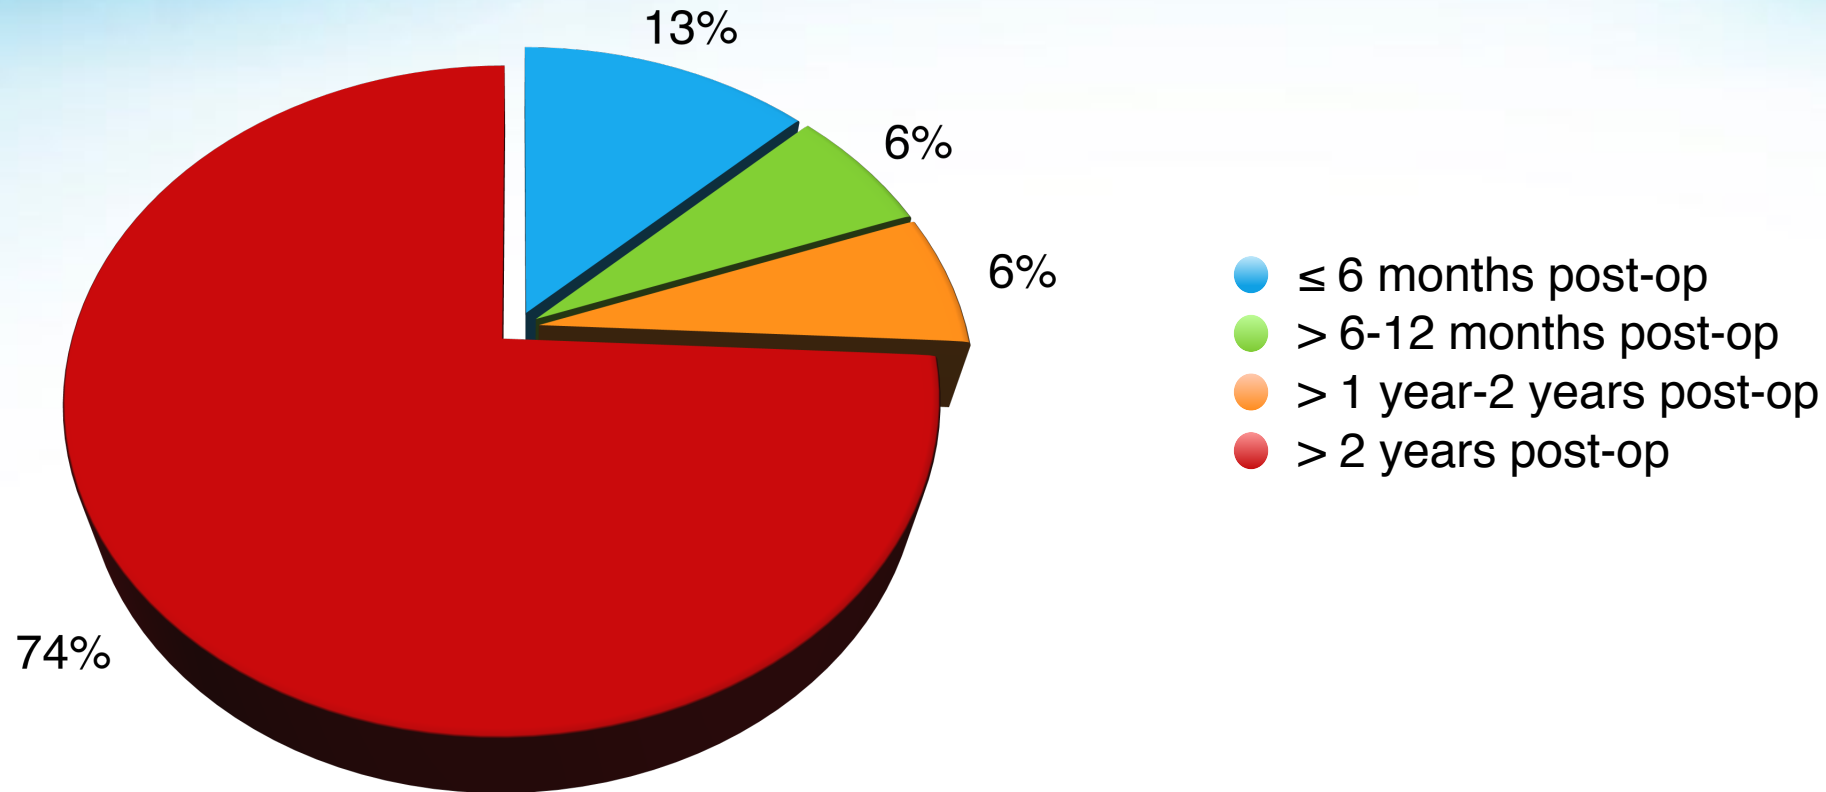

# Liver staffing by txp volume

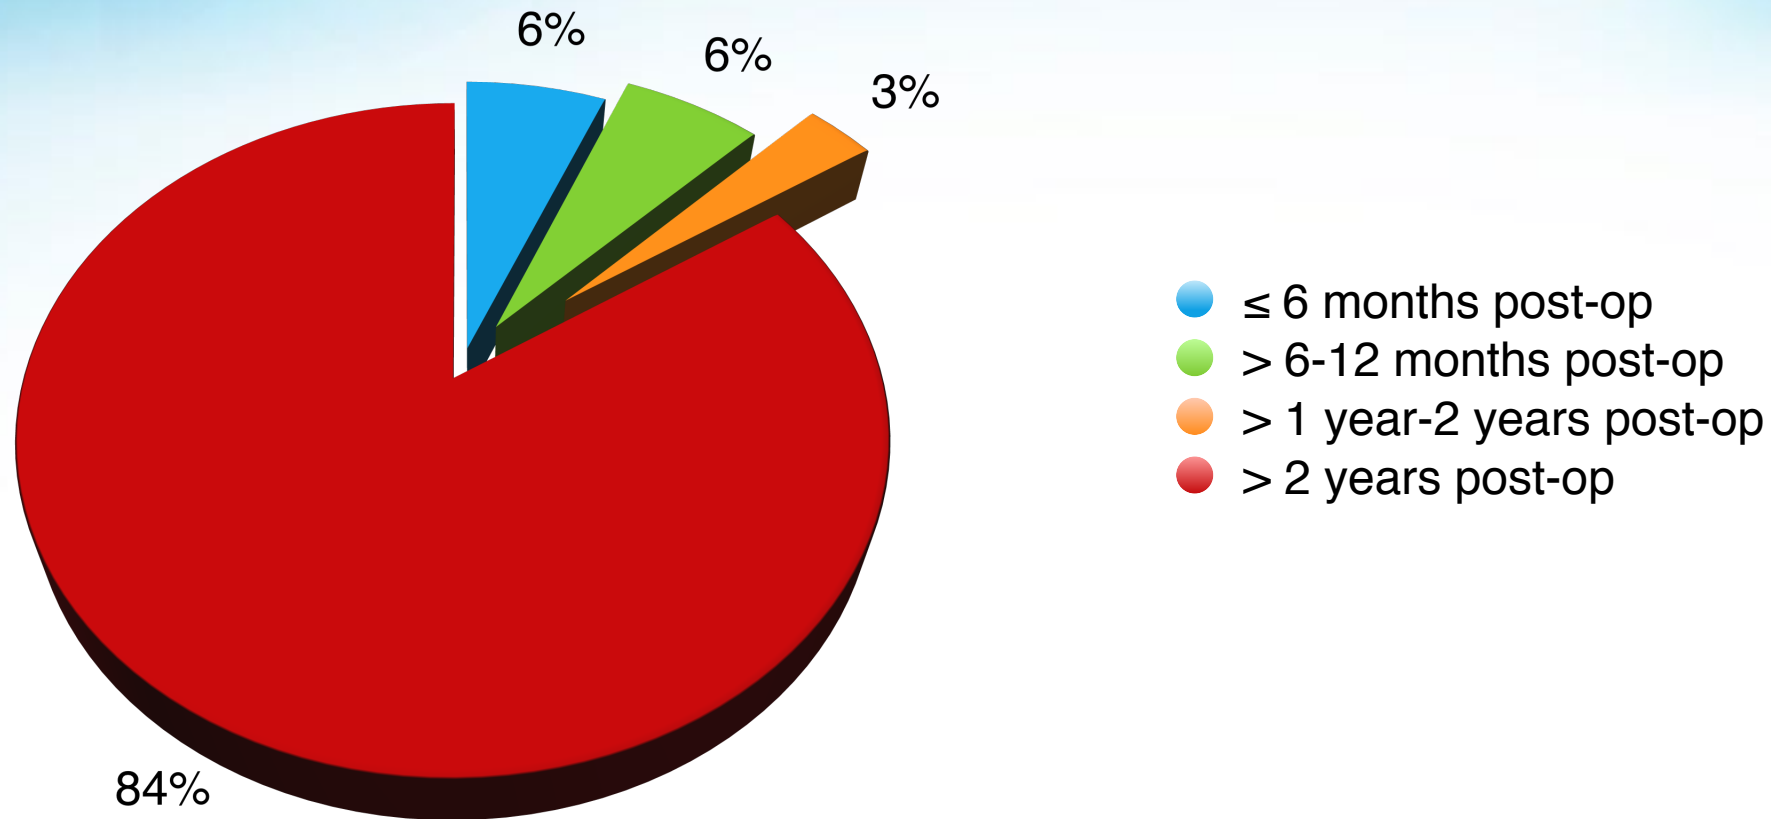

# Liver txp evaluations per week

# How long liver txp SW follows inpatients

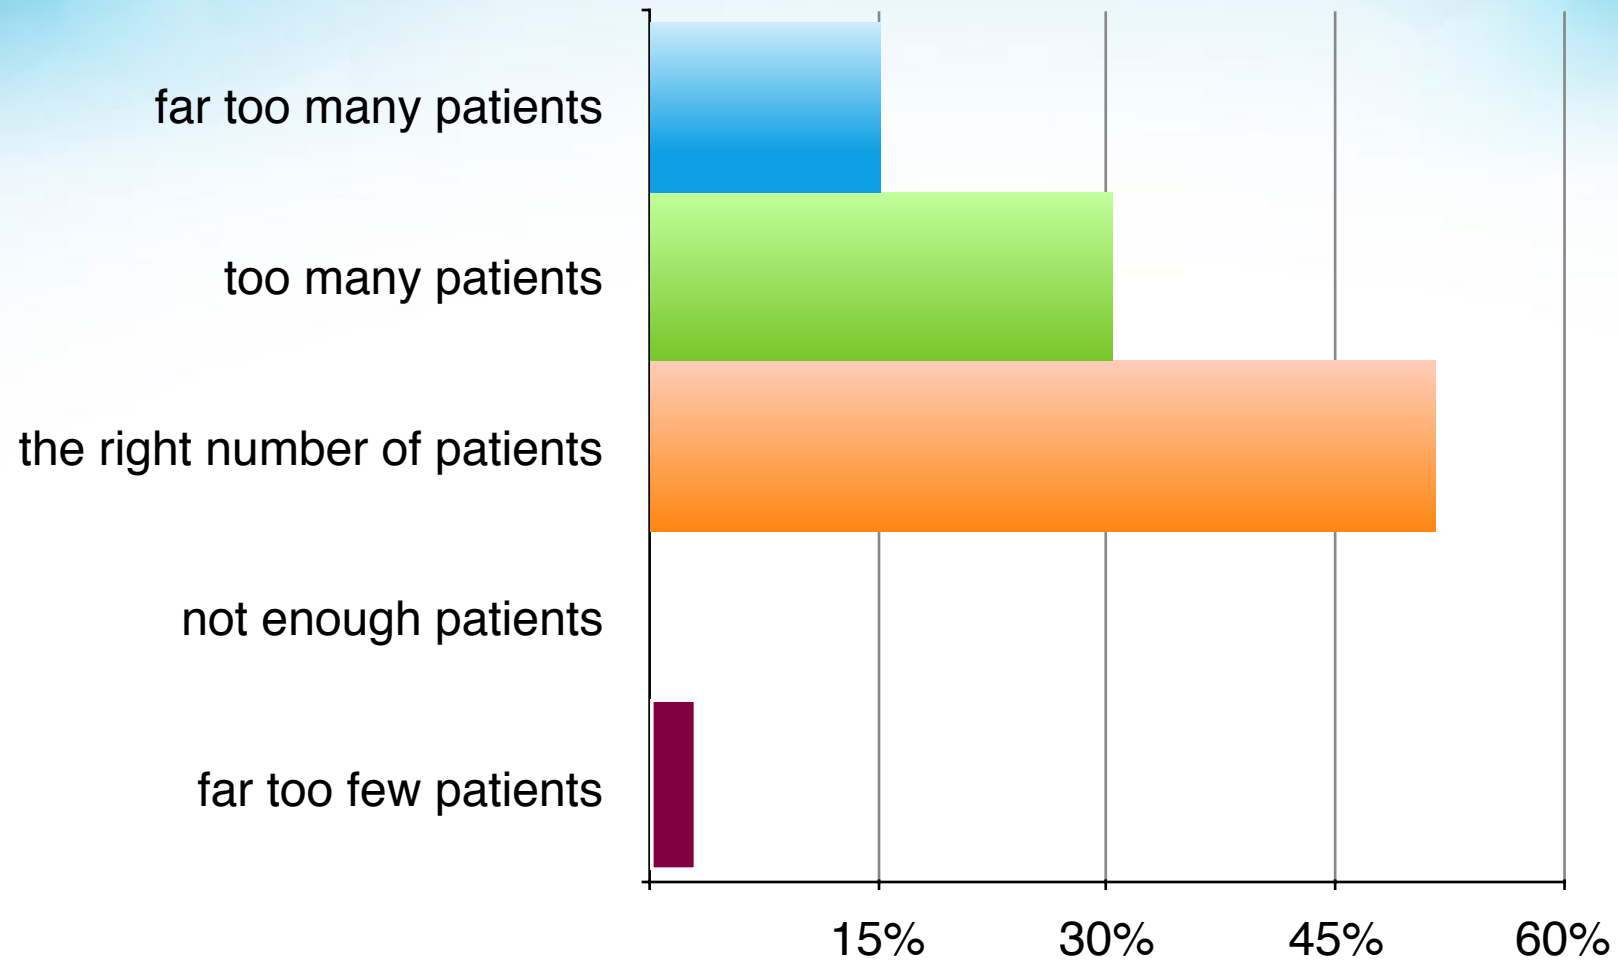

# How long liver txp SW follows outpatients

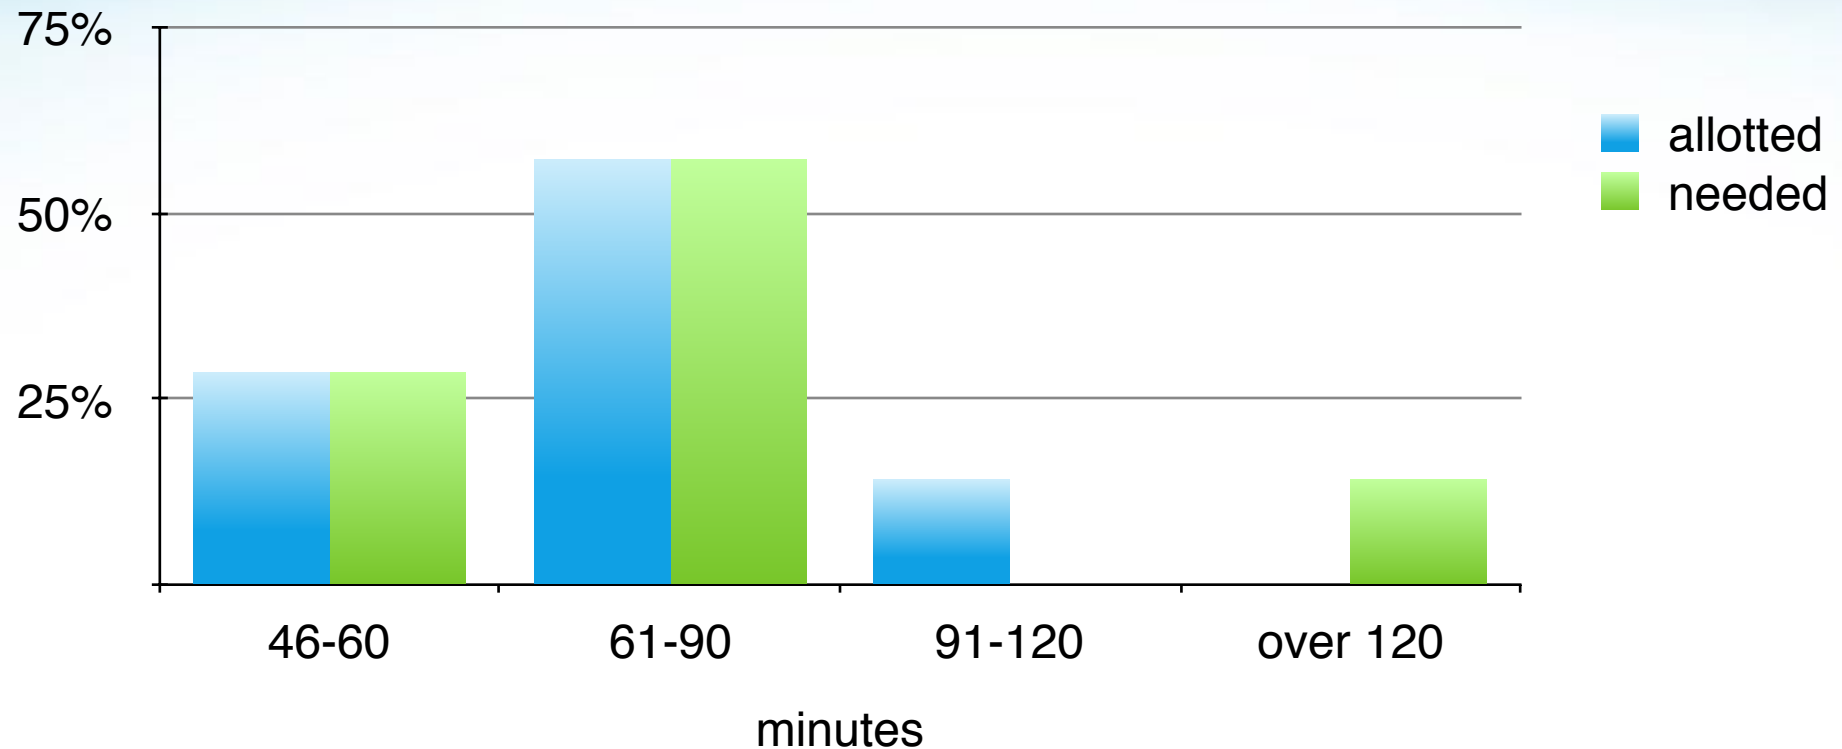

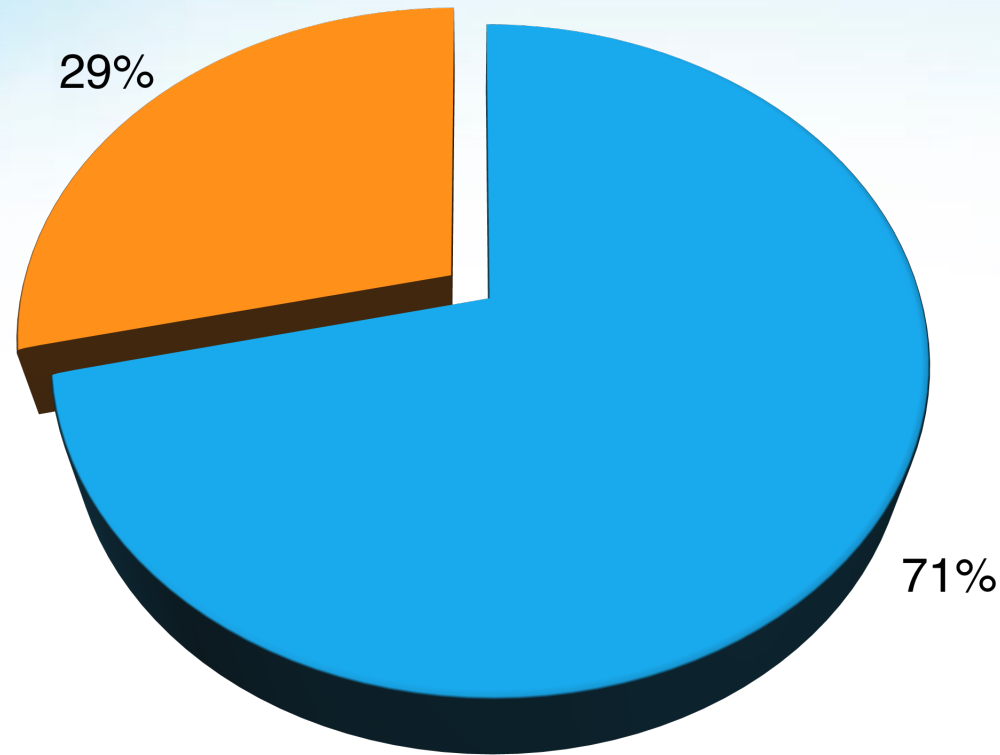

# Current liver txp caseload

# Time for MCS psychosocial eval

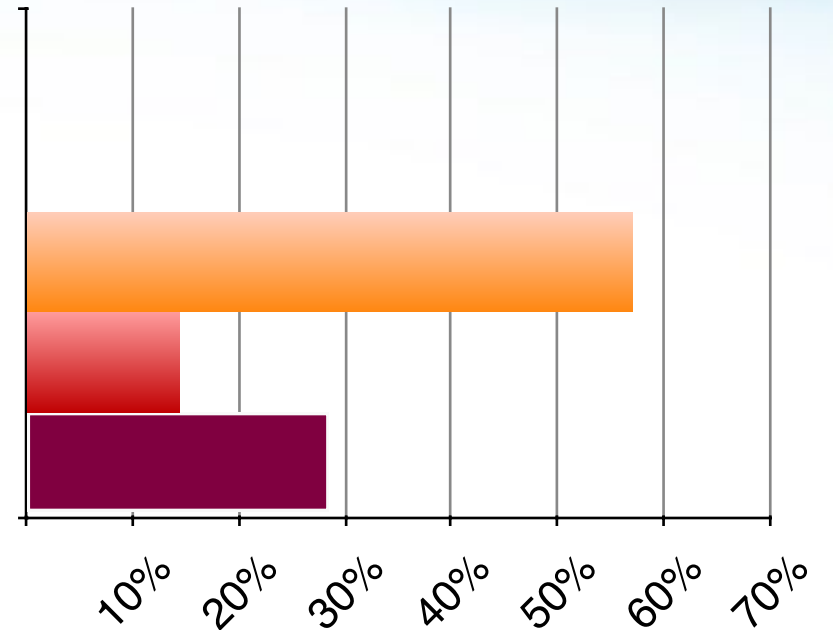

# When MCS psychosocial eval is done

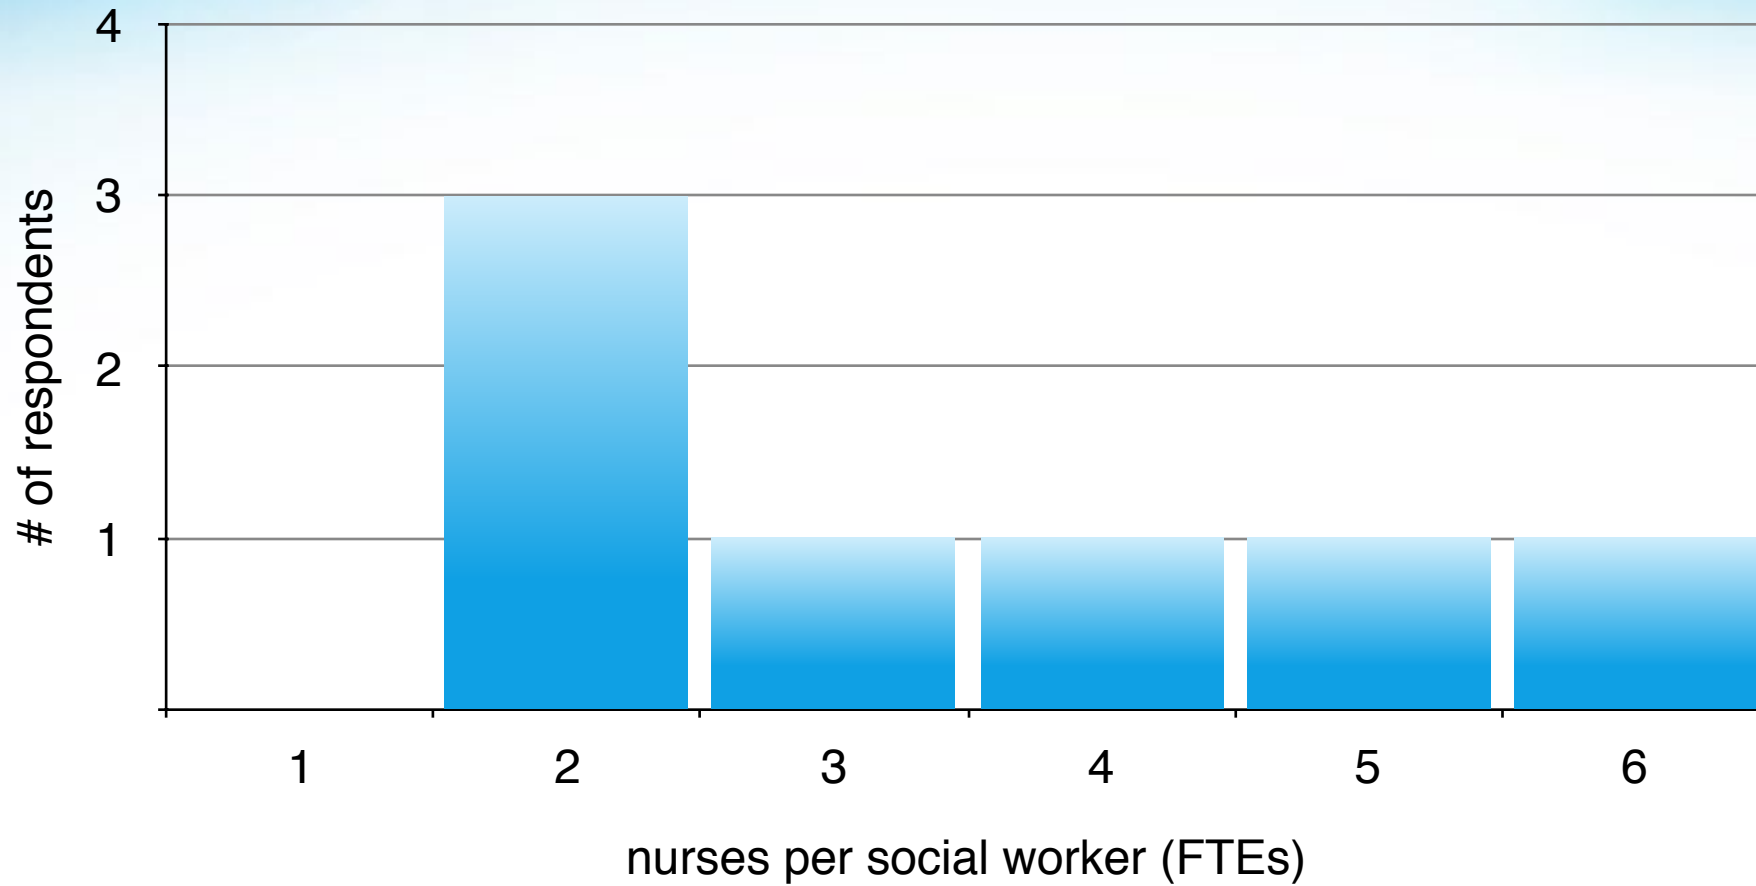

- Toward the beginning, before a medical determination is made.
- Toward the end, after a medical determination is made.
- It varies.

# Risk scales used in MCS

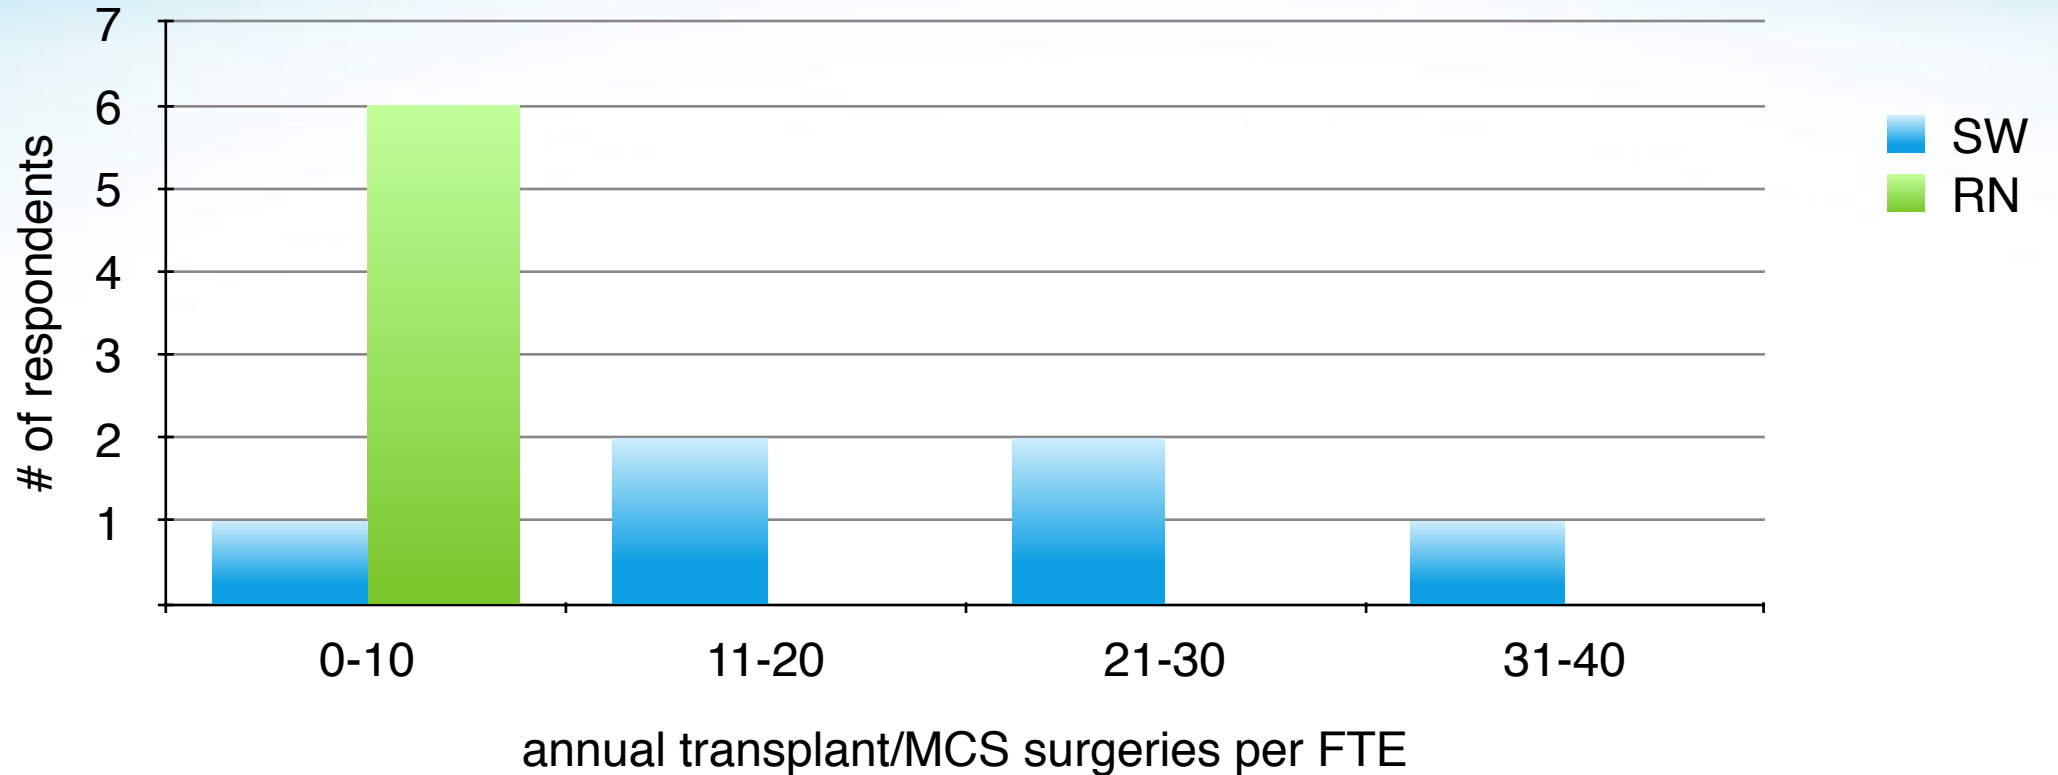

Psychosocial Assessment of Candidates for Transplantation (PACT)  
Transplant Evaluation Rating Scale (TERS)  
Stanford Integrated Psychosocial Assessment for Transplant (SIPAT)  
STSW Psychosocial Risk Profile Scoring Tool  
I don't use a risk scale.

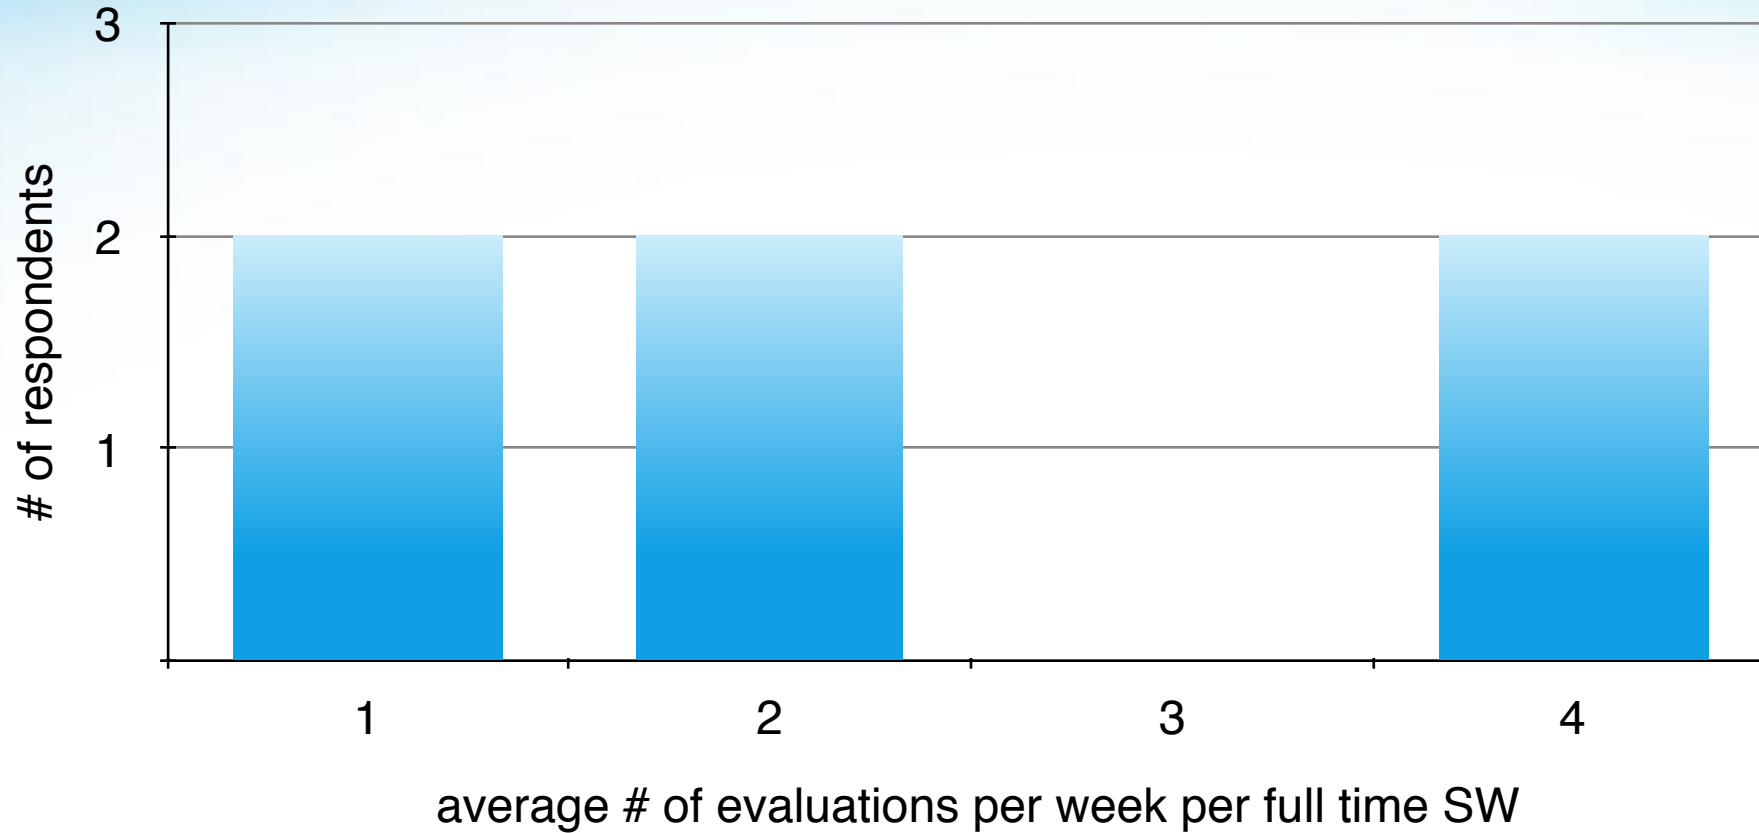

# MCS staffing, RN:SW

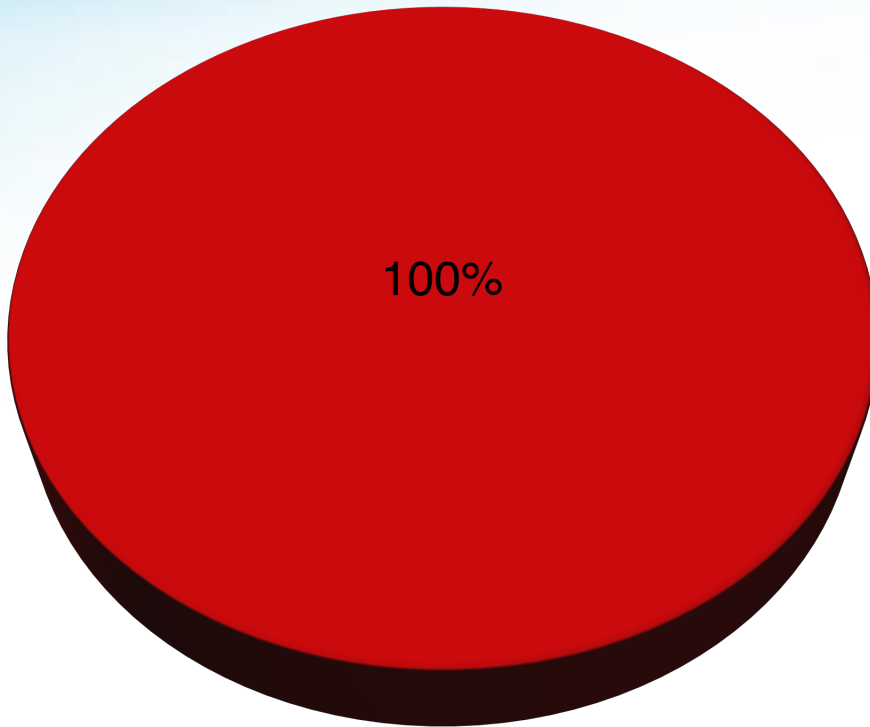

# MCS staffing by volume

# MCS evaluations per week

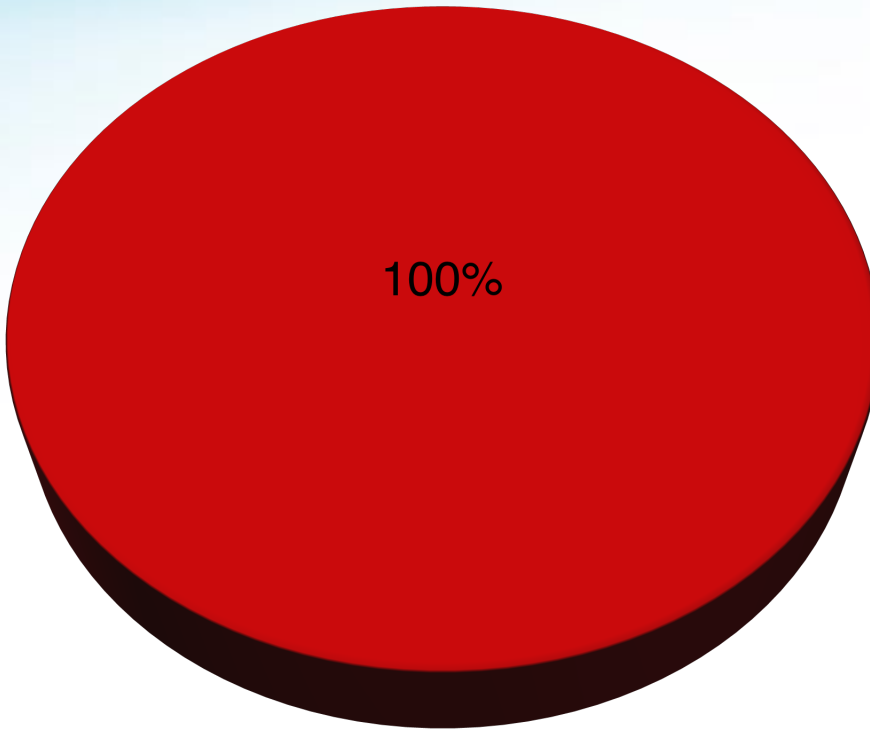

# How long SW follows MCS inpatients

- ≤ 6 months post-op
- > 6-12 months post-op
- > 1 year-2 years post-op
- > 2 years post-op

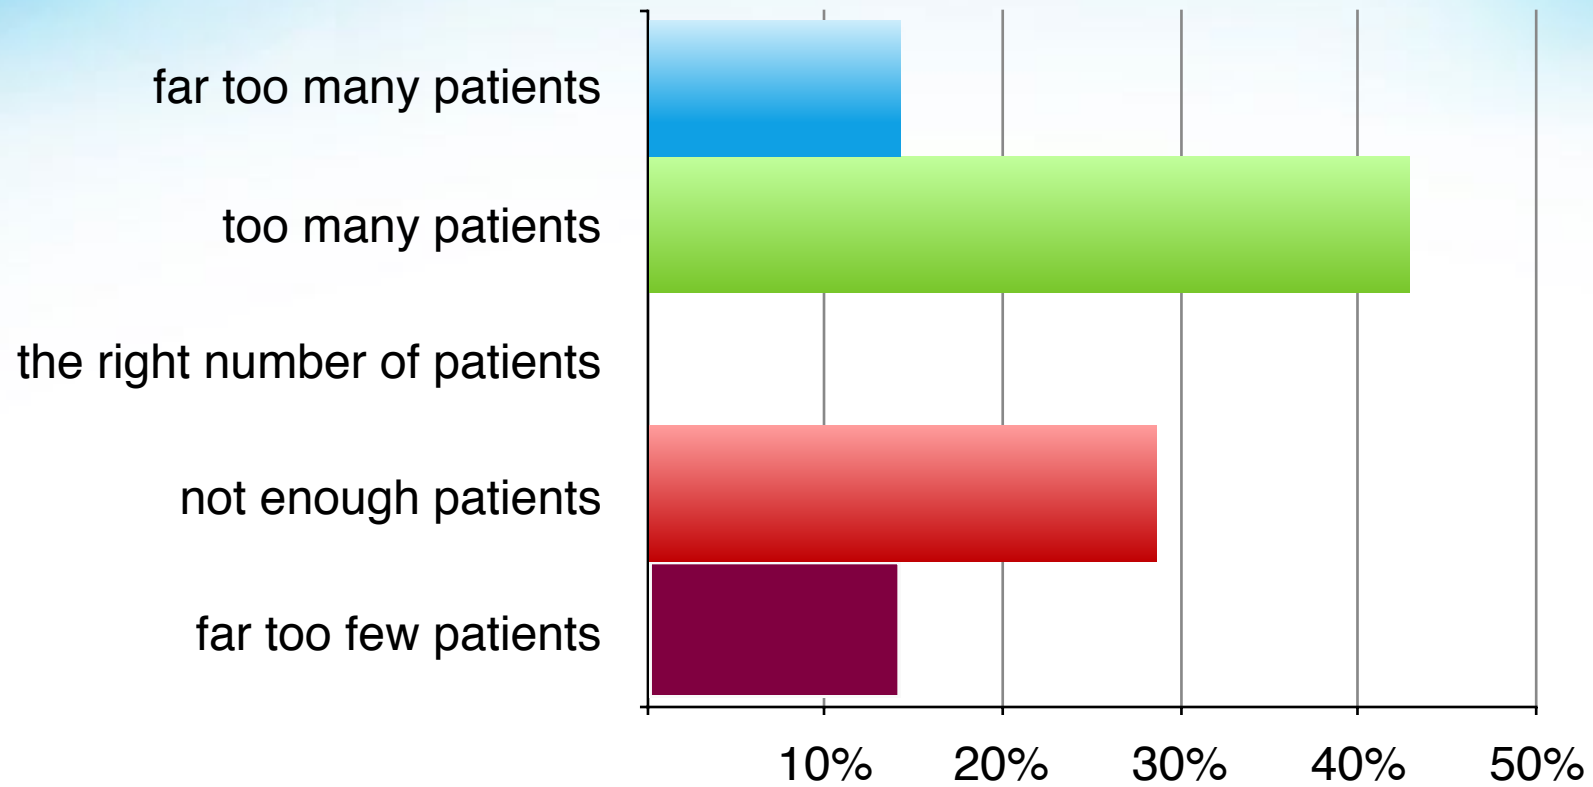

# How long SW follows MCS outpatients

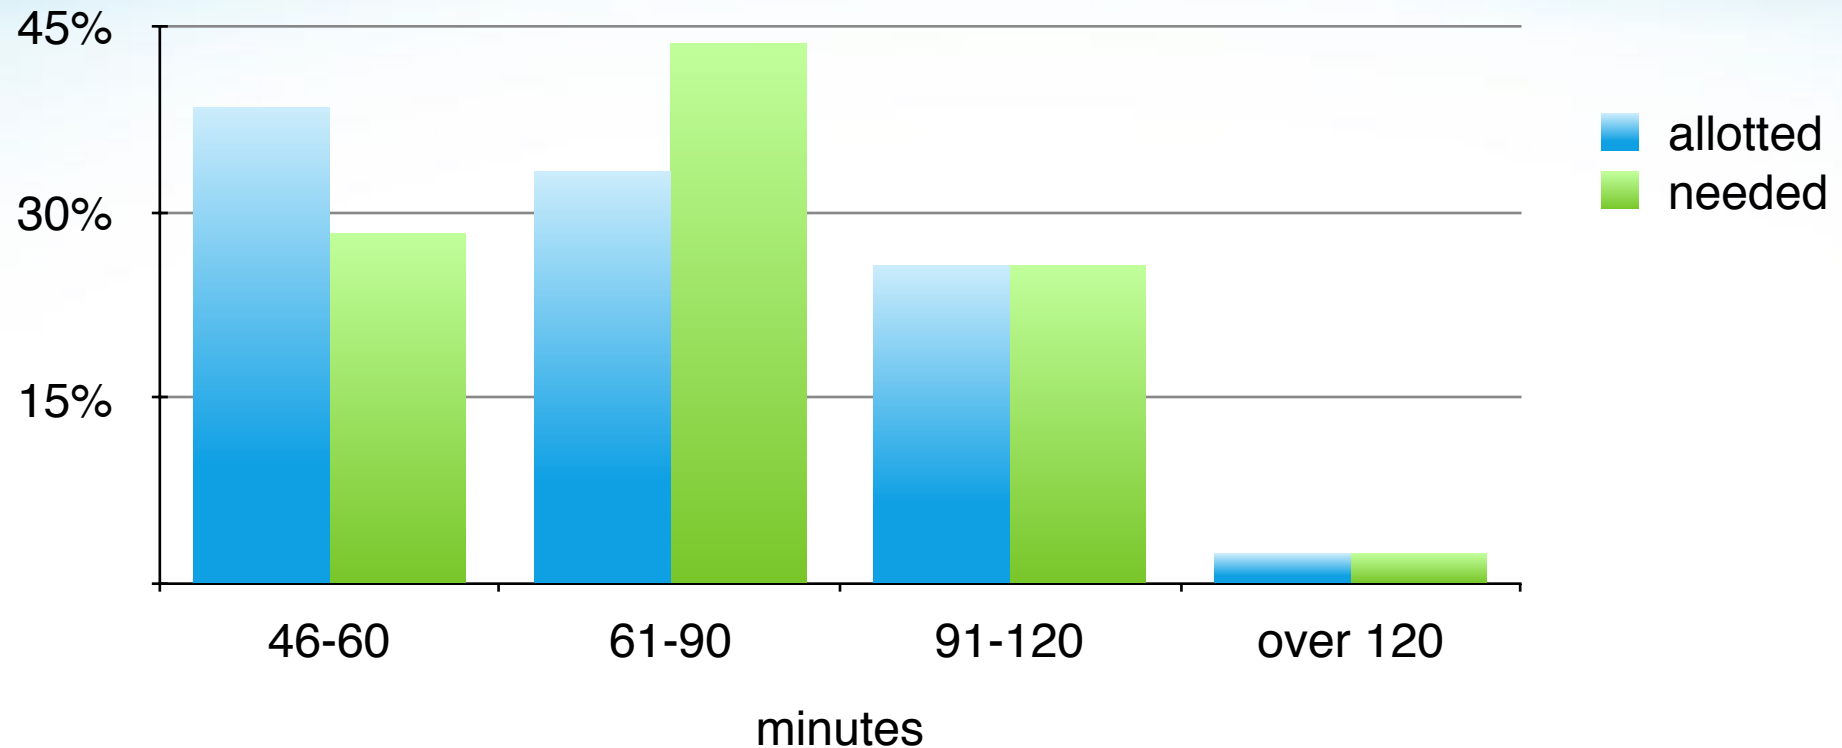

- ≤ 6 months post-op
- > 6-12 months post-op
- > 1 year-2 years post-op
- > 2 years post-op

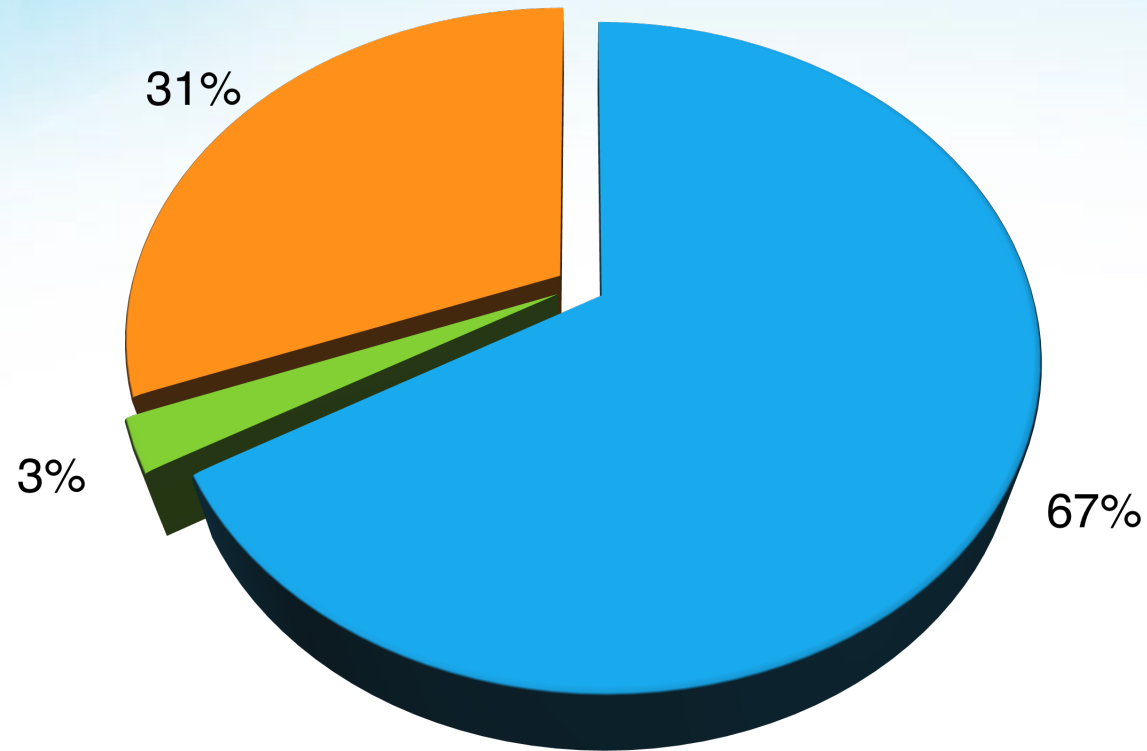

# Current MCS caseload

# Time for heart txp/MCS psychosocial eval

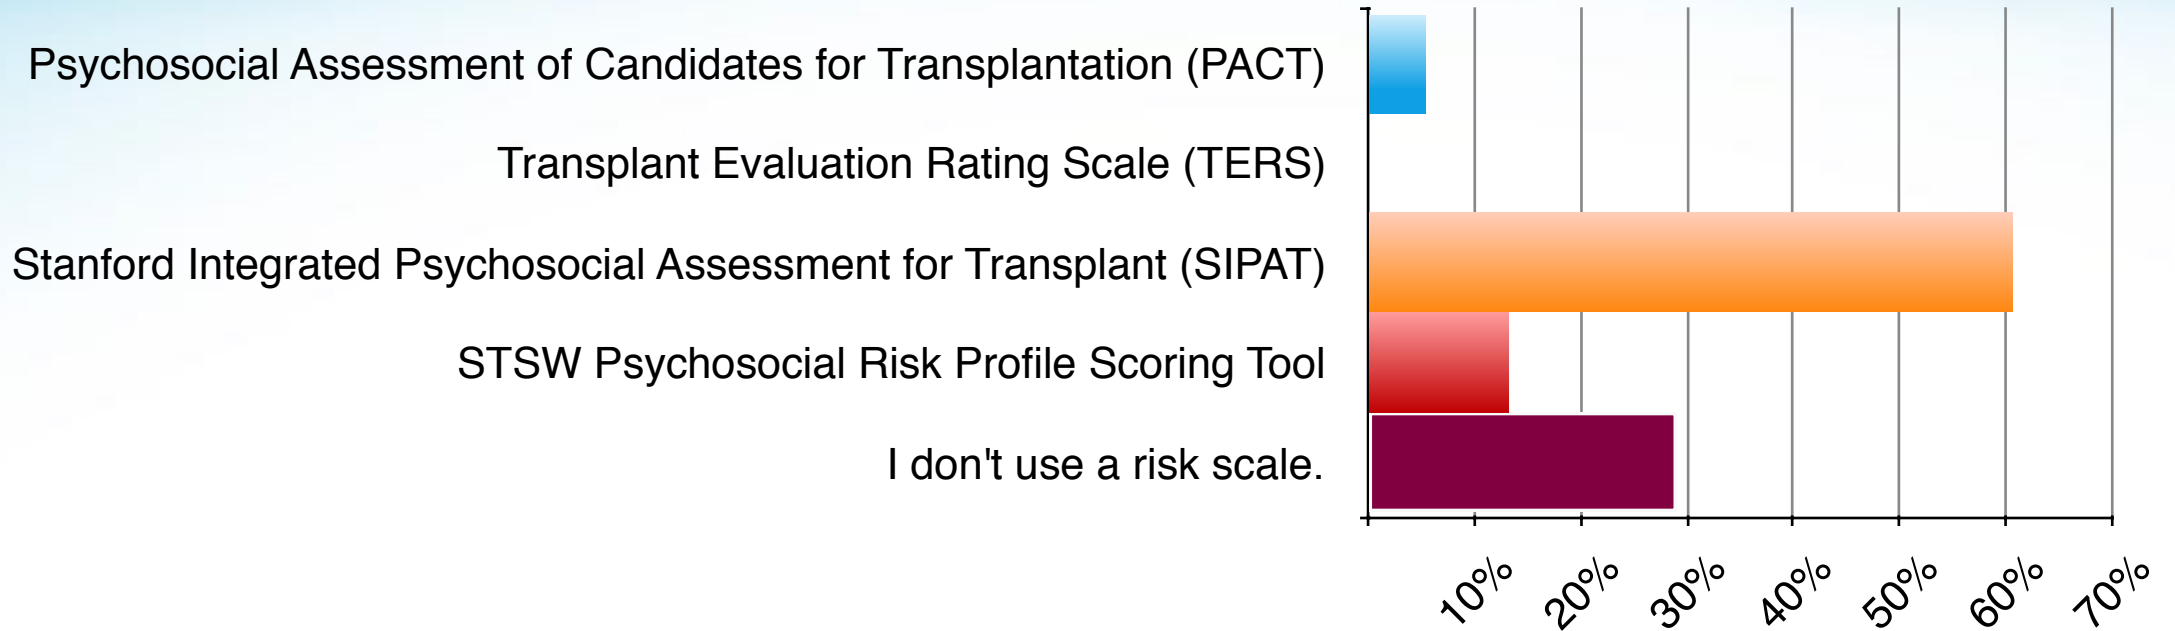

# When heart txp/MCS psychosocial eval is done

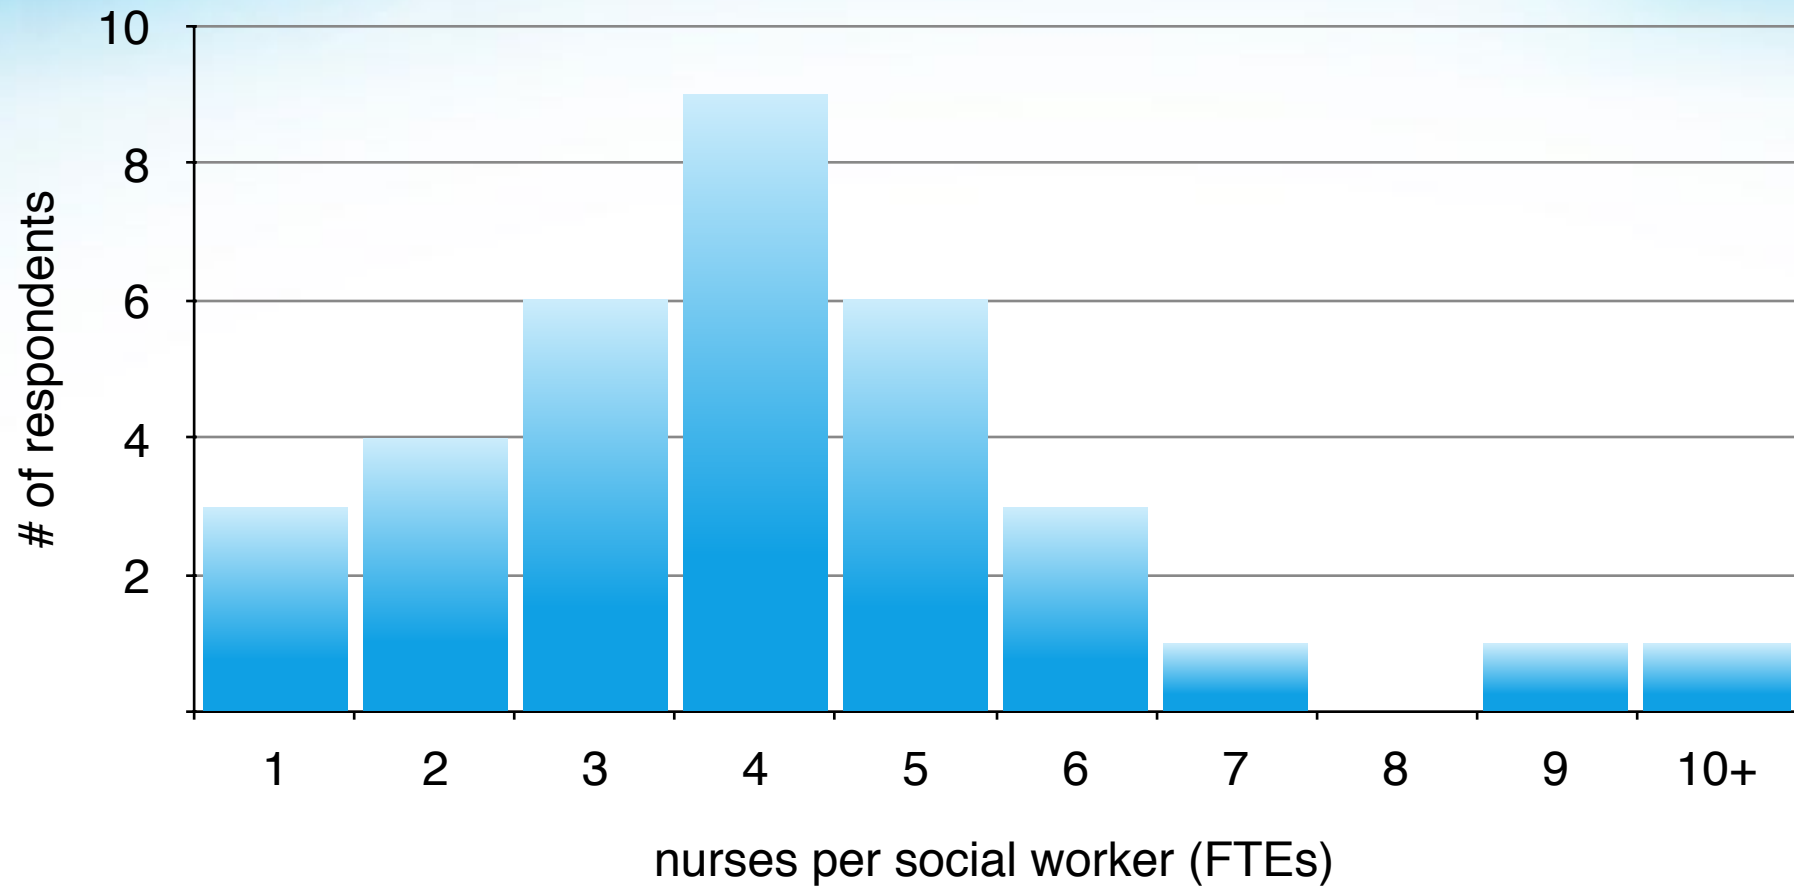

- Toward the beginning, before a medical determination is made.
- Toward the end, after a medical determination is made.
- It varies.

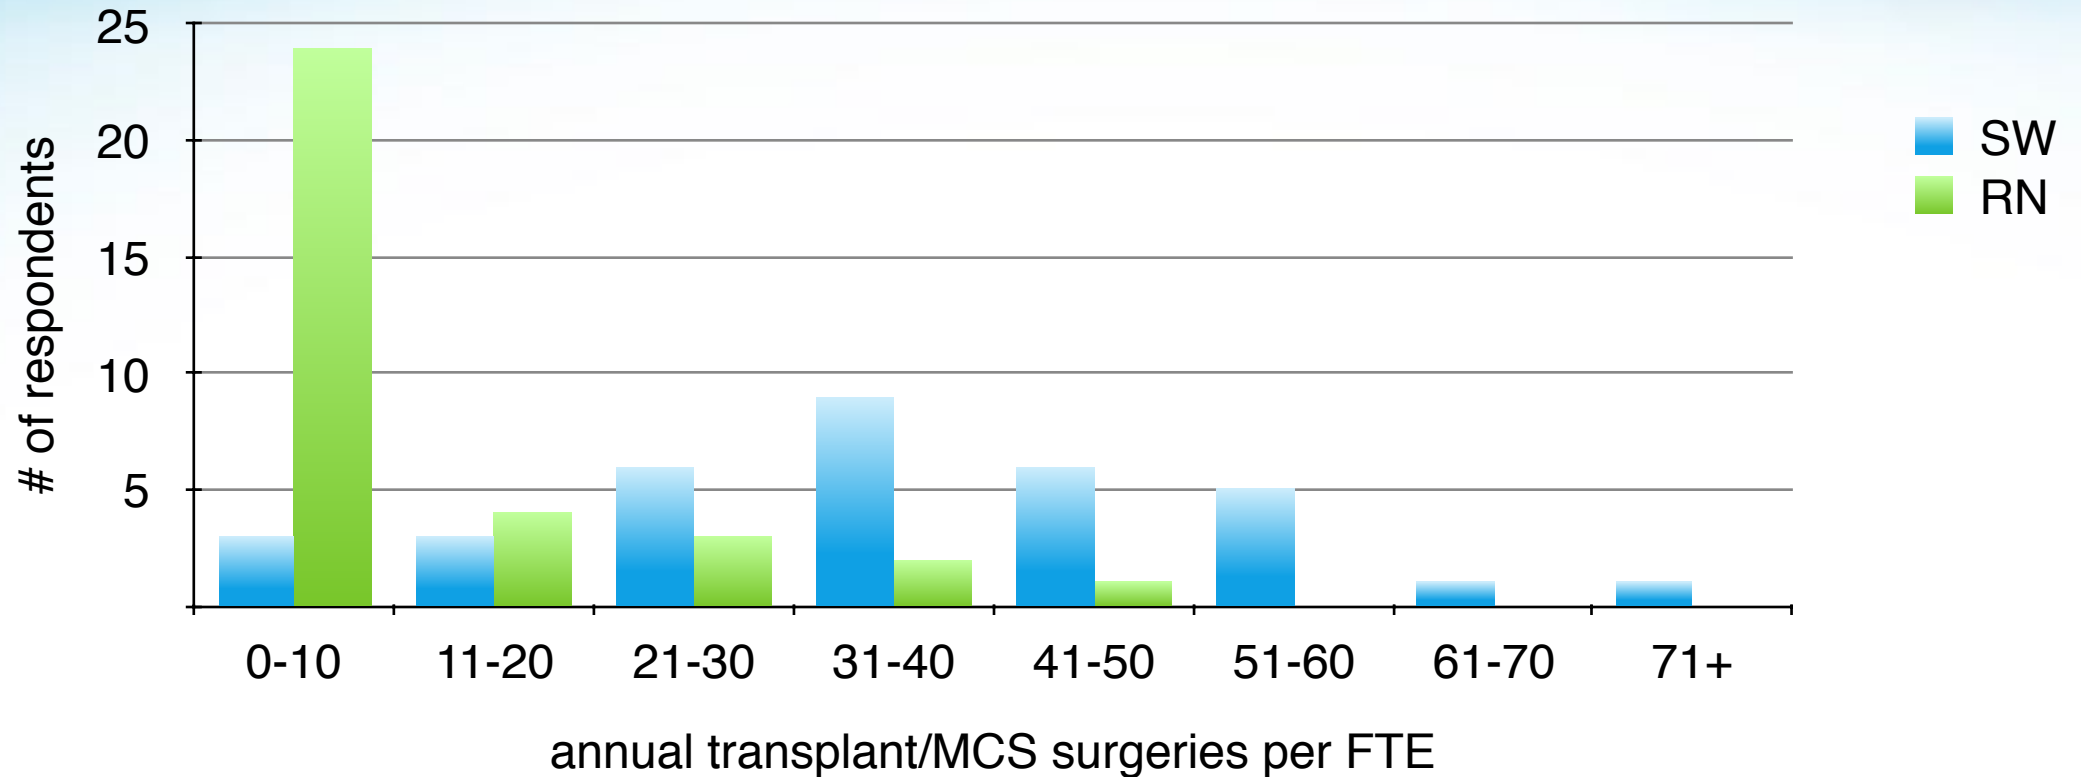

# Risk scales used in heart txp/MCS

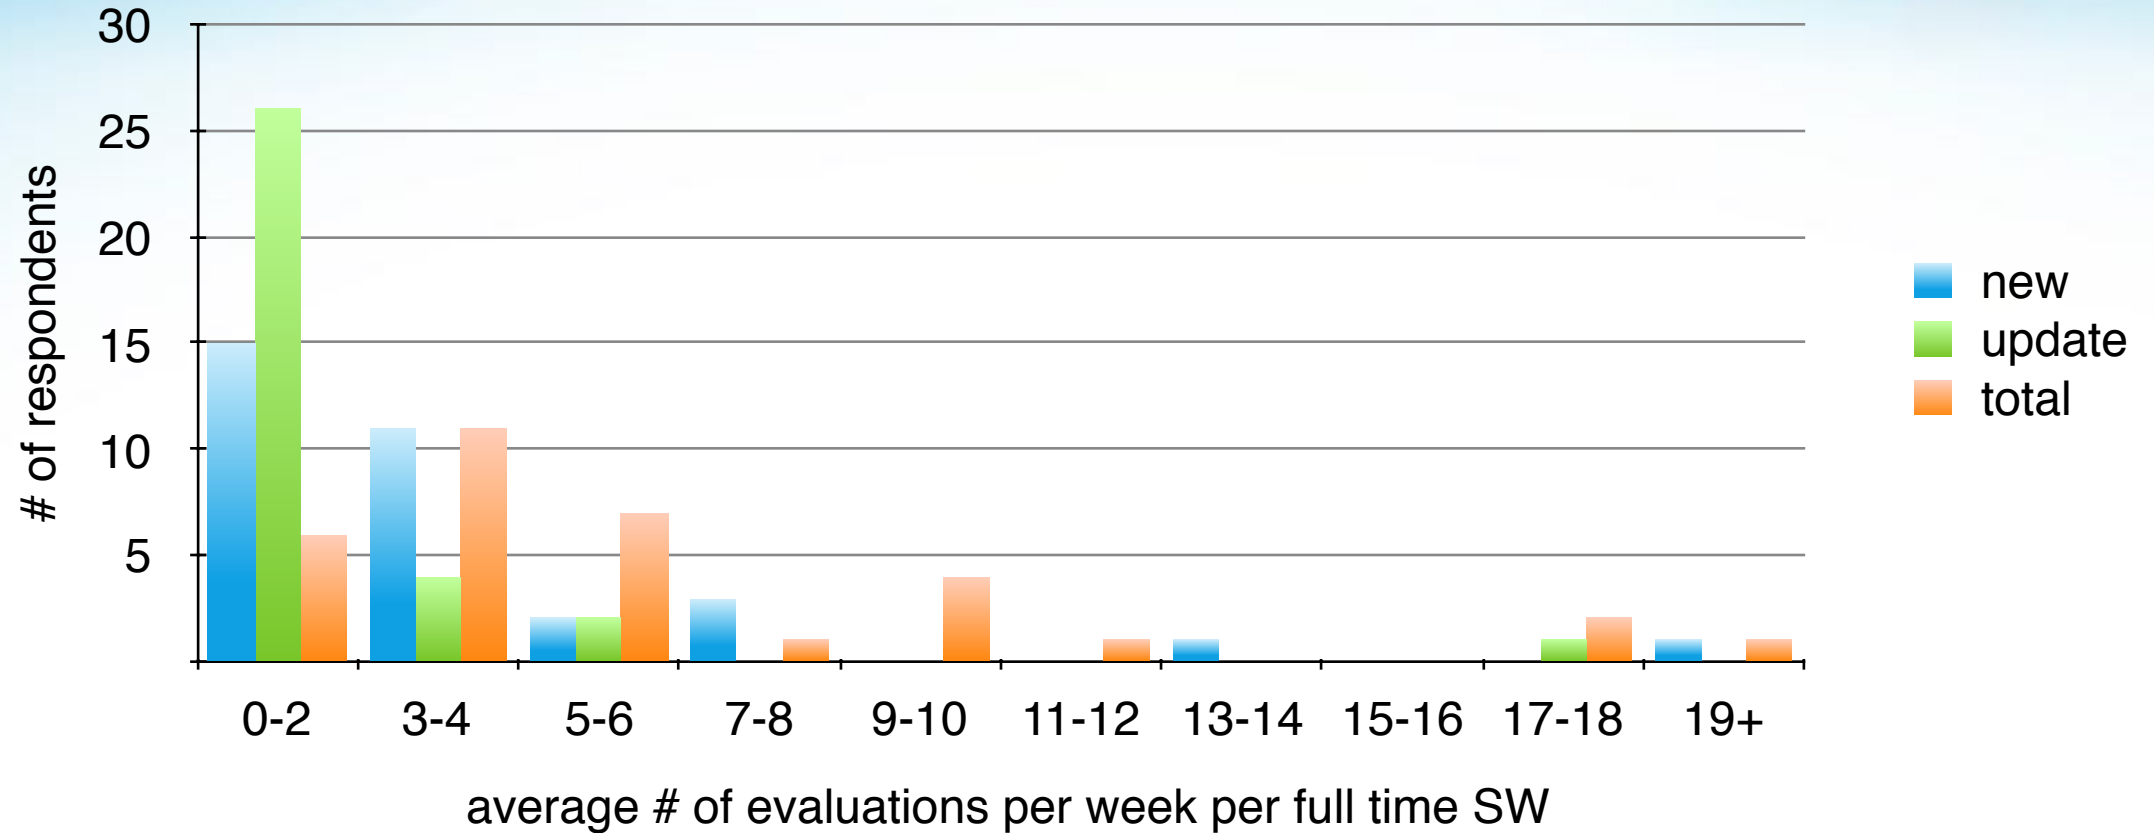

# Heart txp/MCS staffing, RN:SW

# Heart txp/MCS staffing by volume

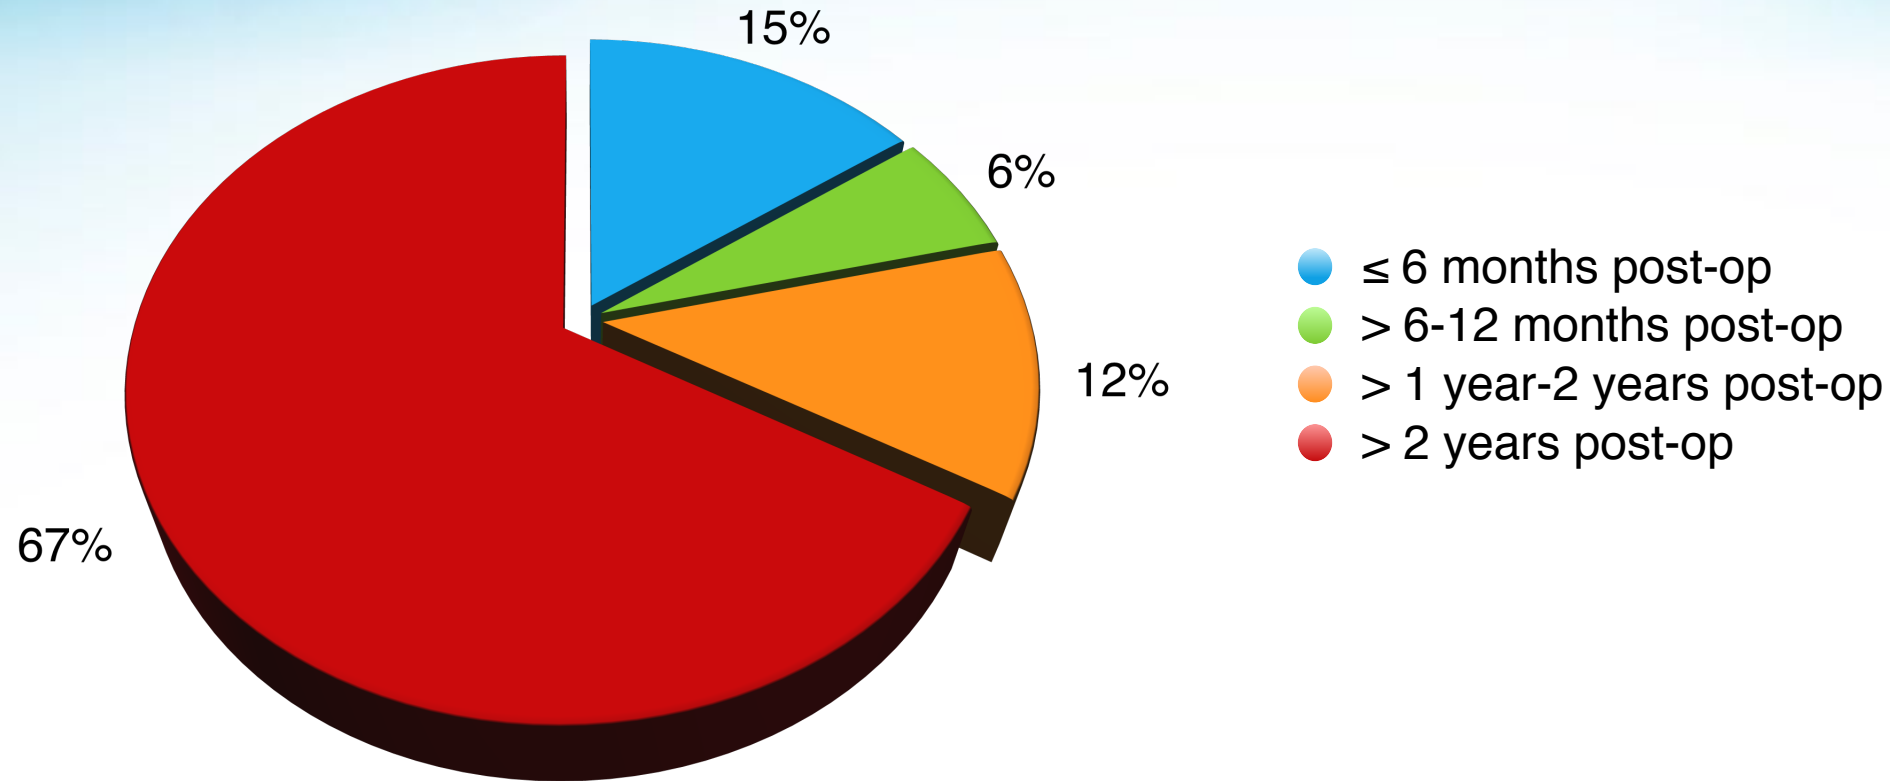

# Heart txp/MCS evaluations per week

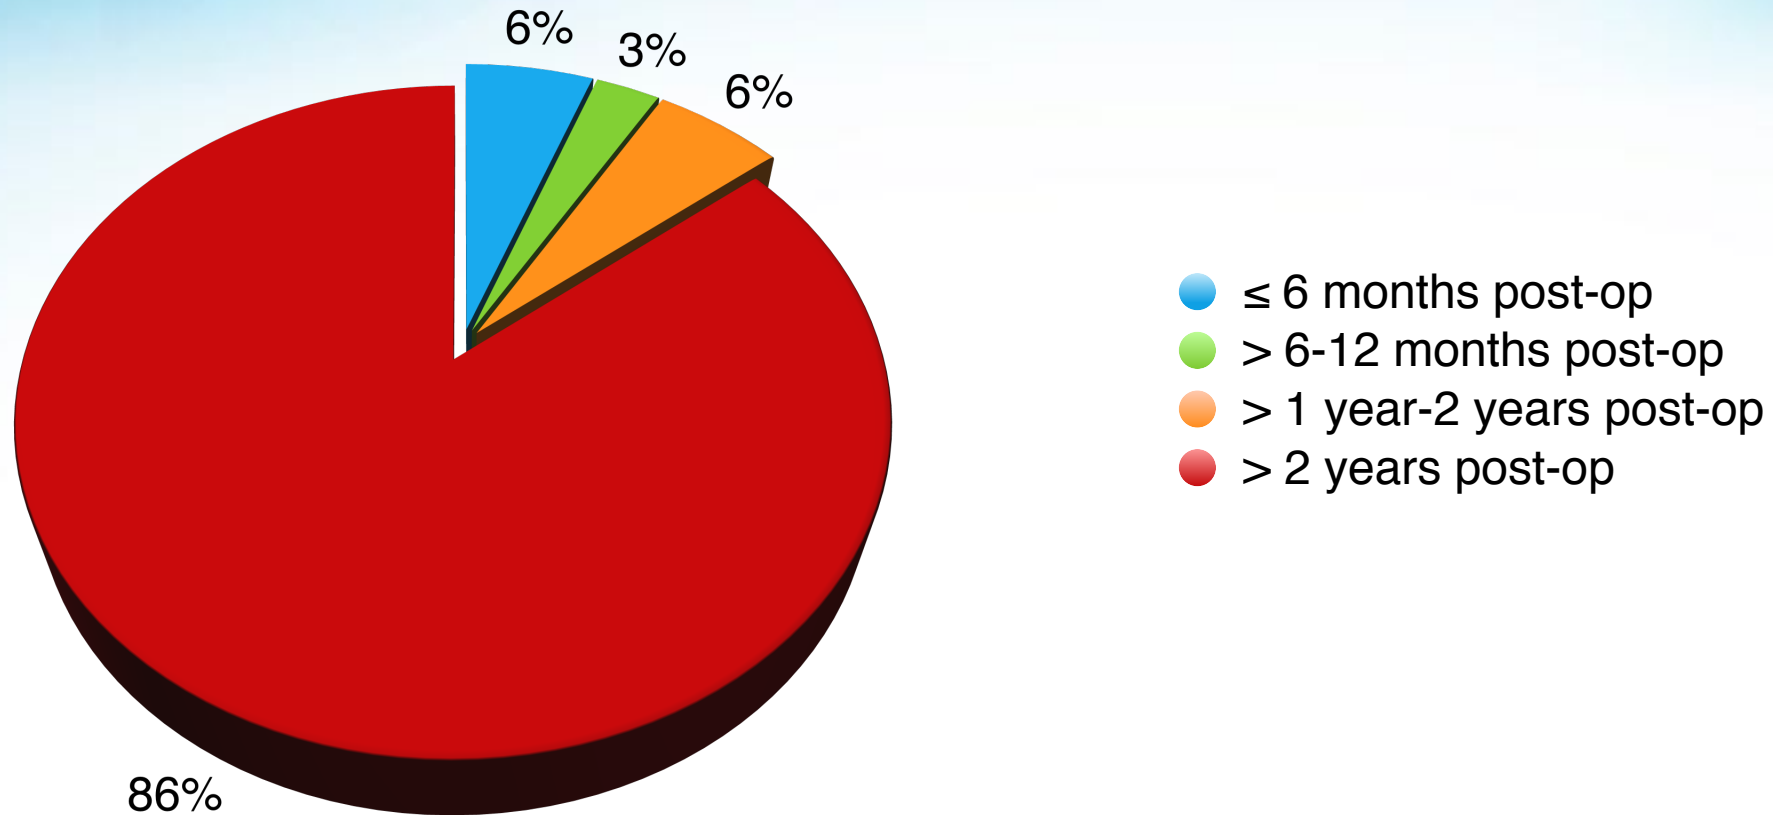

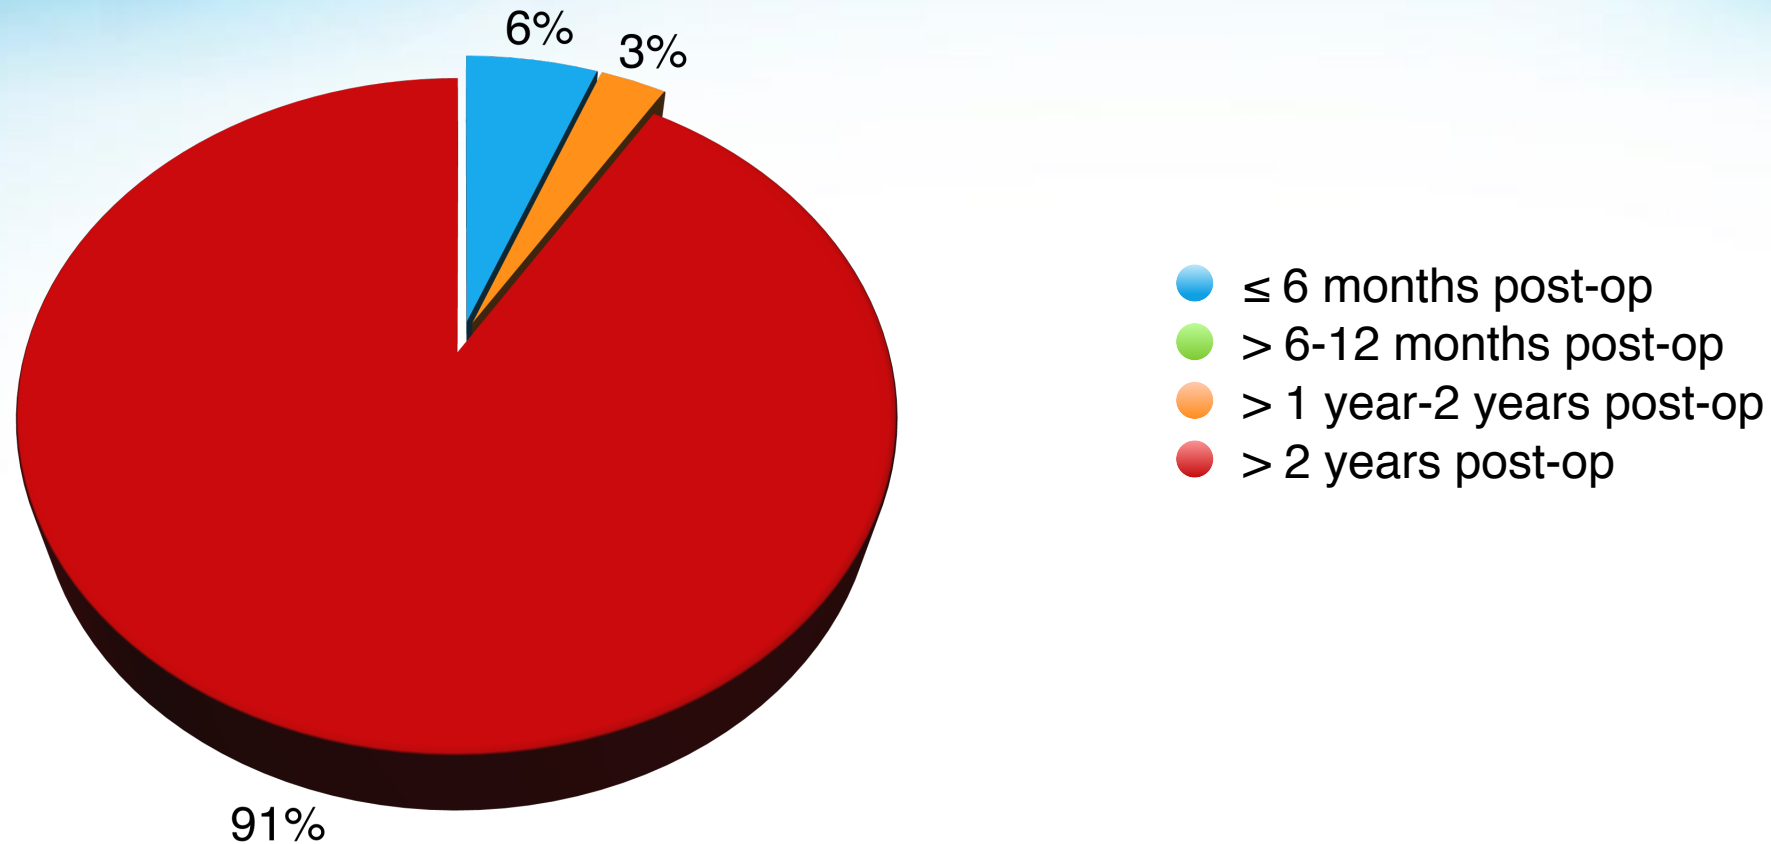

# How long SW follows heart txp inpatients

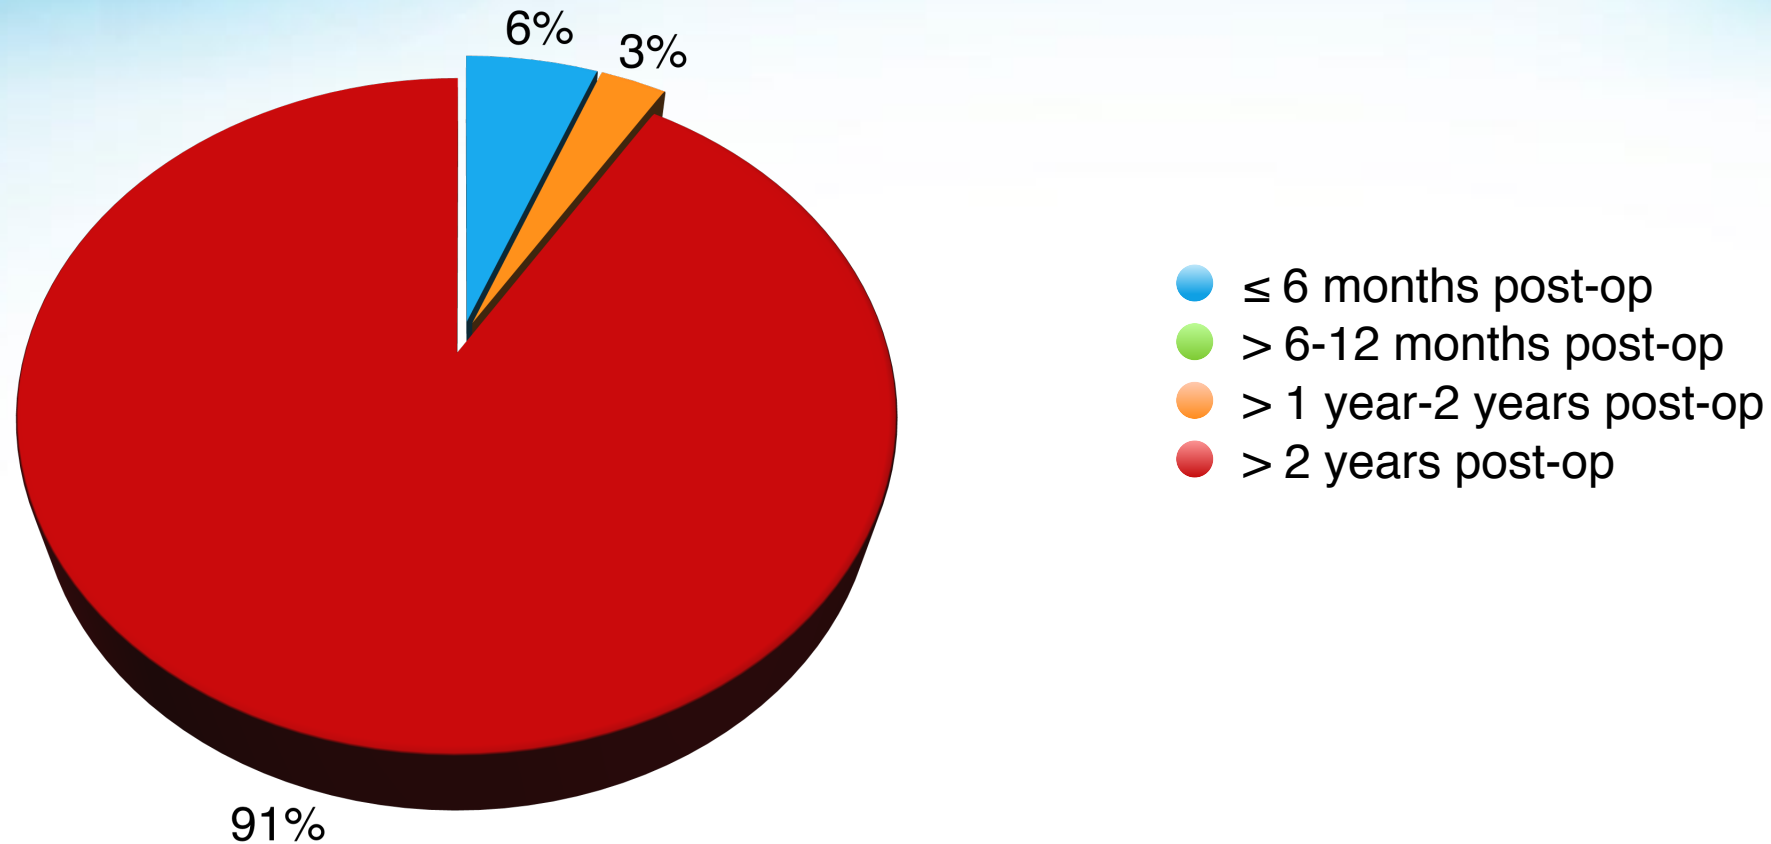

# How long SW follows MCS inpatients

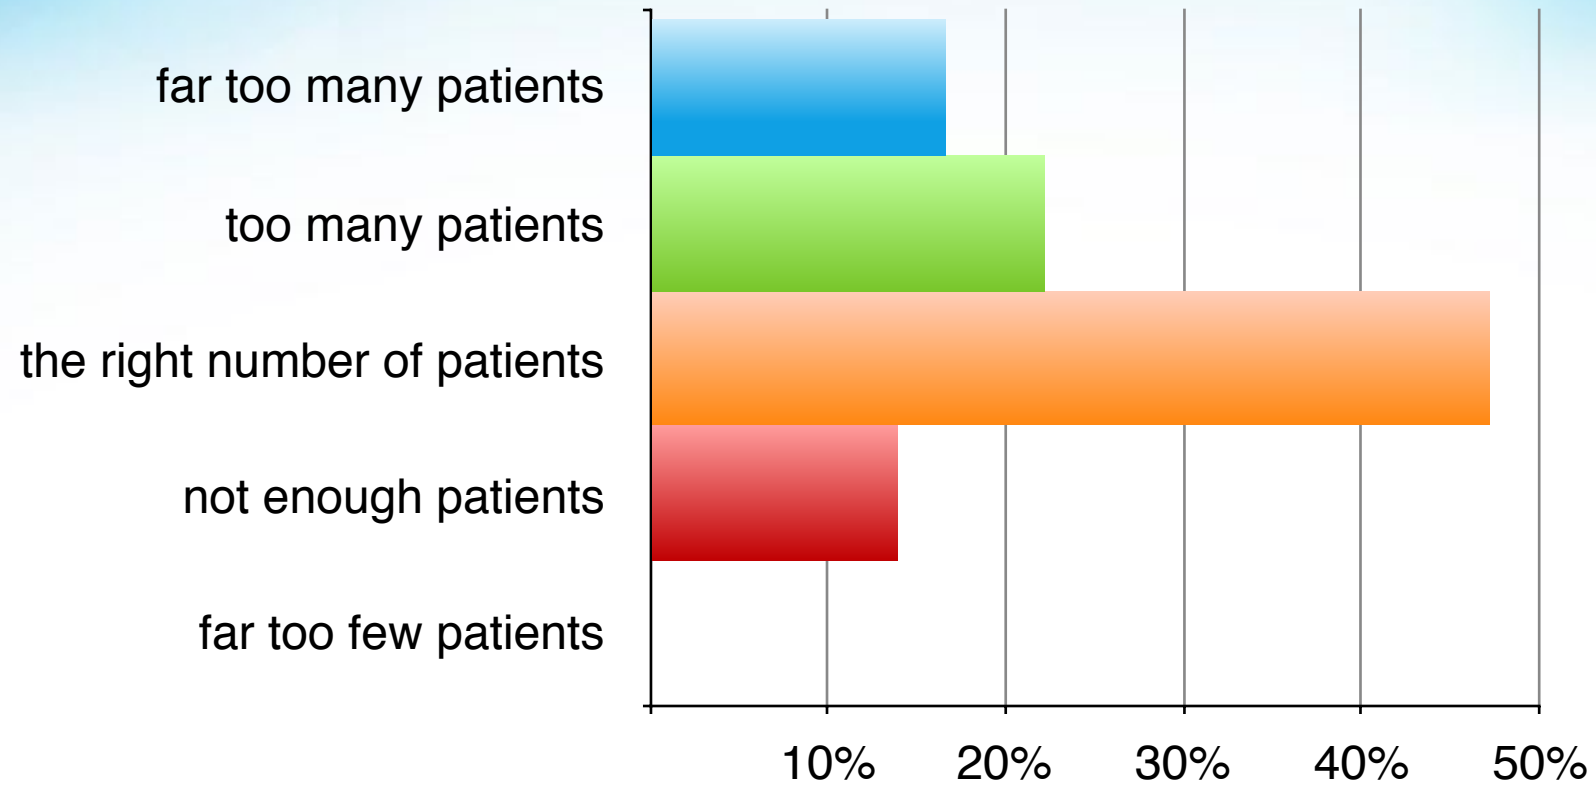

# How long SW follows heart txp outpatients

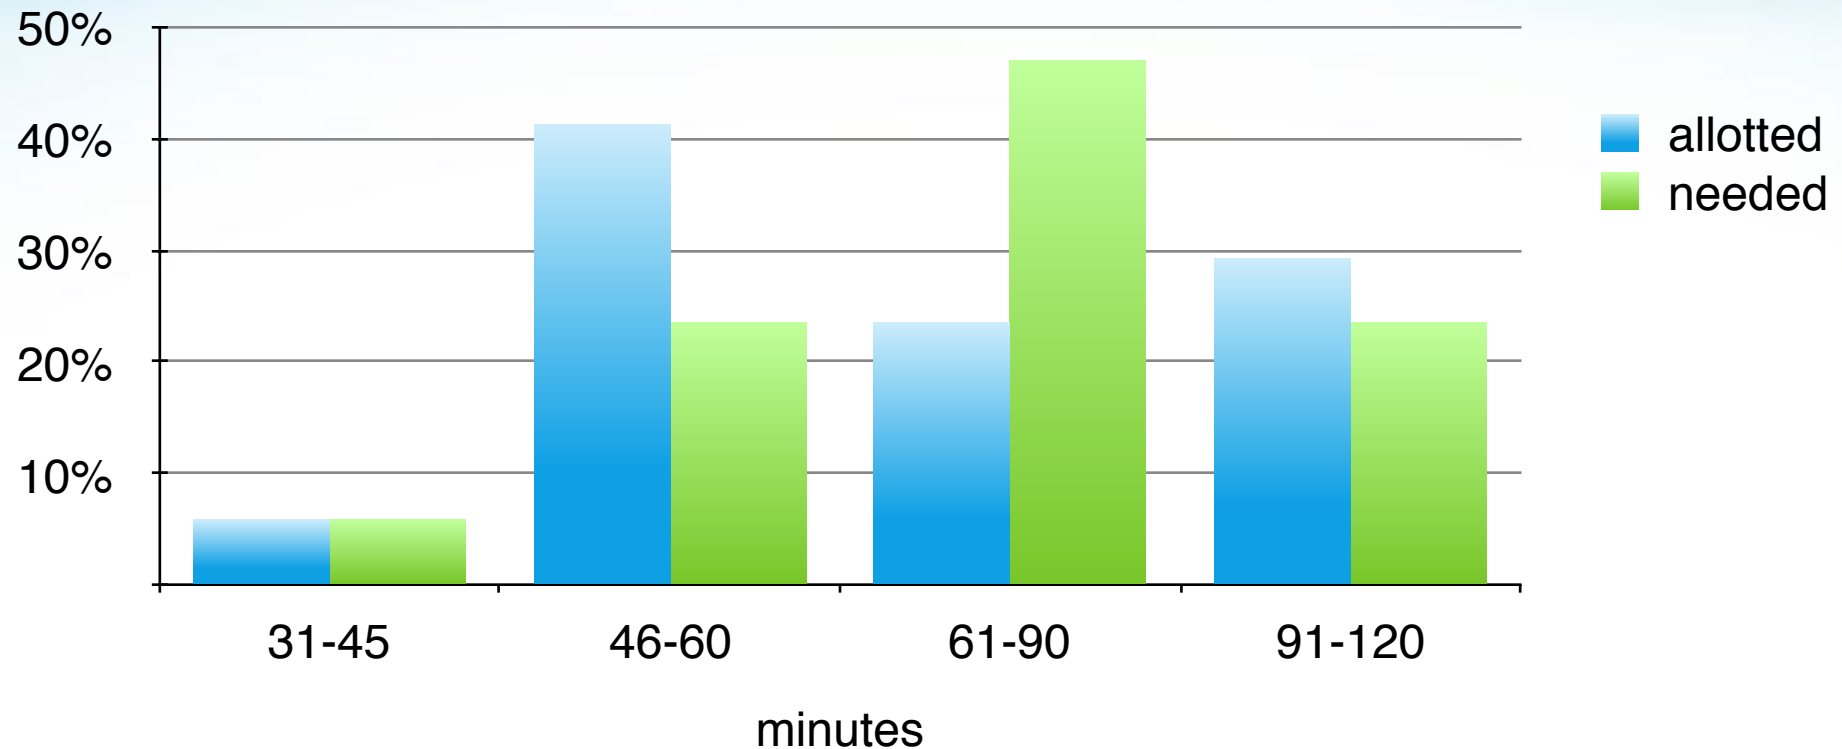

# How long SW follows MCS outpatients

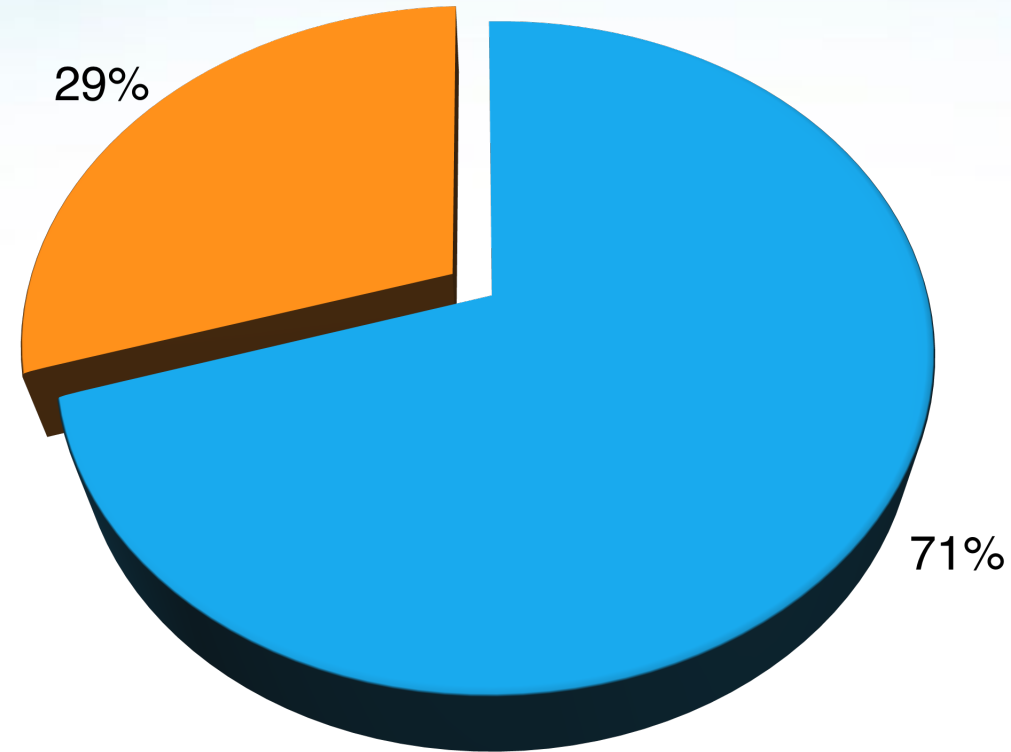

# Current heart txp/MCS caseload

# Time for lung txp psychosocial eval

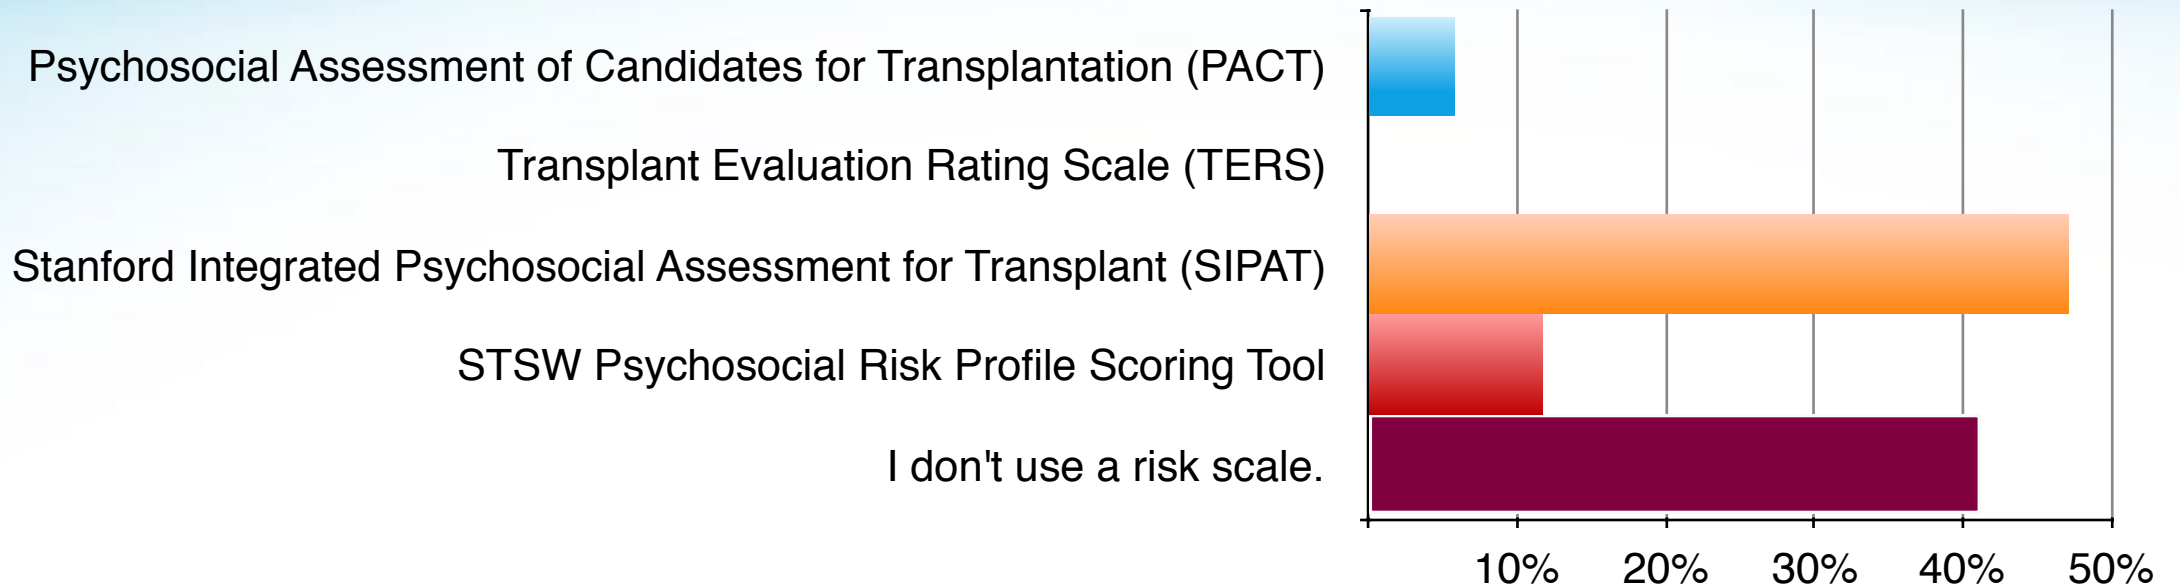

# When lung txp psychosocial eval is done

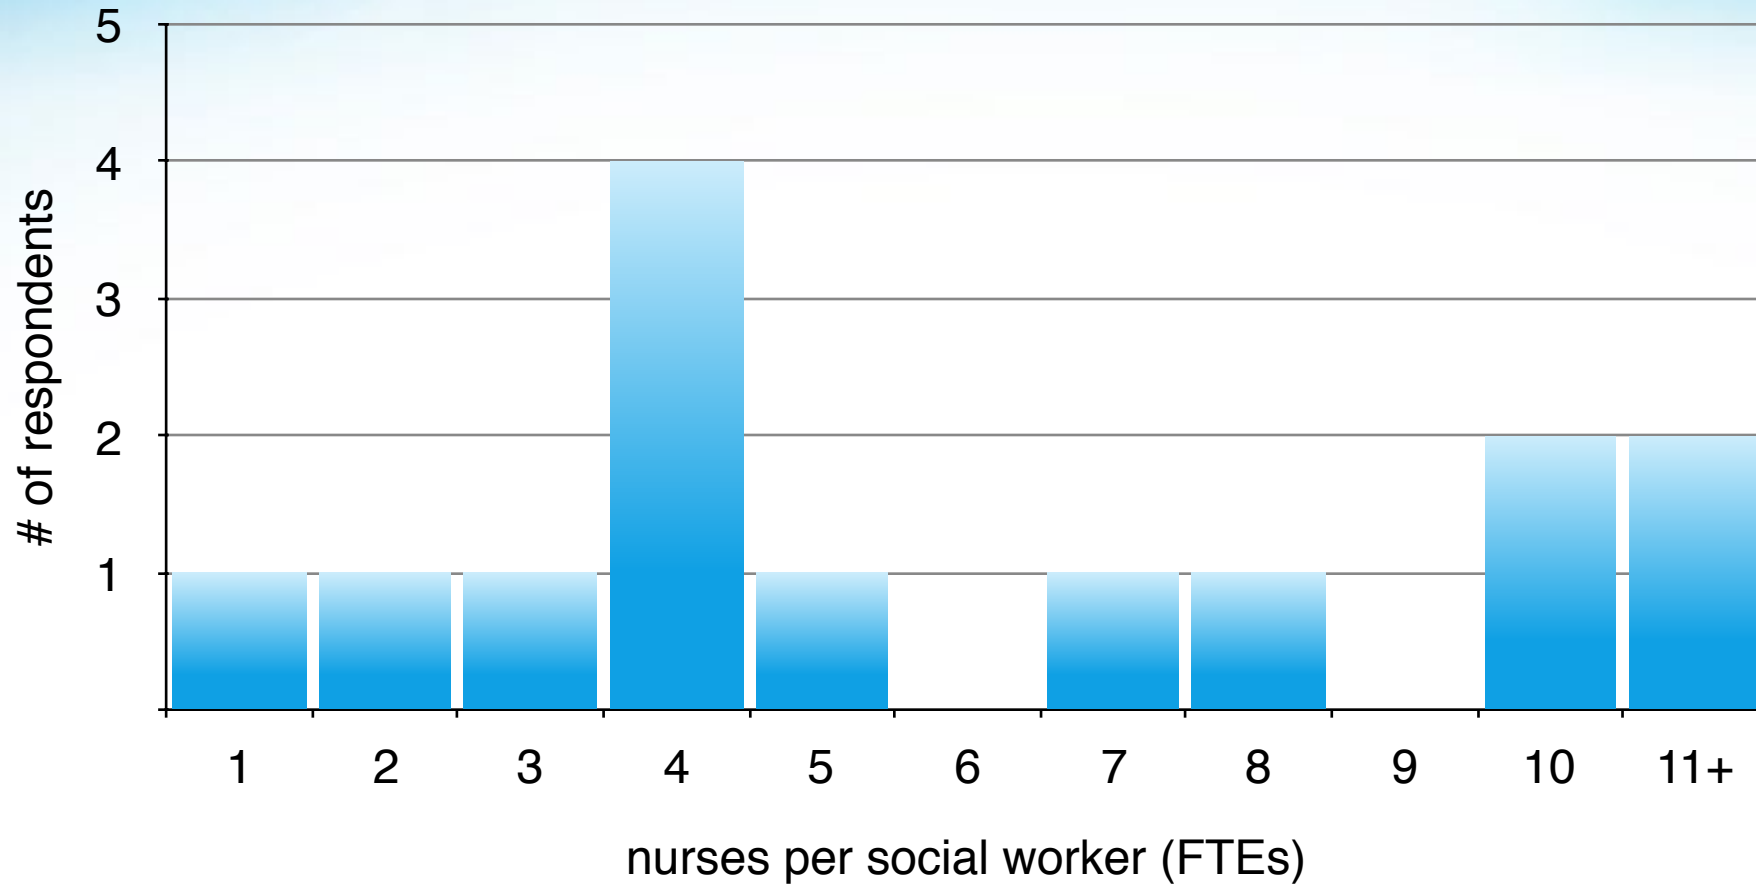

- Toward the beginning, before a medical determination is made.
- Toward the end, after a medical determination is made.
- It varies.

# Risk scales used in lung txp

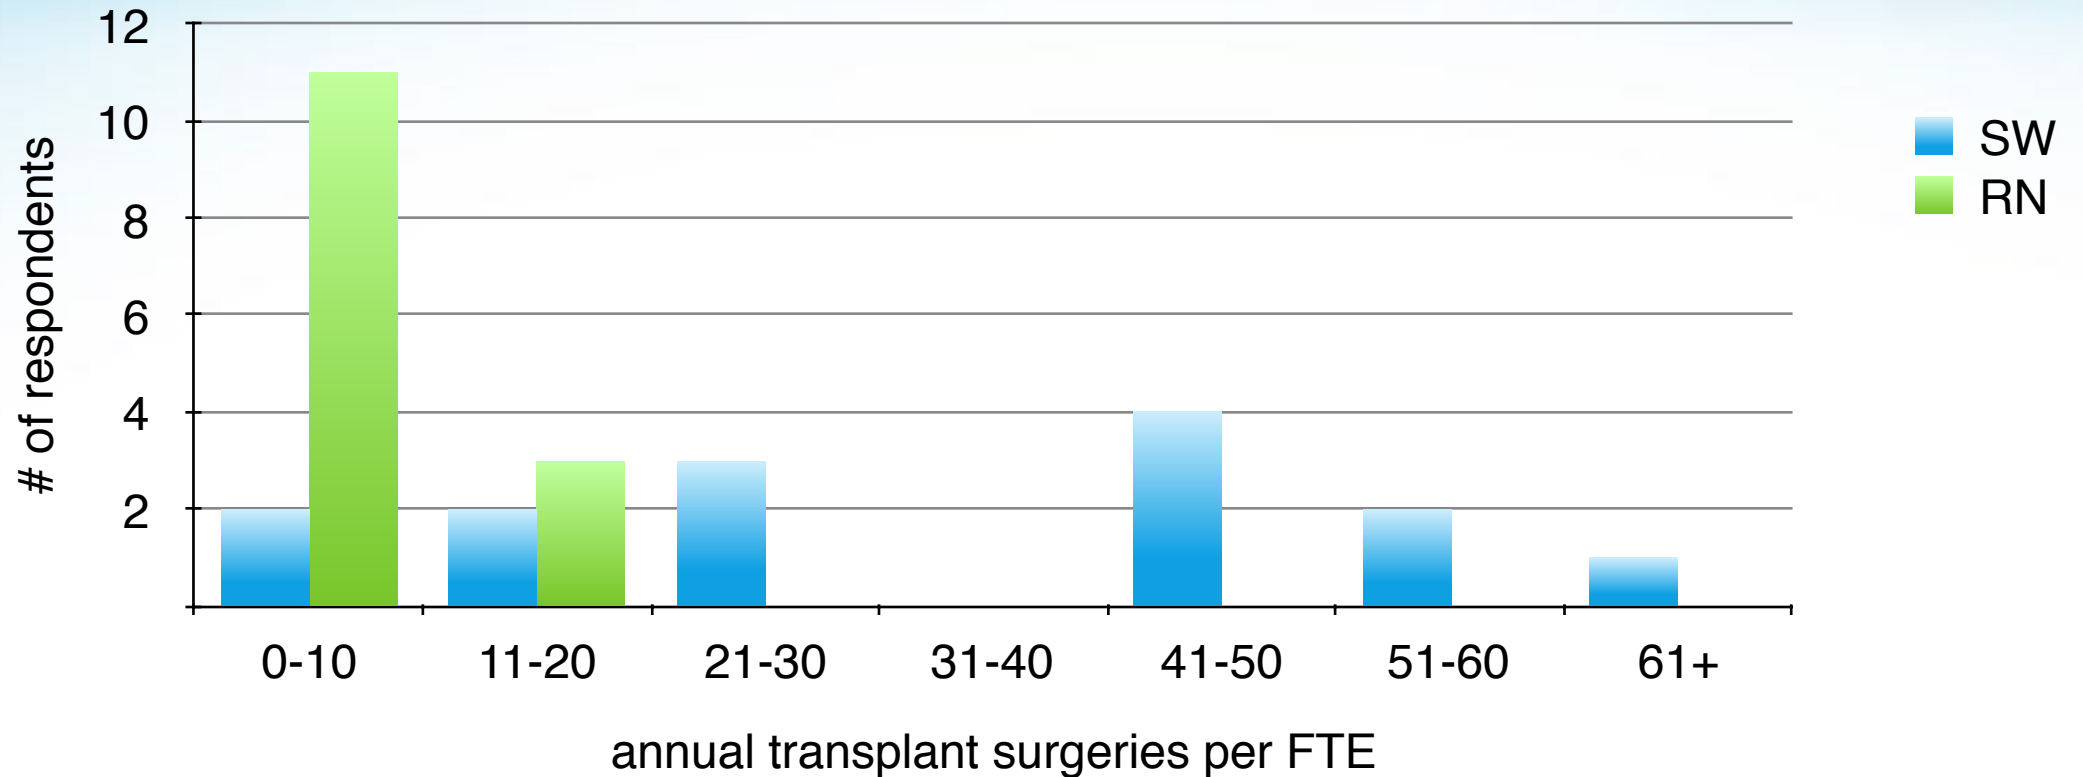

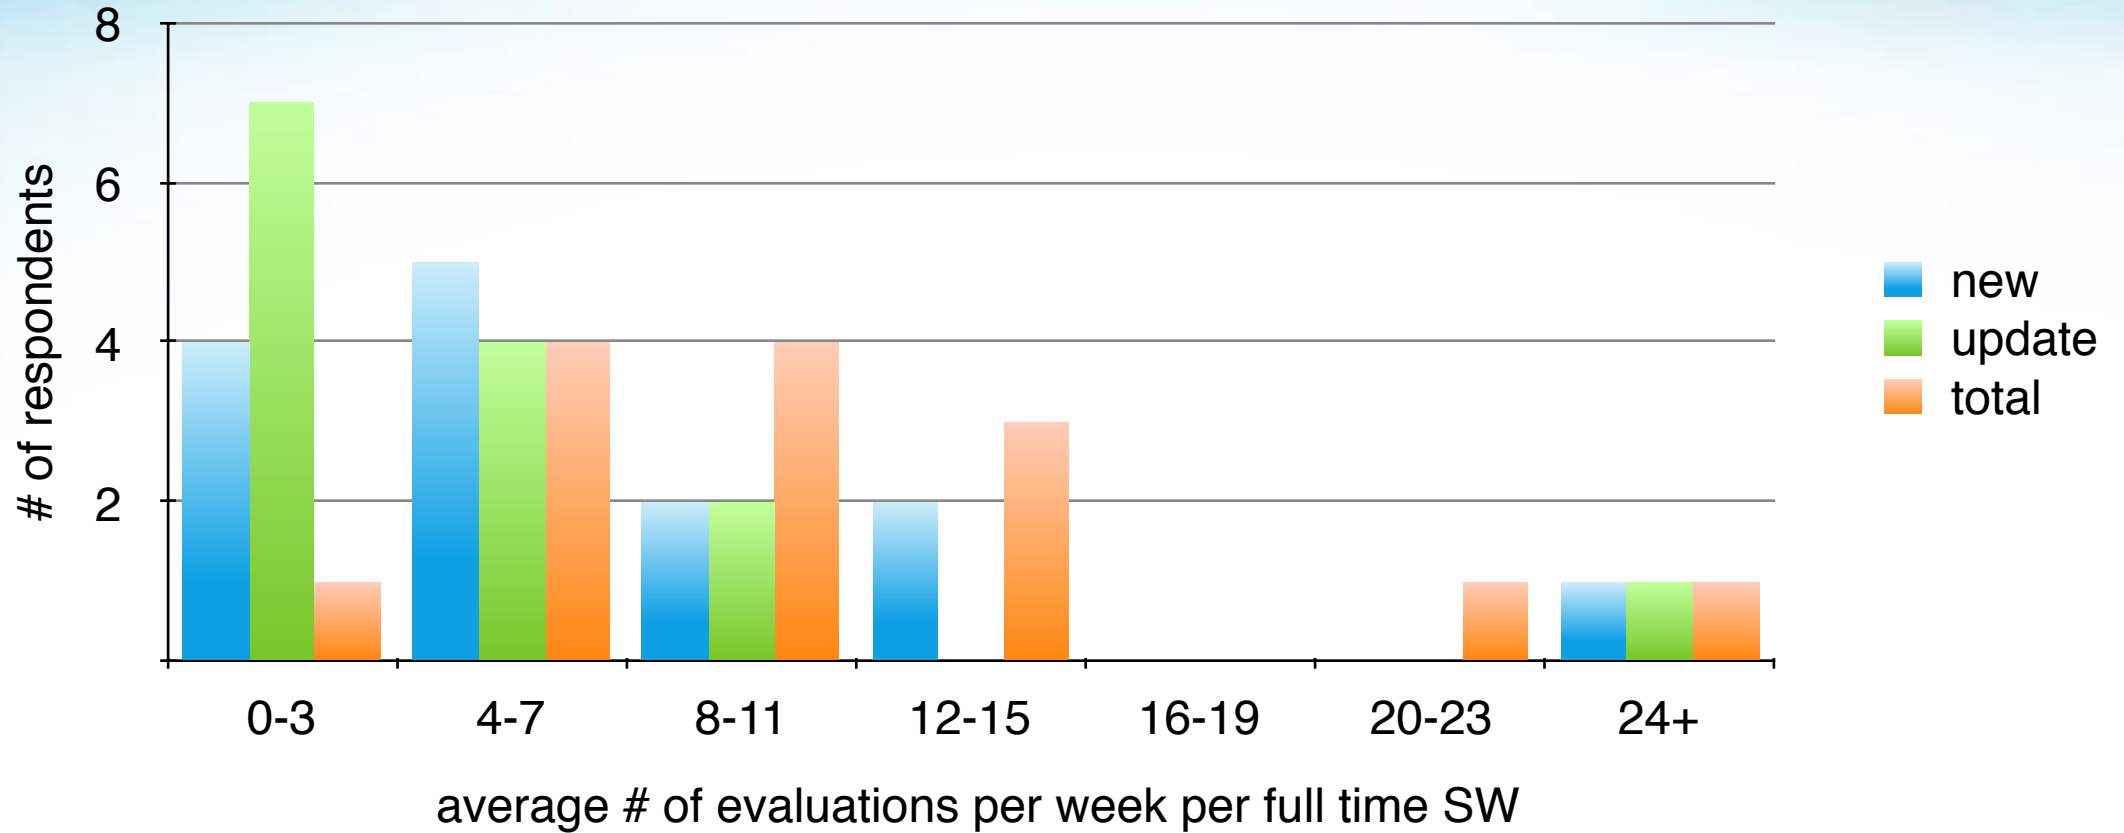

# Lung txp staffing, RN:SW

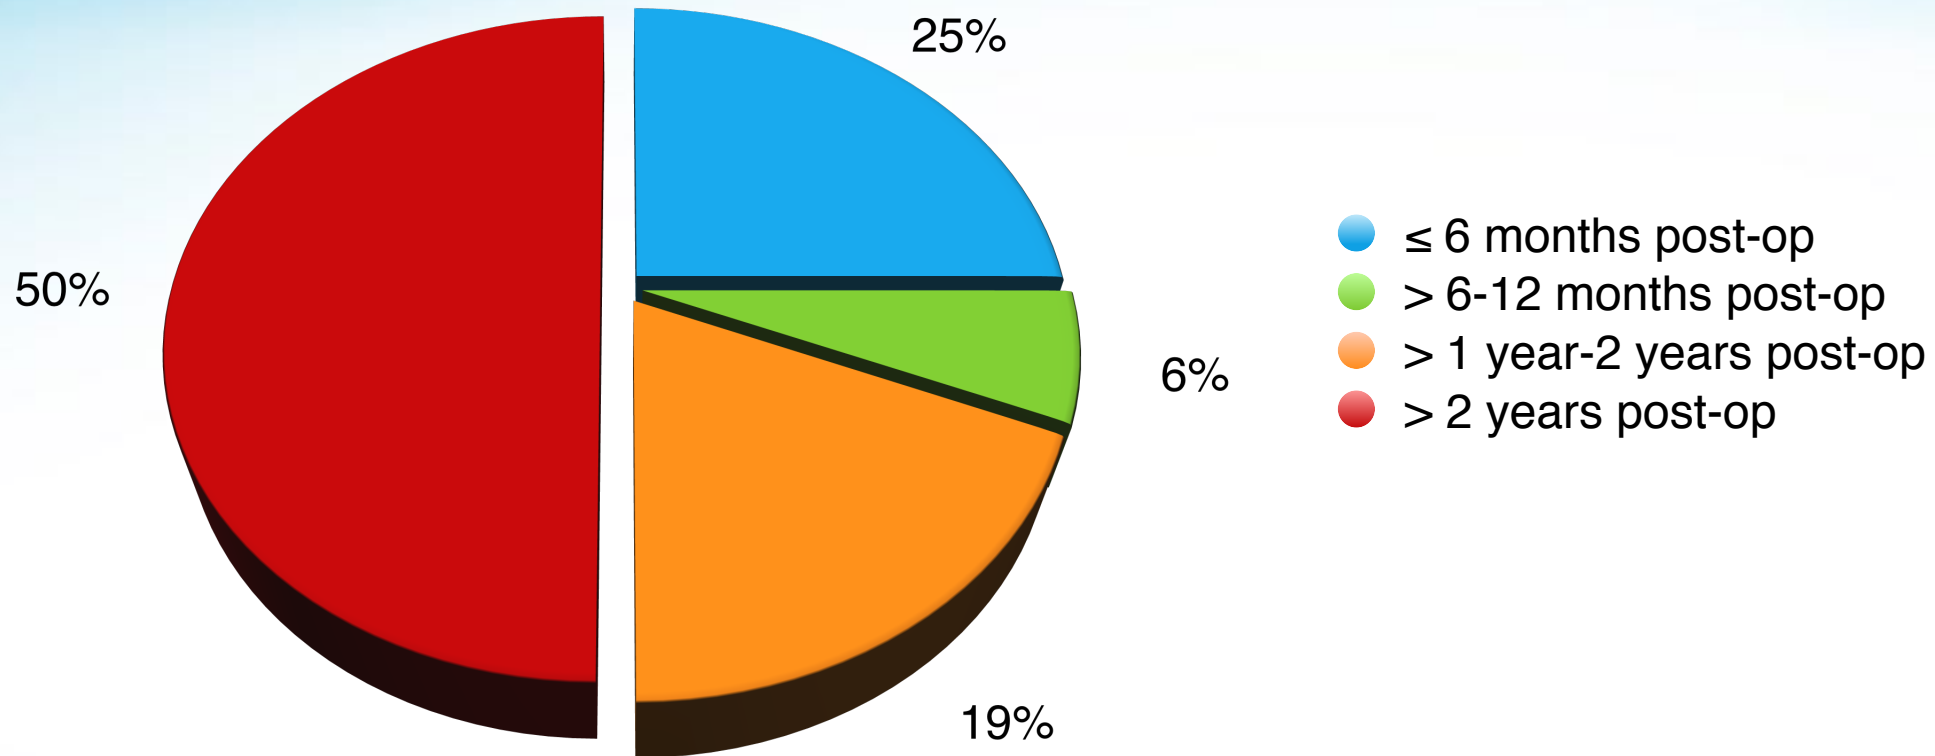

# Lung staffing by txp volume

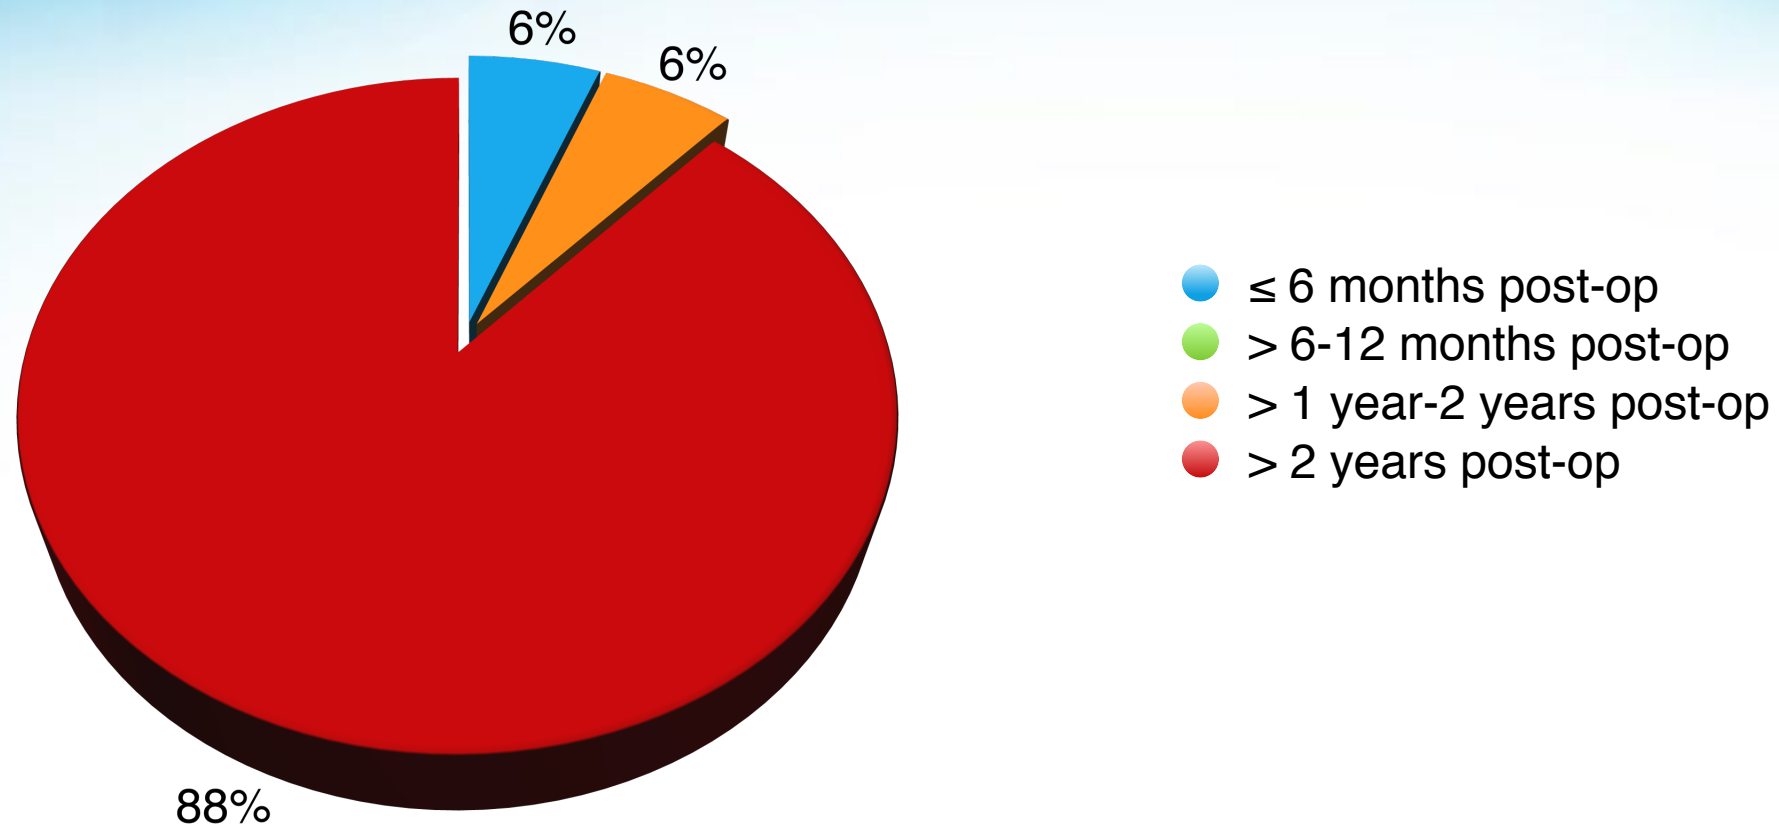

# Lung txp evaluations per week

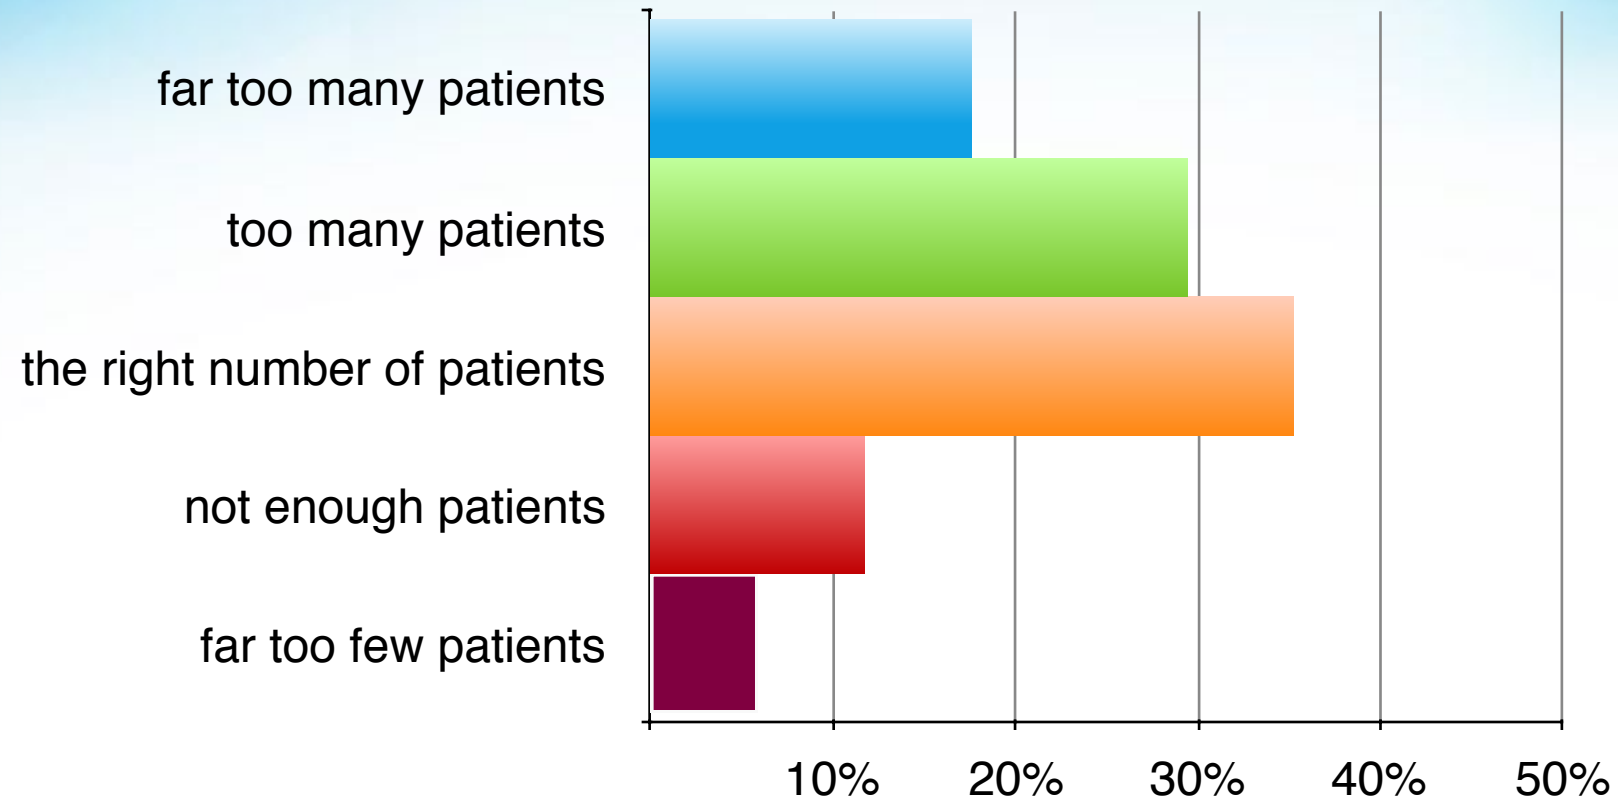

# How long lung txp SW follows inpatients

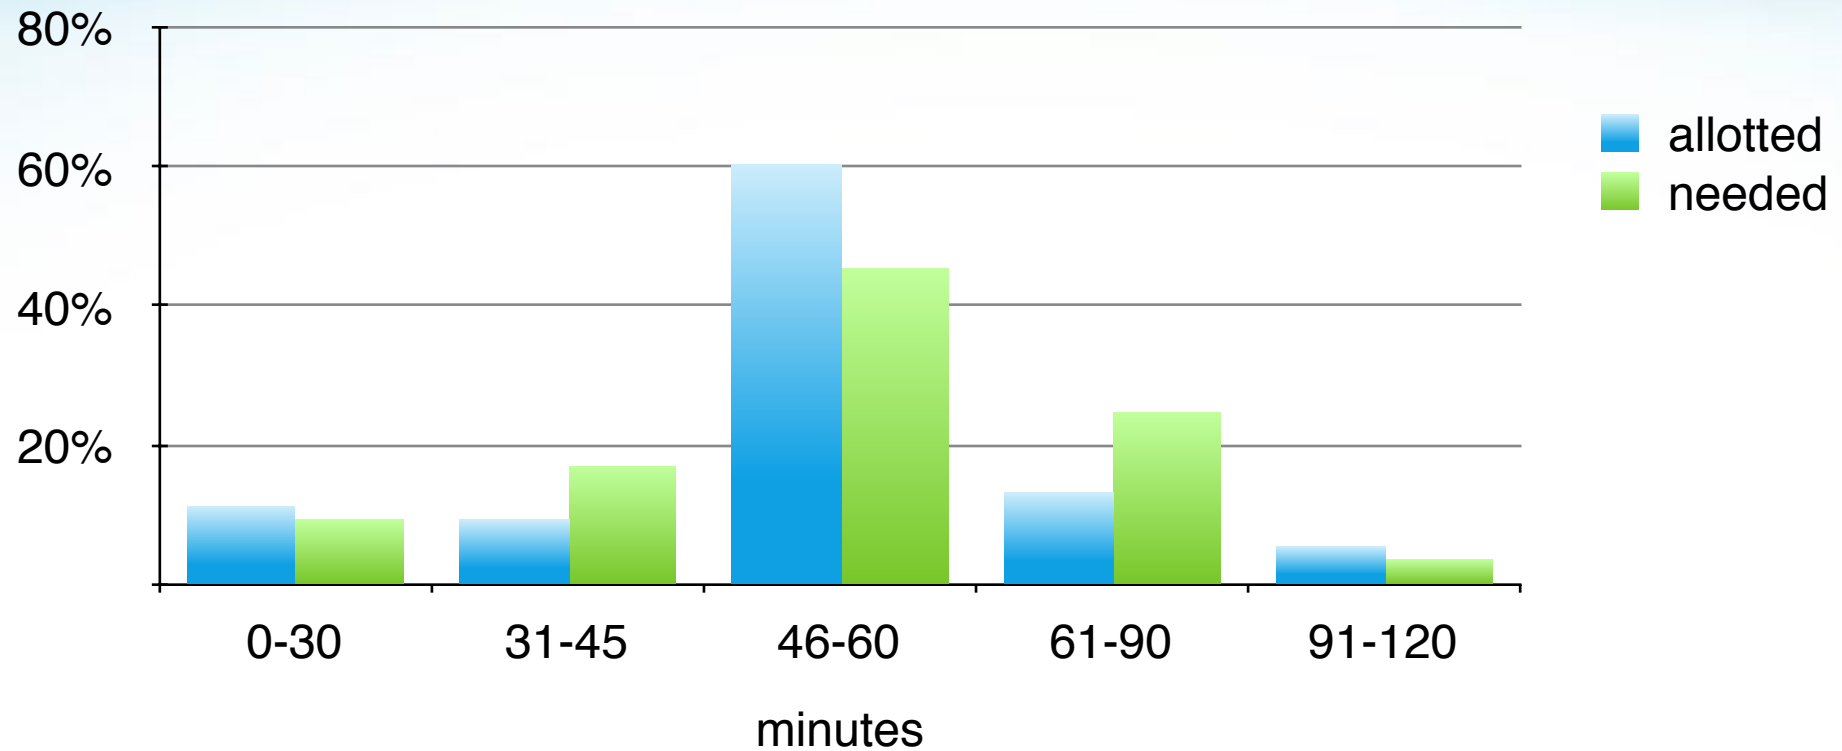

# How long lung txp SW follows outpatients

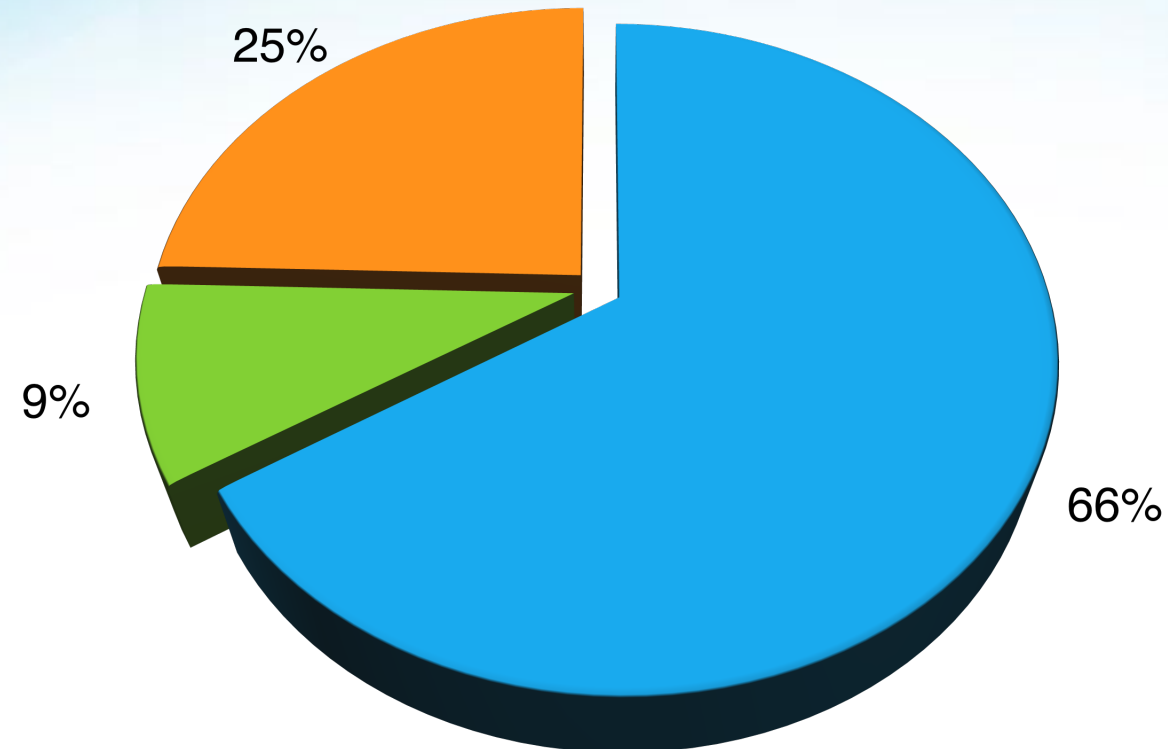

# Current lung txp caseload

# Time for living donor psychosocial eval

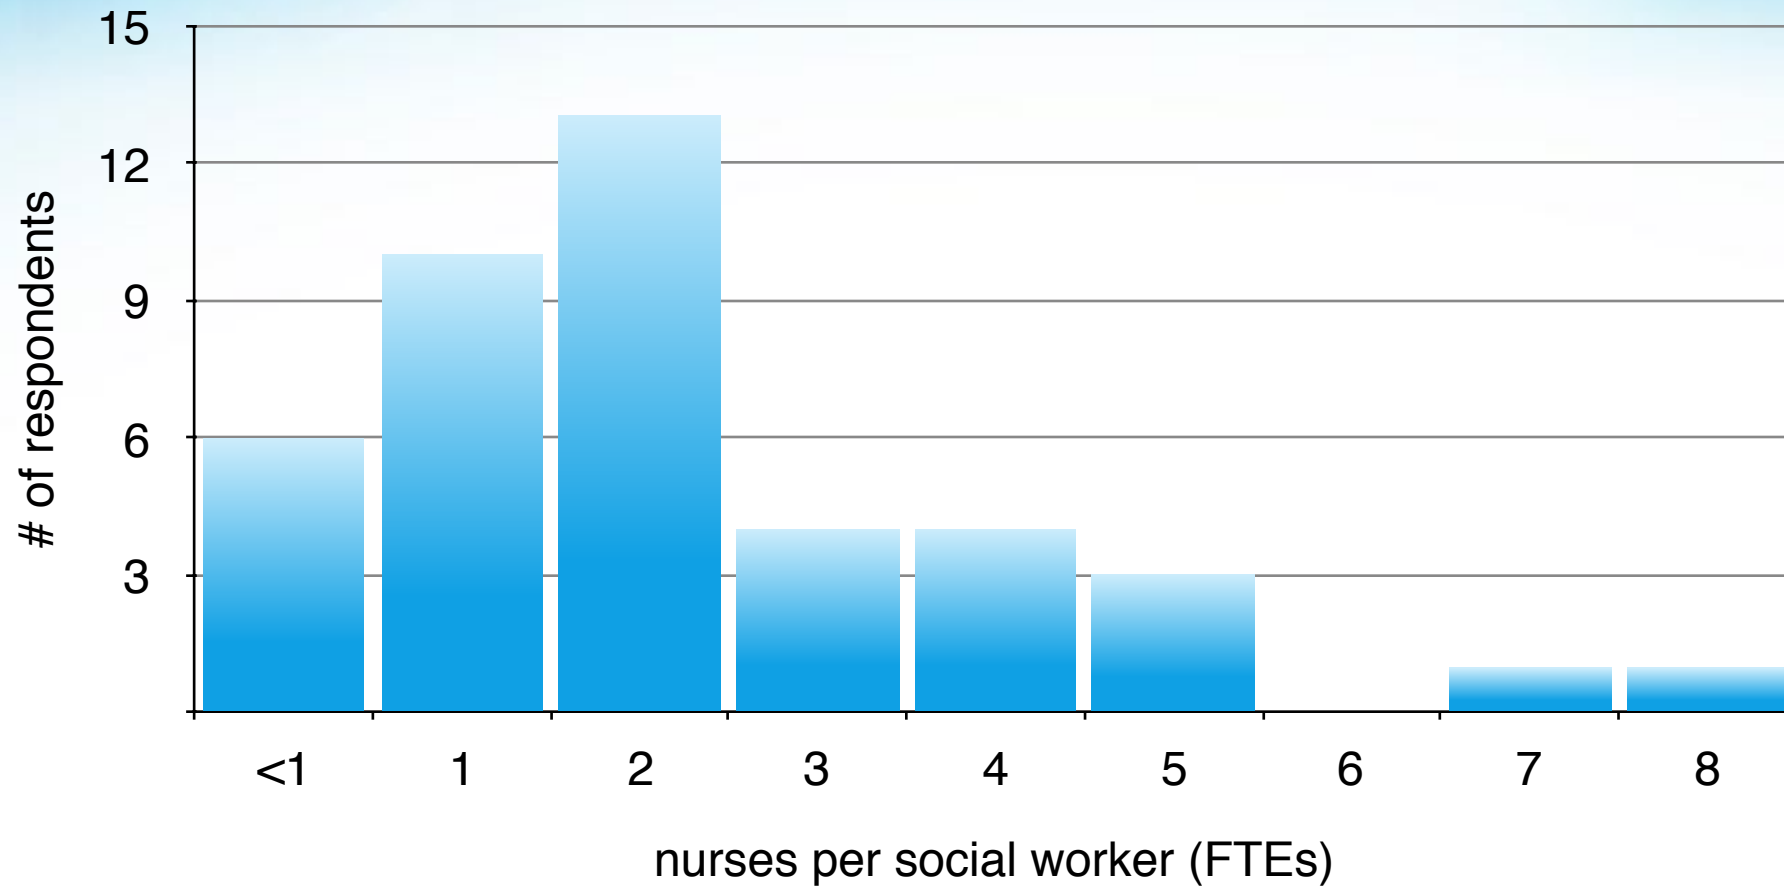

# When living donor psychosocial eval is done

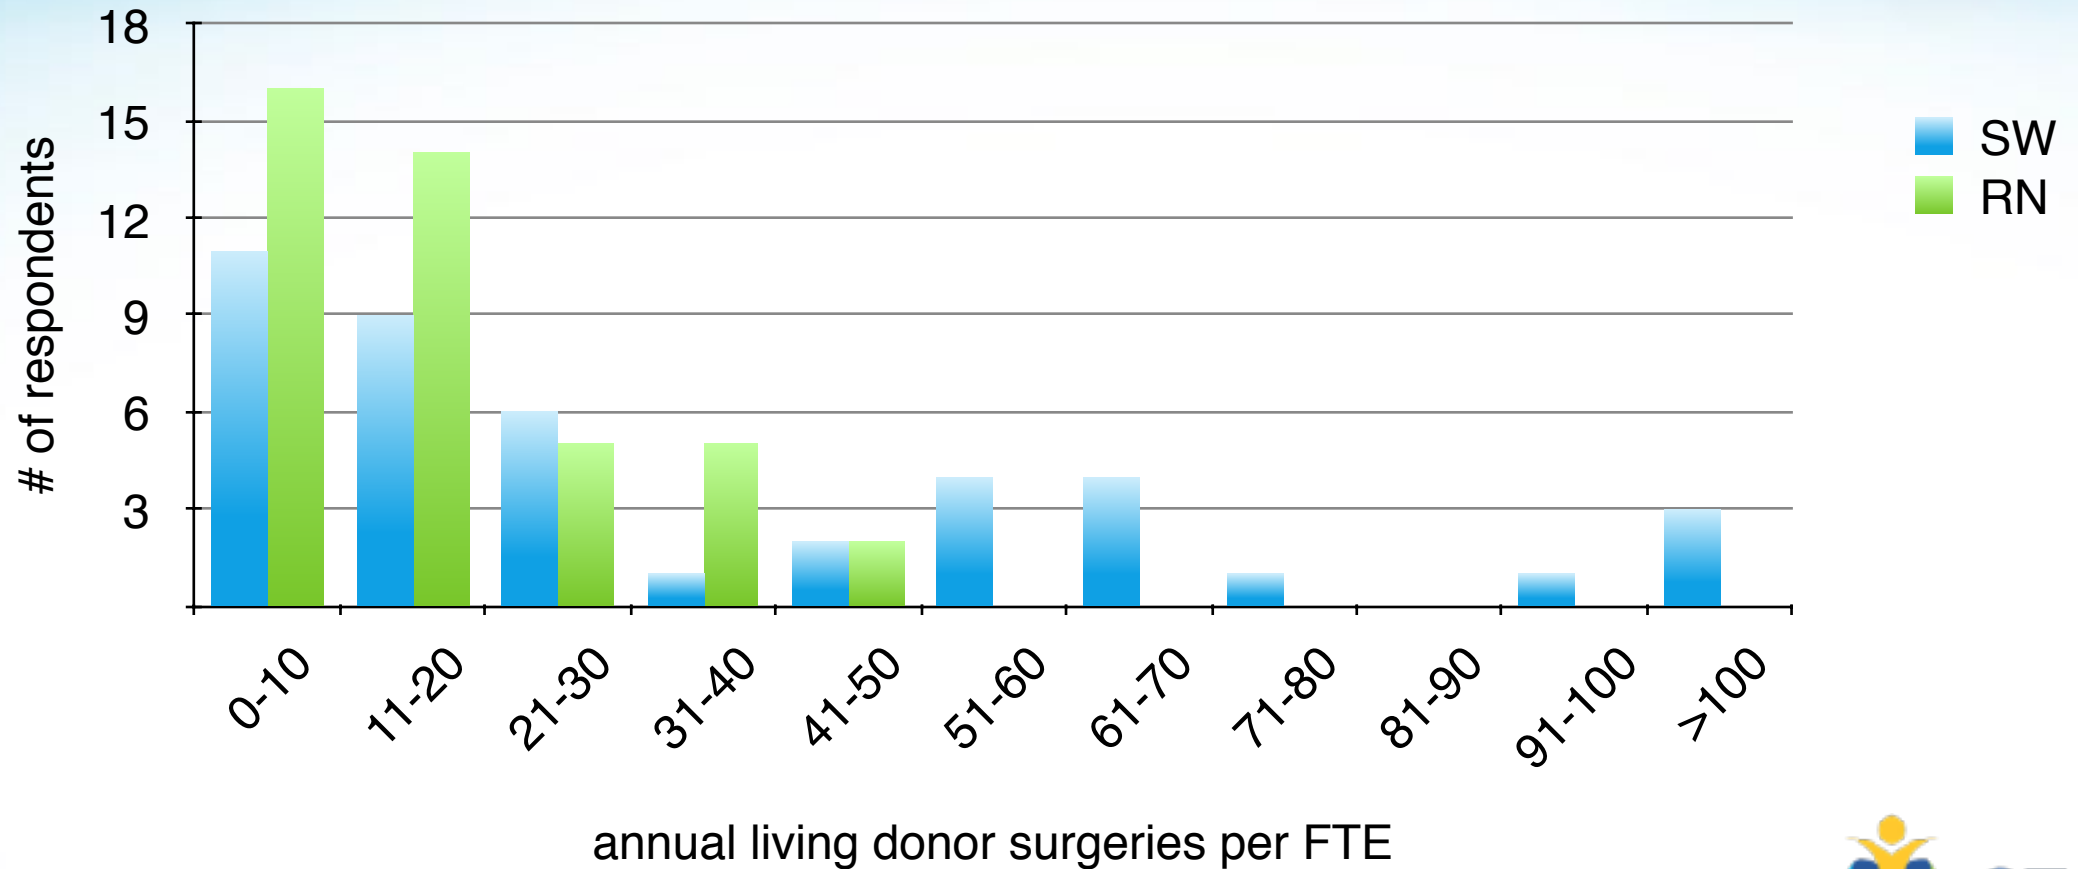

- Toward the beginning, before a medical determination is made.
- Toward the end, after a medical determination is made.
- It varies.

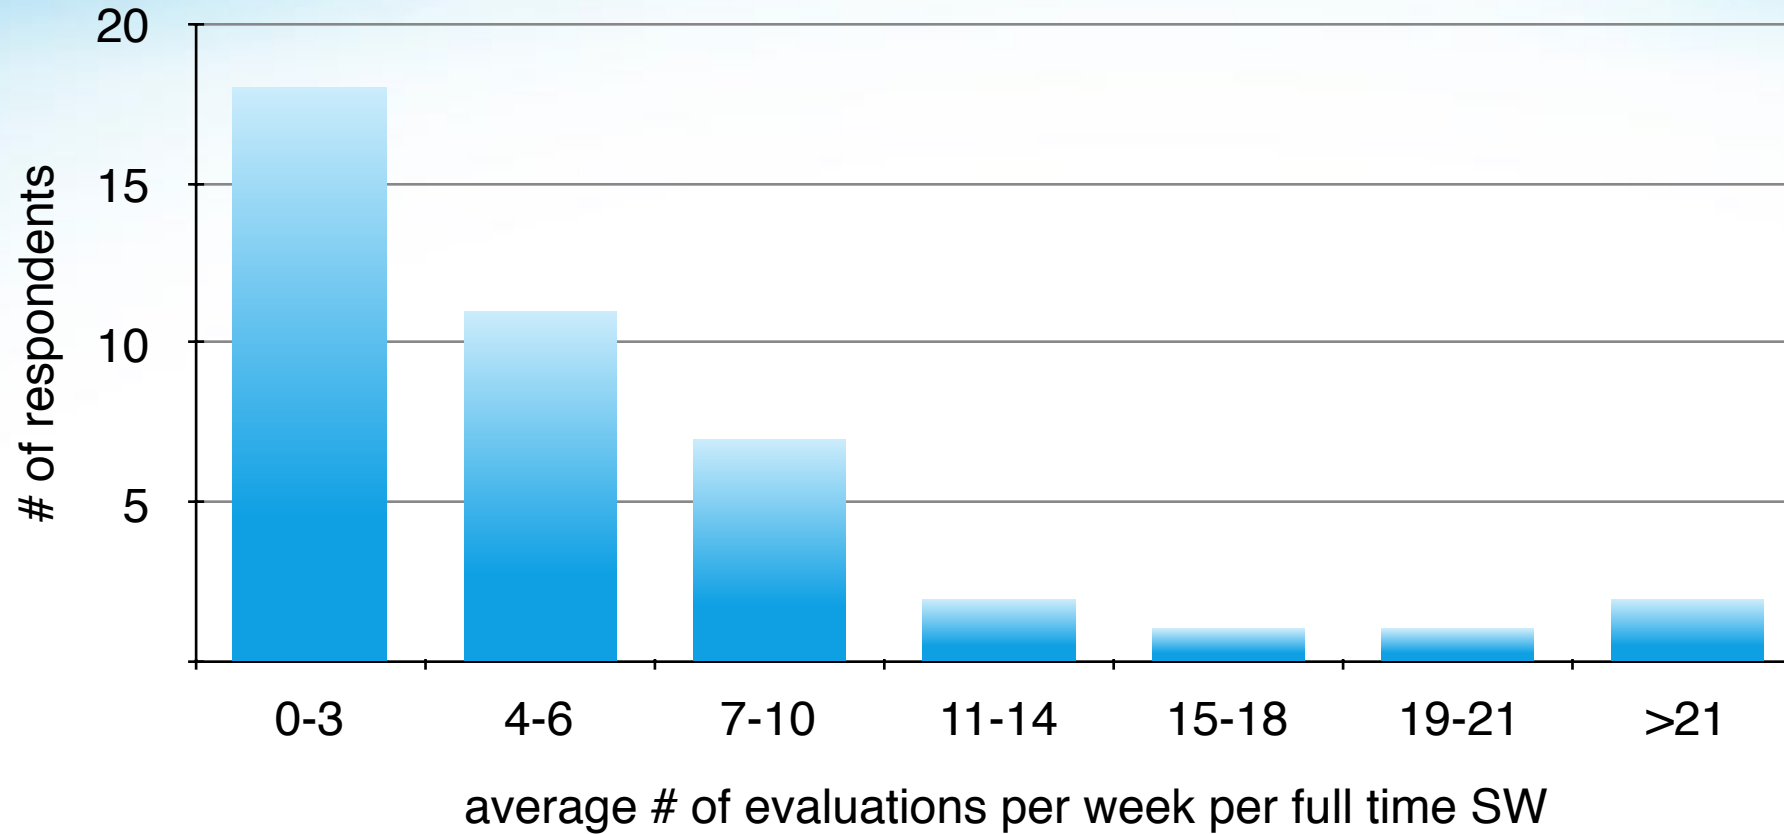

# Living donor staffing, RN:SW

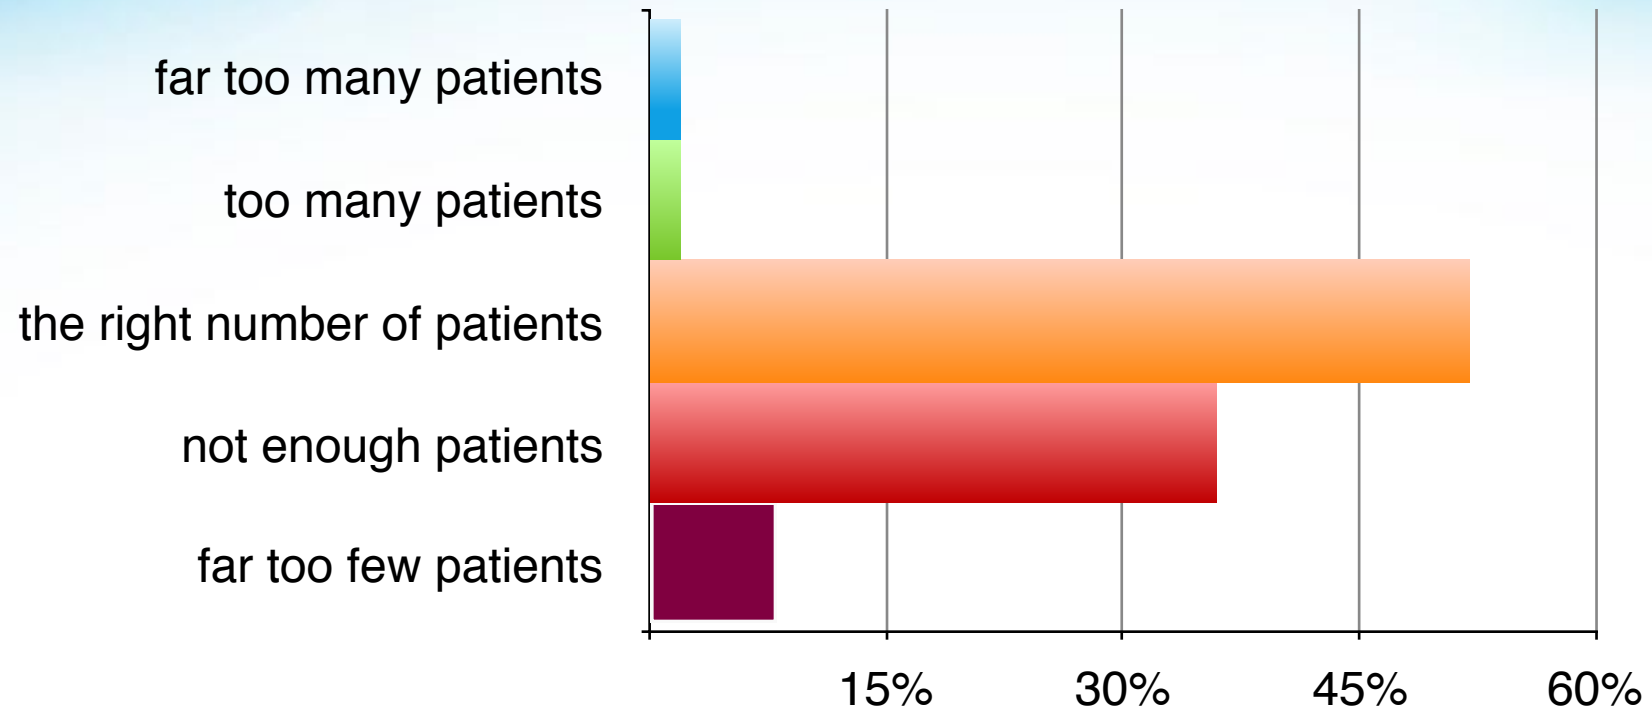

# Living donor staffing by volume

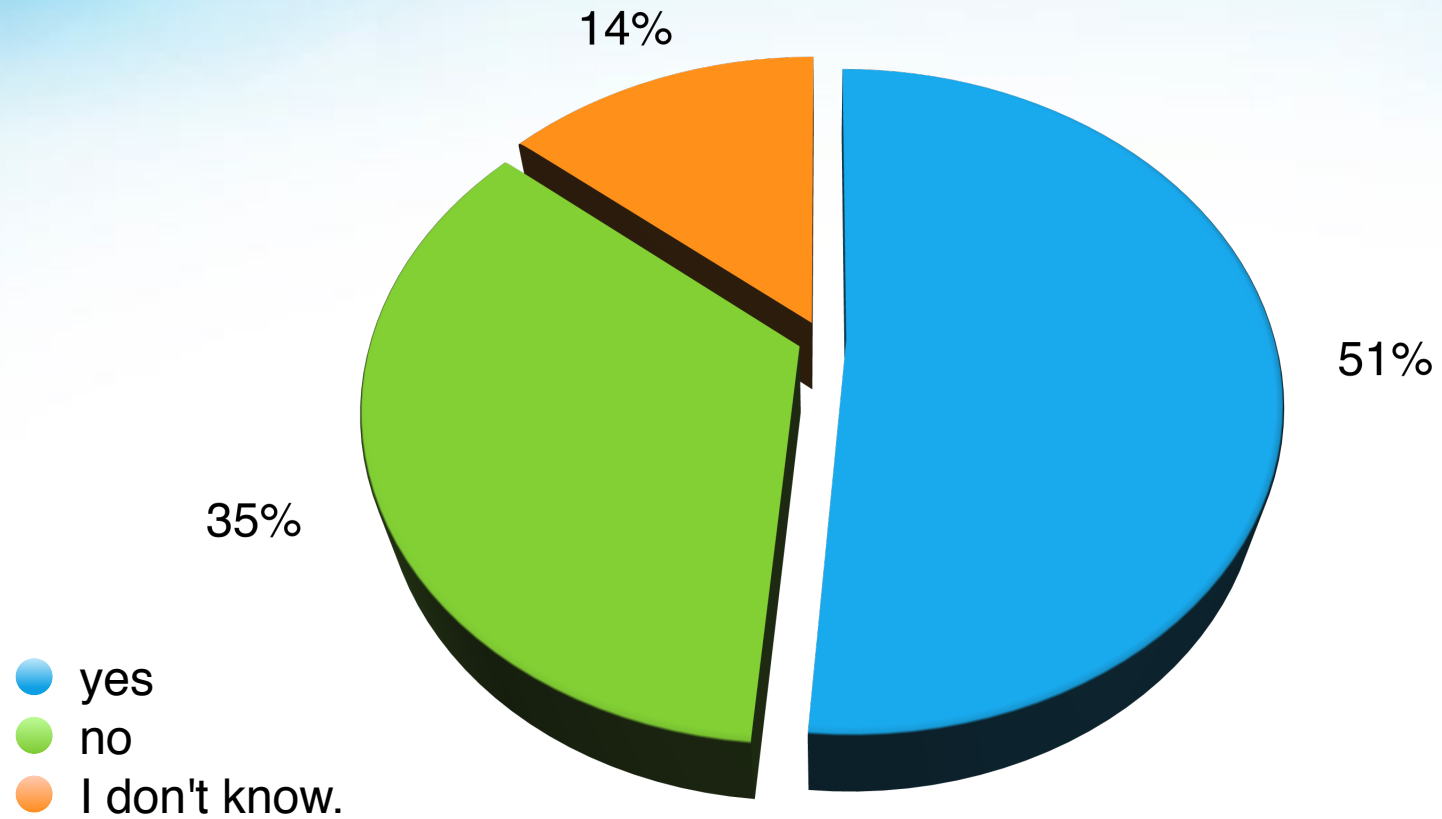

# Living donor evaluations per week

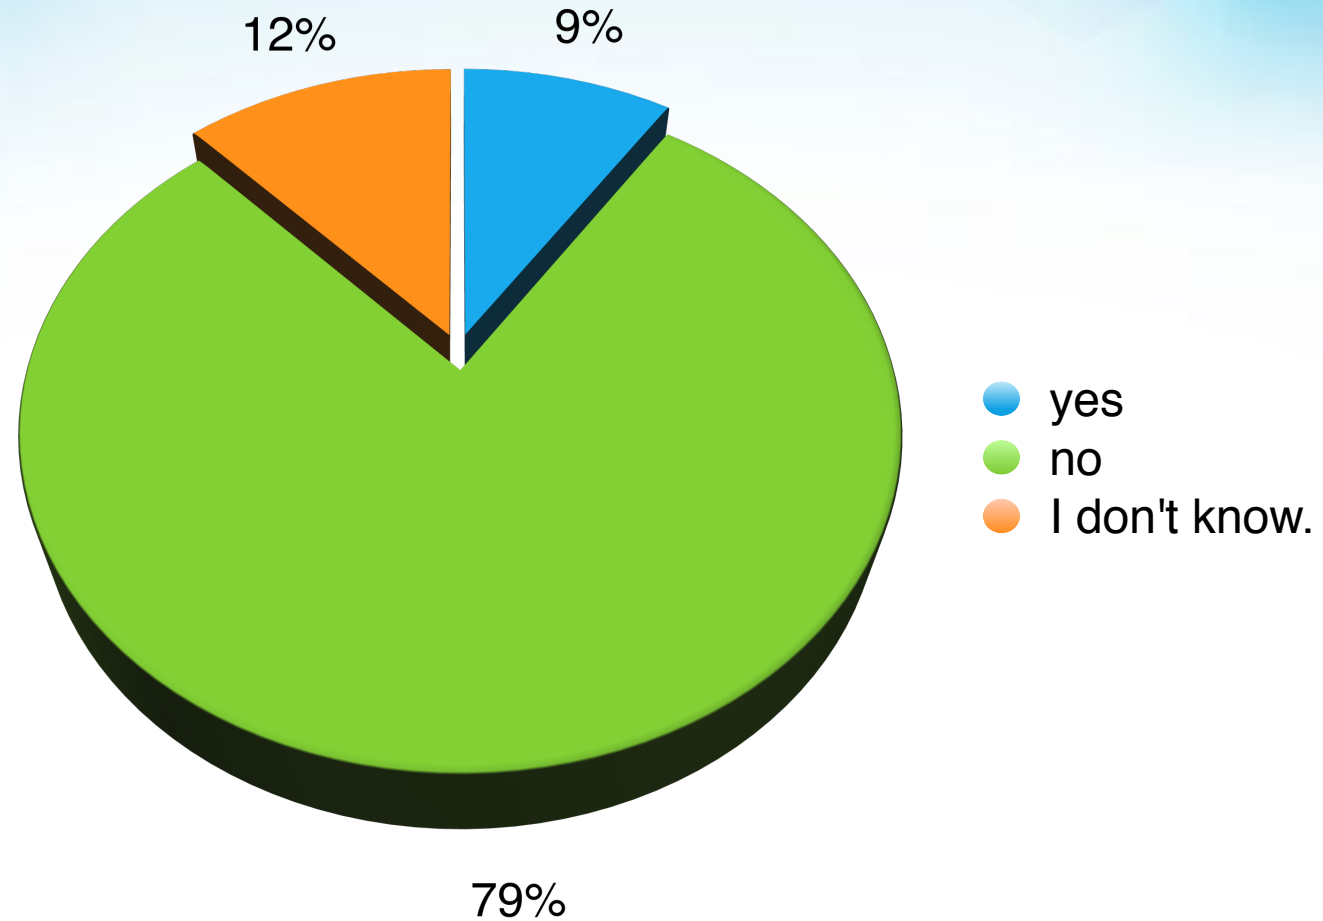

# Current living donor caseload

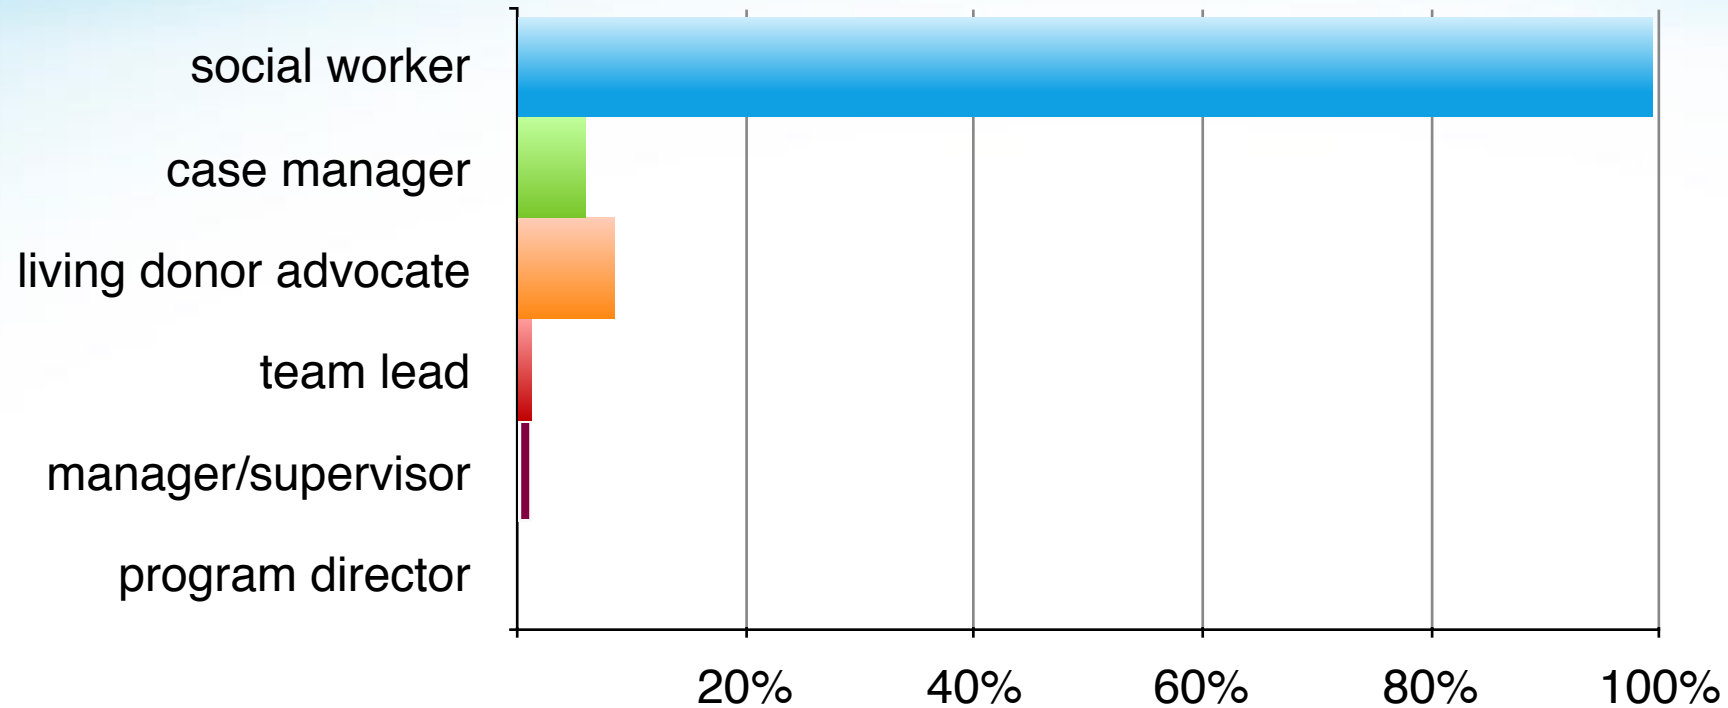

# Productivity tool used?

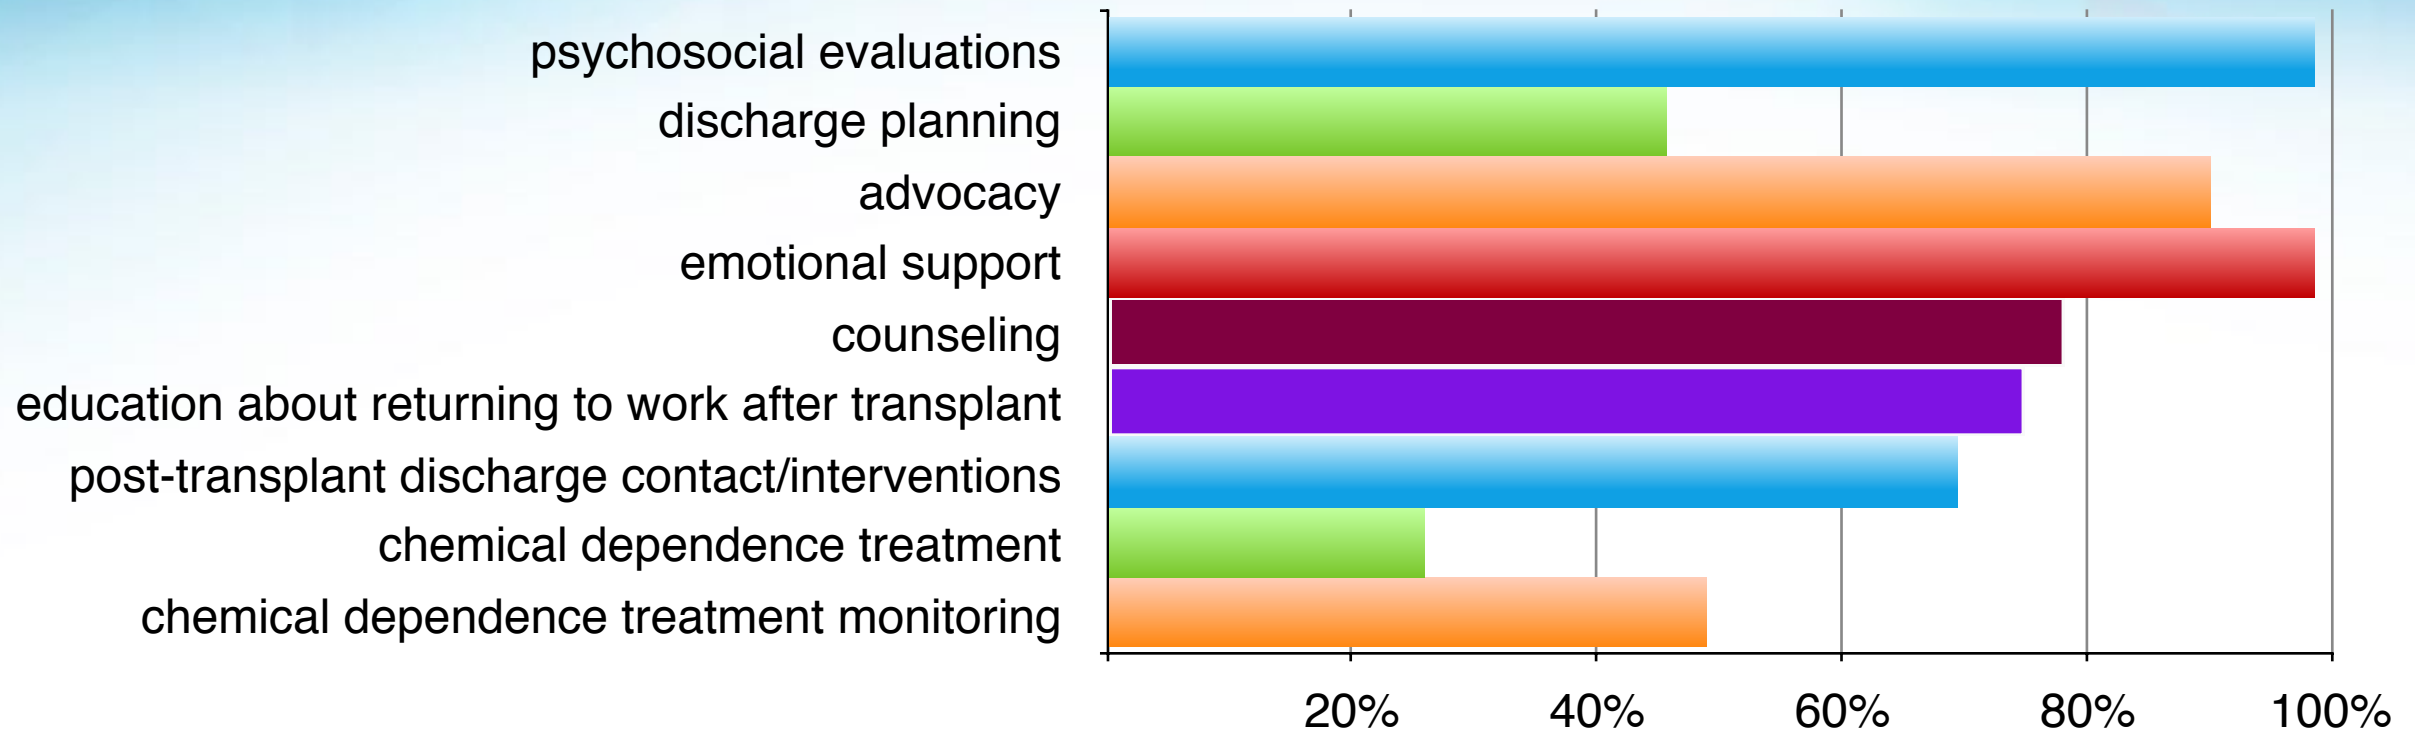

# Do you bill insurance?

# Job titles

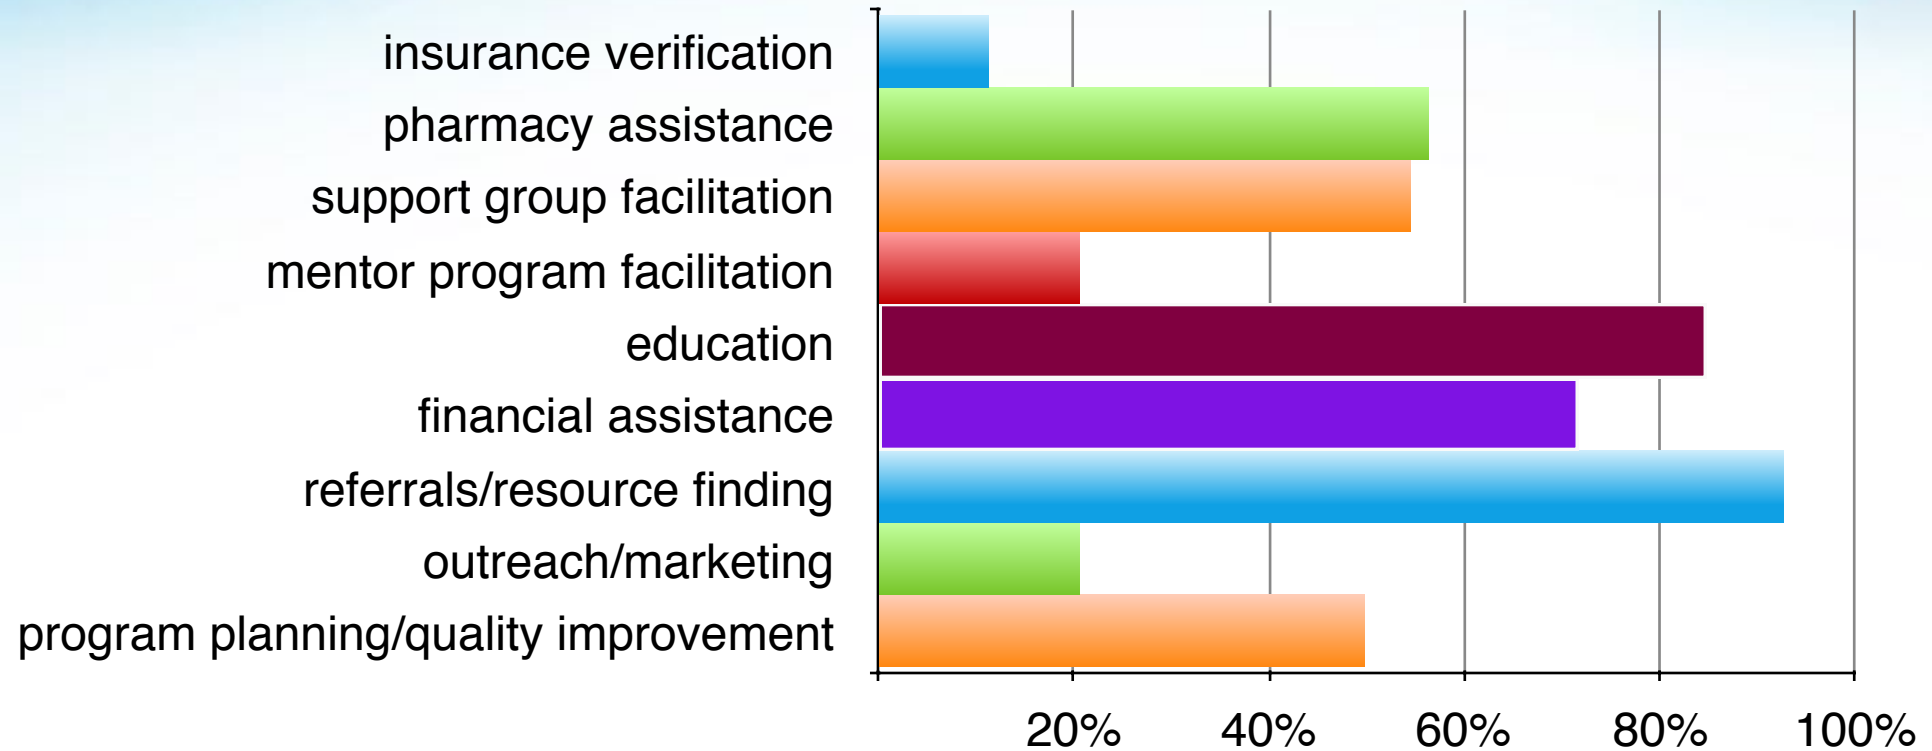

# Job tasks (1 of 3)

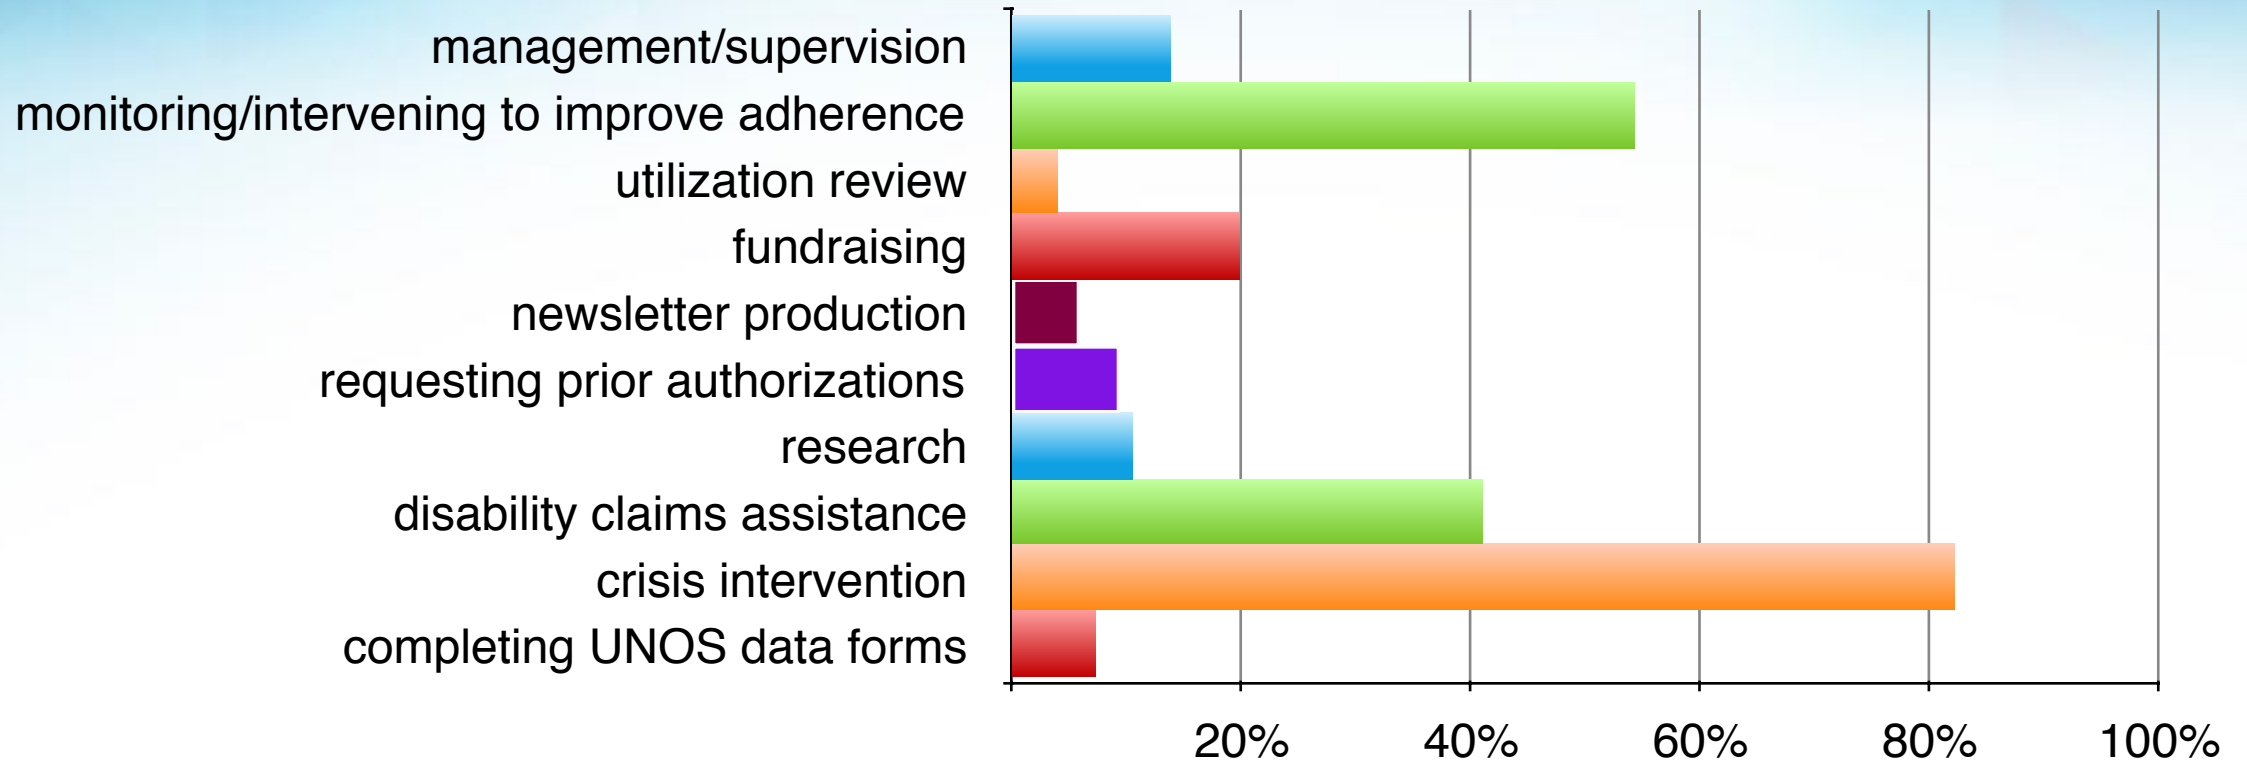

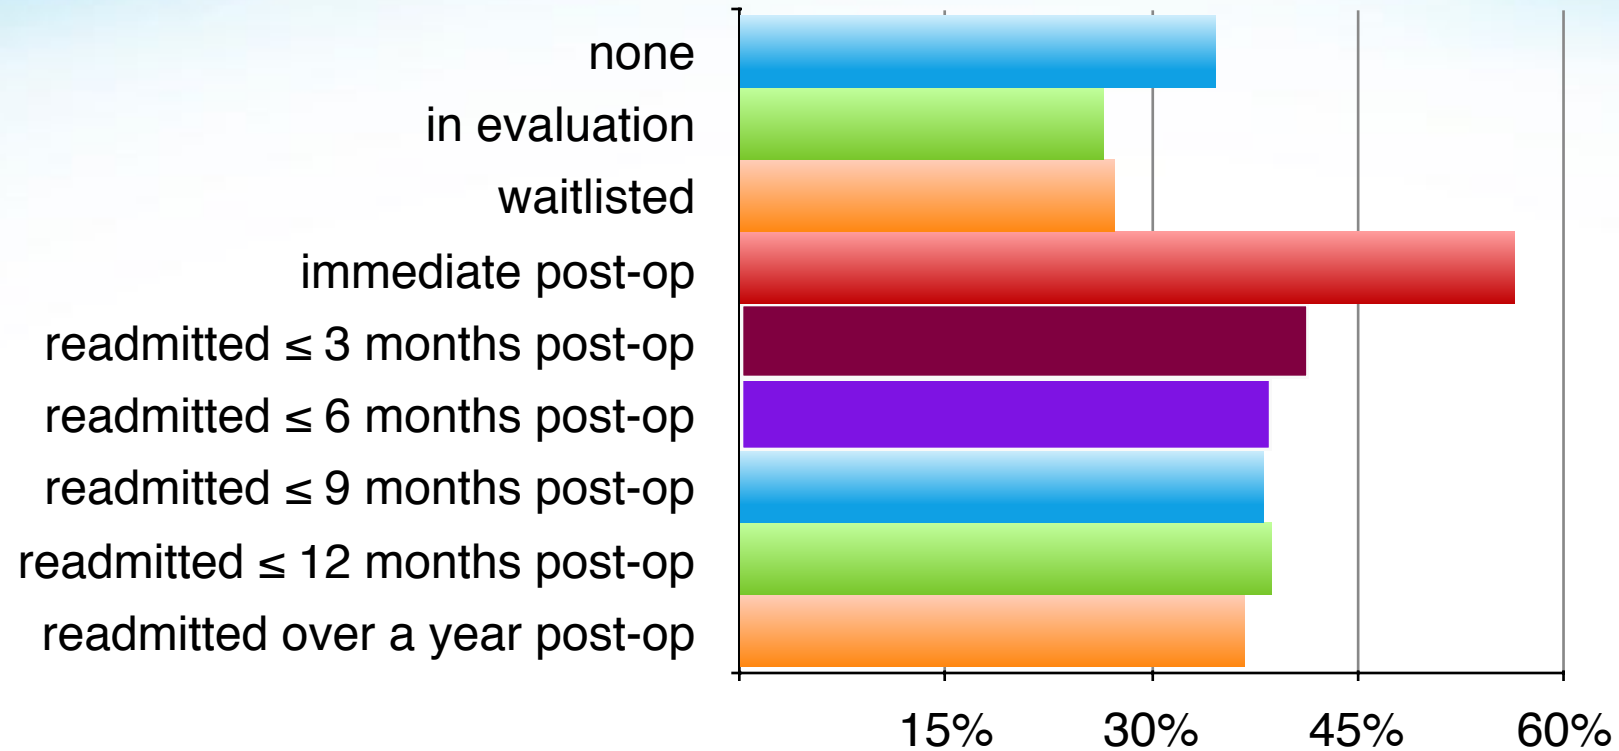

# Job tasks (2 of 3)

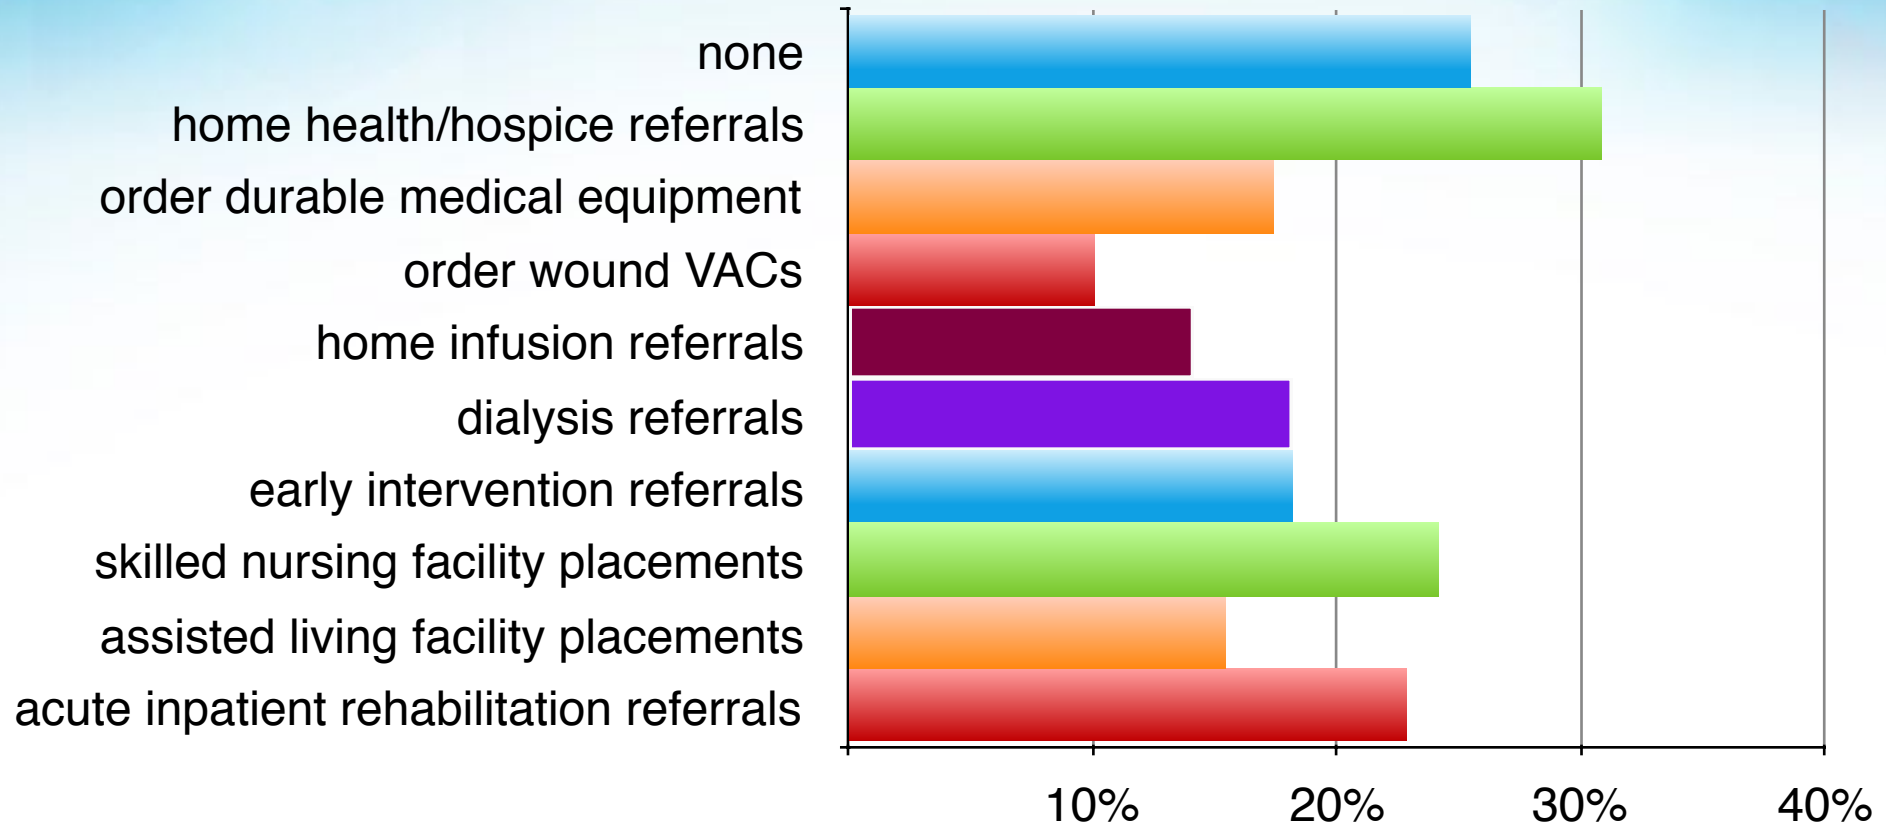

# Job tasks (3 of 3)

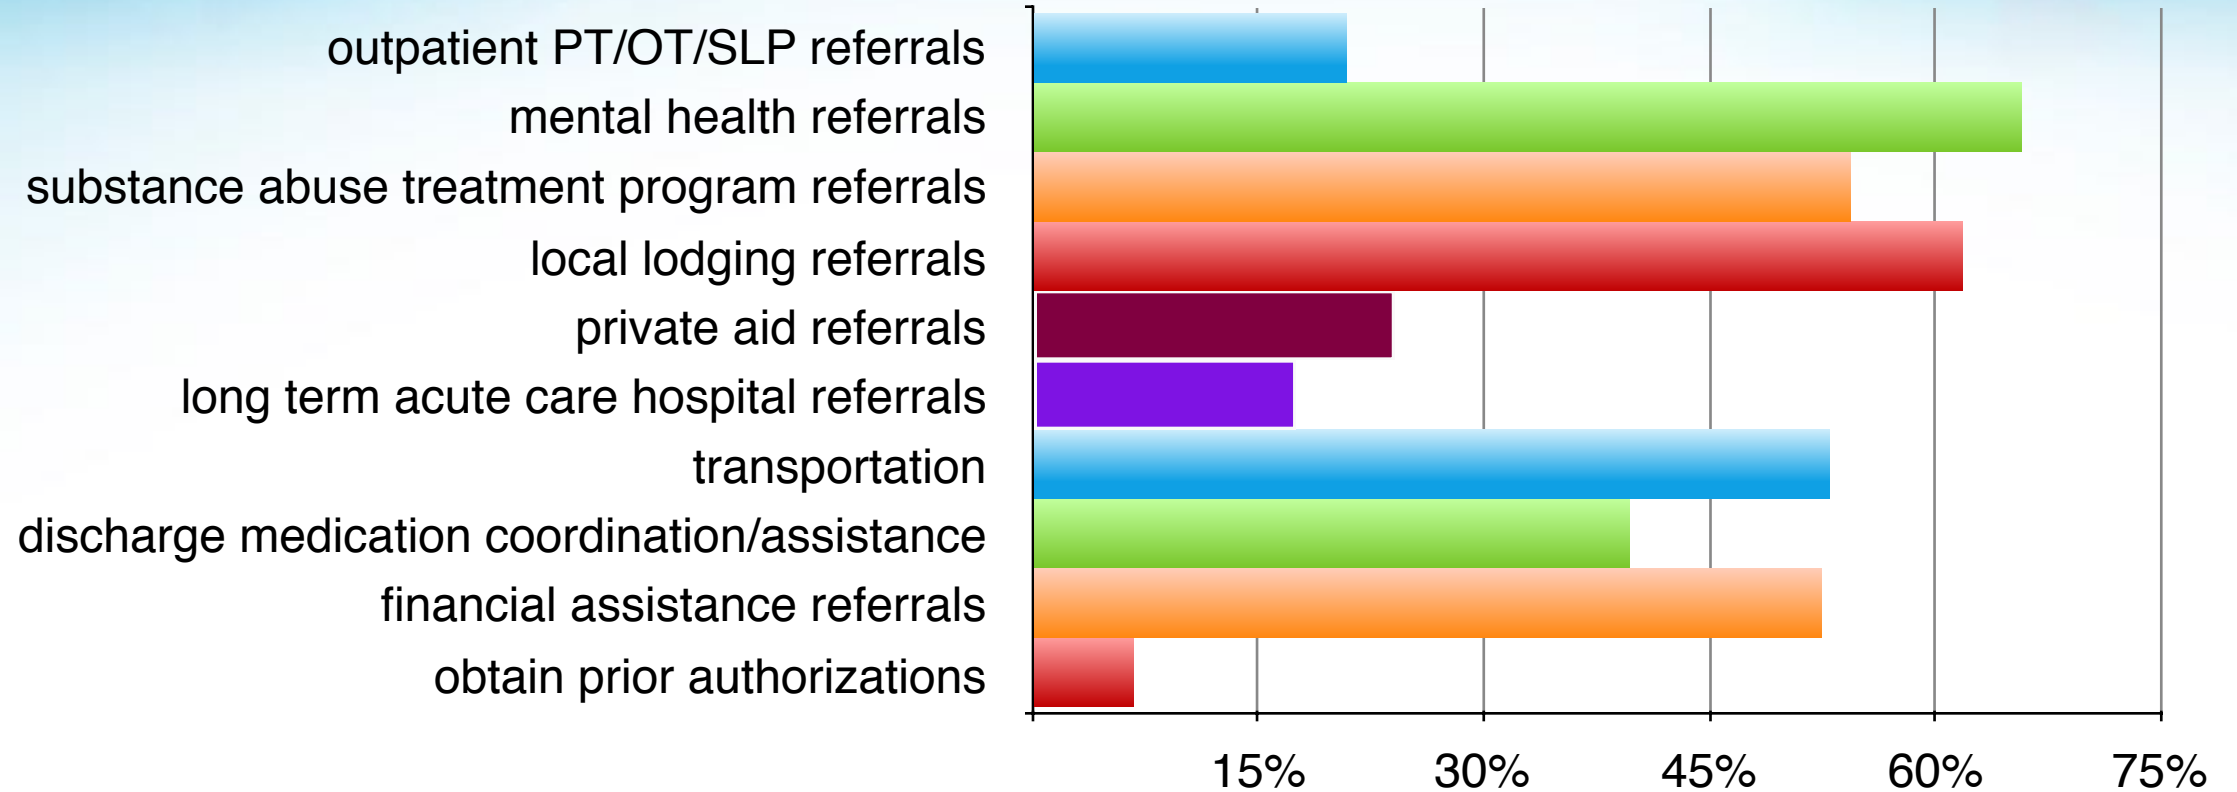

# Patients SW does discharge planning for:

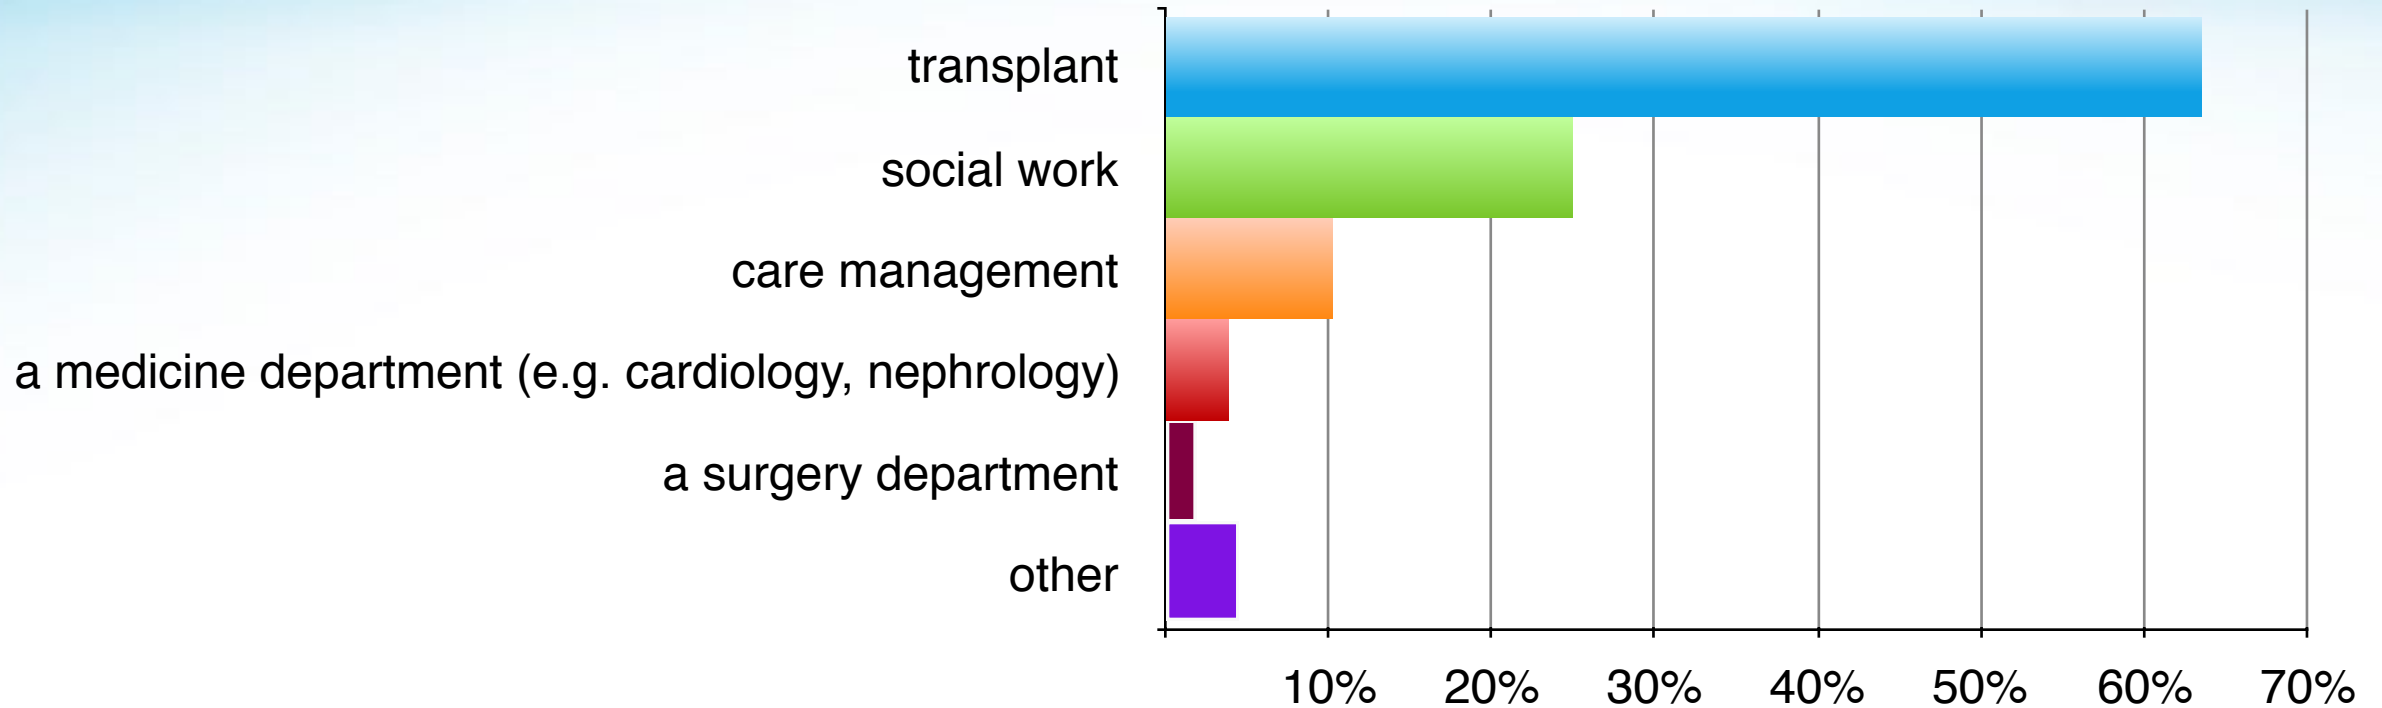

# SW discharge planning tasks (1 of 2)

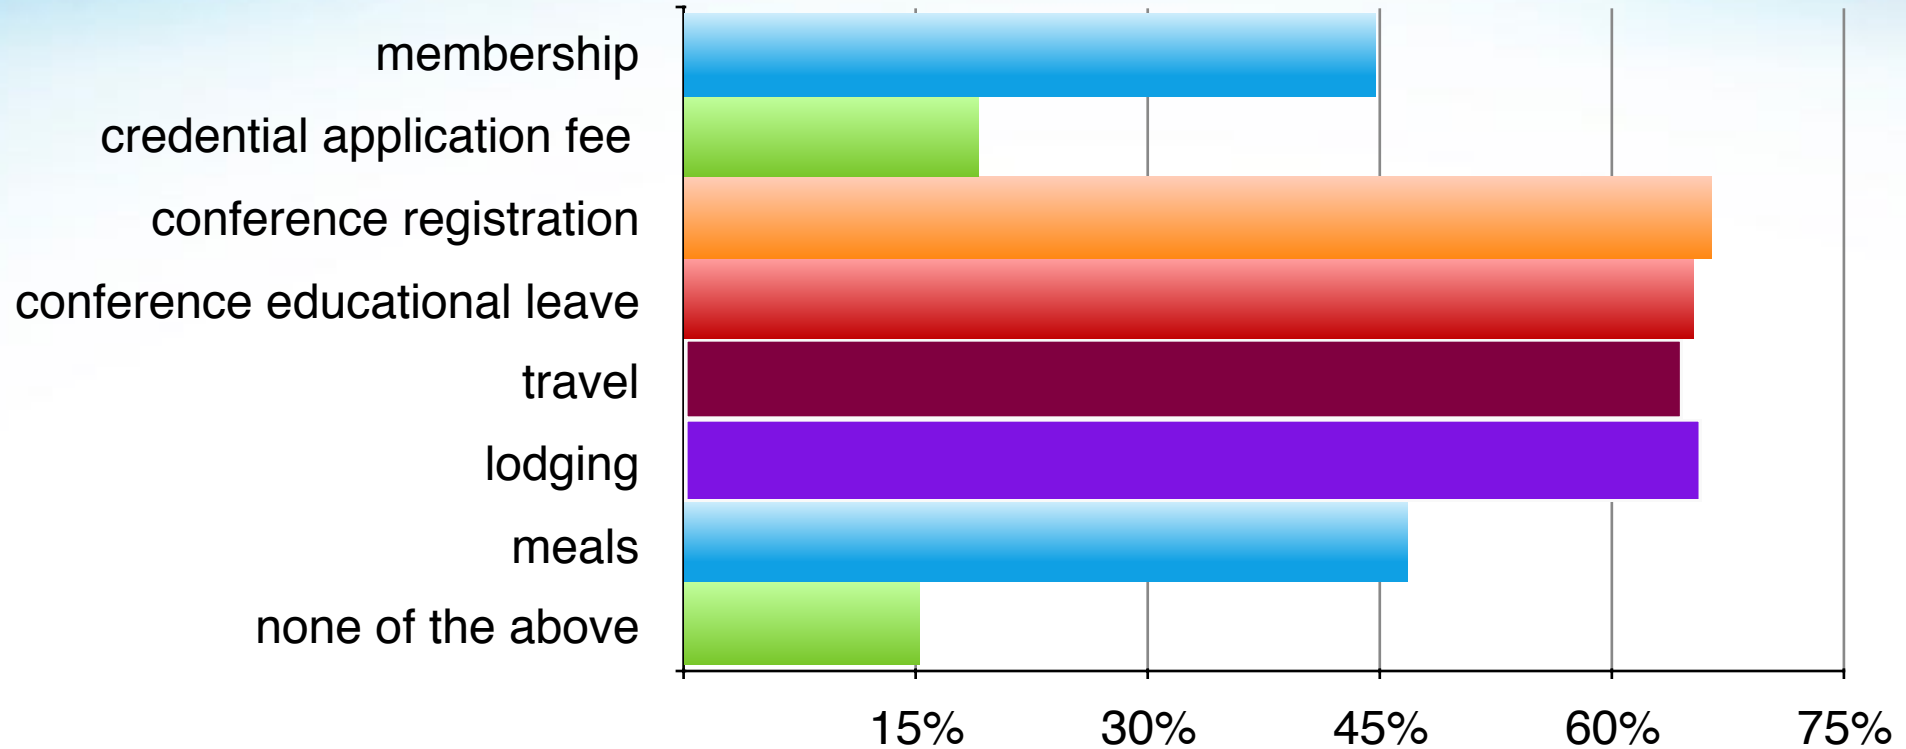

# SW discharge planning tasks (2 of 2)

# Department paying SW salary

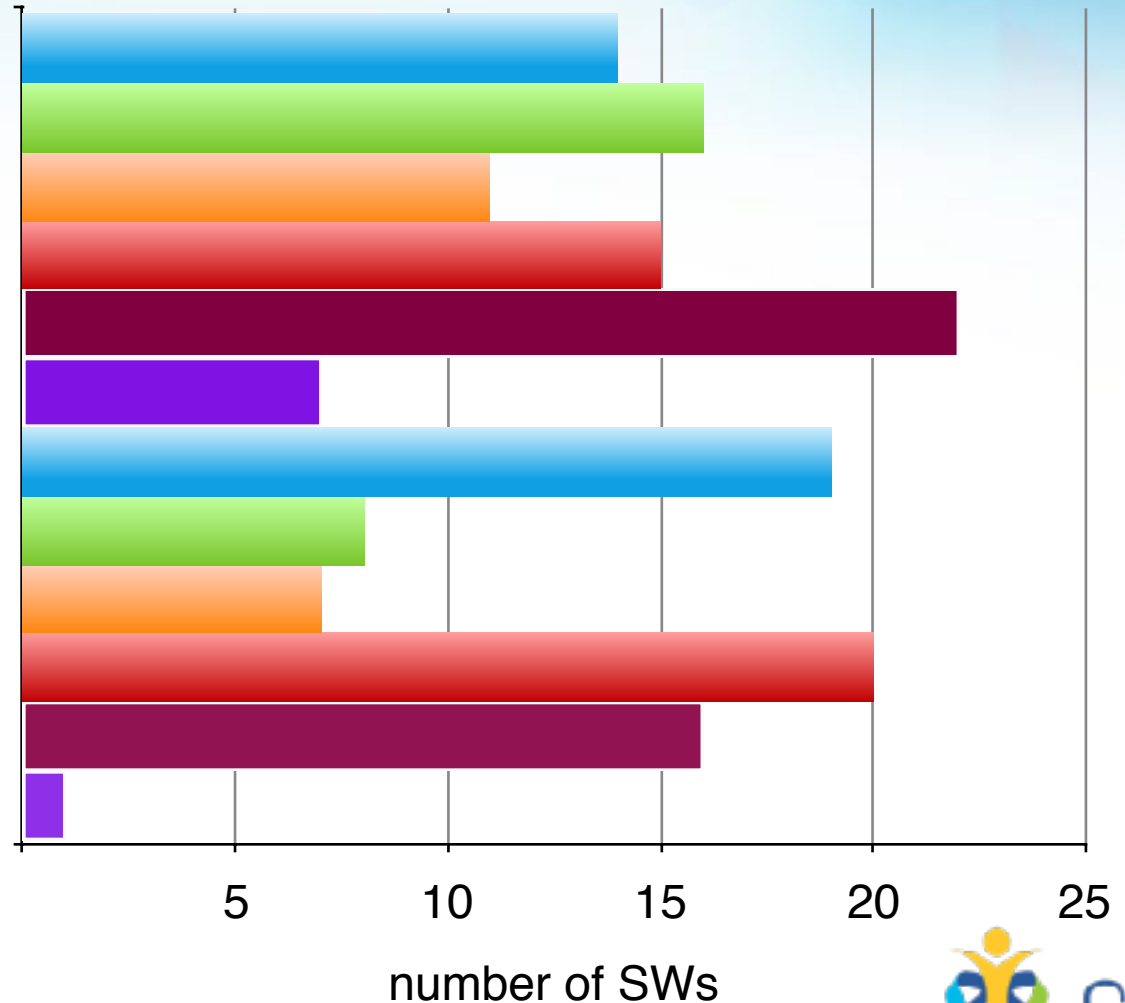

# STSW expenses employer will pay
